### Daikin is one of the largest manufacturers

of heating, cooling and refrigerant products in the world.

Daikin is recognized as one of the world leaders in the manufacture of HVAC equipment and refrigerants. For over 90 years, Daikin has grown consistently and successfully due to the loyalty and success of our customers, as well as a track record of innovation and quality. Daikin is redefining home comfort in North America with some of the most technologically and aesthetically advanced solutions. These intelligent, energy efficient systems provide an unprecedented level of individual comfort and control.

Daikin is expansive in its manufacturing footprint. It is global, but with a local focus. We have operations around the world, with research and development, as well as production facilities in 70 countries.

Using our advanced technology and expertise, Daikin has earned a reputation for excellence as an indoor comfort specialist in countries and regions spanning the globe by providing solutions for the needs of our customers. In the United States, we operate major manufacturing and research and development facilities in Texas, Tennessee, Minnesota, Alabama and Ohio.

### **Additional Information**

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

### Why Zoned Systems?

### DAIKIN HAS A FOCUS AND TRACK RECORD OF QUALITY

With over ninety years of HVAC history since its founding, Daikin has created a global indoor comfort revolution with innovative new technologies and products that have brought firsts to the world. From the introduction of new compressor designs or new ways to precisely control refrigerant flow, Daikin strives to be a global leader by investing in technology. We bring this same focus on innovation to North America, applying our portfolio of product features from around the world to meet the challenges we face in North American homes and businesses.

### Optimal design and comfort for the whole home

### Integrated design

Daikin indoor single and multi-zone units offer homeowners a discreet, modern design. The unit's smooth curve blends beautifully with the wall resulting in an unobtrusive presence that matches virtually all interior décors.

### **Efficient and smart**

Inside the single and multi-zone system is a highly intelligent system, with innovative features designed to reduce power consumption. Some units offer whisper-quiet performance down to 19dB(A) to further to your sense of comfort.

### Intelligent eye

The intelligent eye occupancy sensor, available on select models, controls comfort and conserves energy. If the room is empty for 20 minutes it changes the set point to start saving energy. As soon as someone enters the room, it immediately returns to the original setting. Regular use of this feature can provide additional energy savings of up to 20% or more compared to units without this feature.

#### Daikin single and multi-zone systems offer dealers:

- » High-quality, energy-efficient comfort solutions
- » Opportunities to spend less time on installations and more time with new customers
- » Differentiated product offerings that deliver improved customer satisfaction
- » Outstanding limited warranties\* and reduced call backs

As an innovation leader, Daikin is laying the foundation for next generation technology with multiple cutting-edge core technologies. In May 2013, Forbes Magazine recognized Daikin as an

innovation leader, putting Daikin on its list of the 100 Most Innovative companies in the world.

<sup>\*</sup> Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 10-Year or 12-Year Parts Limited Warranties, the 10-Year Compressor Replacement Limited Warranty, the 20-Year Heat Exchanger Limited Warranty, the Lifetime Heat Exchanger Limited Warranty (good for as long as you own your home), and to receive the 6-Year or 12-Year Unit Replacement Limited Warranty, online registration must be completed within 60 days of installation. Additional requirements for annual maintenance are required for the 6-Year and 12-Year Unit Replacement Limited Warranties. Online registration and some of the additional requirements are not required in California or Quebec.

### A full range of styles and options for every home, and every room

Daikin single and multi-zone systems are an ideal solution to displace traditional systems in primary living spaces or for refurbishing and remodeling additional spaces. They have a modern design and are extremely quiet in operation.

Our heat pumps are all-in-one heating and cooling solutions, meaning comfortably warm in winter and cool in summer.

### Smart Inverter Technology

Daikin's inverter technology is a true innovation in the field of climate control. The principle is simple: inverters adjust the power used to suit the actual requirement – no more, no less! Single & multi-zone systems deliver the capacity required to maintain desired room conditions, typically reducing energy consumption by up to 30% or more compared to traditional fixed-speed ducted systems. This technology minimizes temperature fluctuations and provides continuous cooling and heating comfort.

### **Whisper Quiet**

Daikin systems feature low indoor and outdoor operating sound levels. Daikin systems most often operate at low speeds with indoor sound levels as low as 19 decibels (dB) and outdoor sound levels as low as 46 dB. Activate the indoor unit quiet operation and sound levels drop by 2-3 dB for gentler heating and cooling, quiet operation.

### Advanced Filtration

Long life, washable filters.

#### Heating Performance

Daikin systems provide heating performance with single and multi-zone Heating Seasonal Performance Factor's (HSPF's) as high as 12.5, making Daikin systems efficient and effective even in extreme environments.

 $<sup>^{\</sup>dagger}\,$  If product installed in a commercial application, limited warranty period is 5 years.

<sup>11</sup> If product installed in a commercial application, limited warranty periods will differ depending on the model.

<sup>†††</sup> Registration not required if installed in a commercial or residential application.

### **Single and Multi-Zone Systems**

### Key Features and Benefits

### **Superior Comfort Control**

### Indoor Unit Quiet Operation.

Sound levels are reduced by 2-3 decibels (dB) from the low fan speed for guieter and gentler heating and cooling.

### **Outdoor Unit Quiet Operation.**

Outdoor unit sound levels can be reduced by 3dB for times when quieter operation is needed.

#### Intelligent Eye.

The intelligent eye is an infrared sensor with the ability to sense movement in the room. When you are in the room, the air conditioner operates normally.

If you leave the room for more than 20 minutes the air conditioner automatically changes to an energy-saving operation. Using the intelligent eye, savings of up to 20% in cooling and up to 30% in heating can be achieved compared to units without this feature.

### **Automatic Operation.**

For unattended year-round comfort, this function allows the unit to automatically switch between heating and cooling modes as required. (heat pumps types only)

### **Program Dry Function.**

This gives priority to reducing the level of humidity in the room rather than room temperature.

### Auto Fan Speed.

To reduce operating sound and power consumption, the fan speed is automatically controlled by the micro-processor to suit the controller setting and

prevailing room temperature.

### Hot Start.

When the heating operation starts or when the unit changes from cooling to heating there is no cold draft released into the room.

### **Cold Climate Optimized**

### Daikin AURORA™ Models.

These systems have been designed to deliver effective heating performance to ambient conditions as low as -13 °F / -25 °C.

#### Low Ambient Cooling.

Cooling operation down to -22°F (-30°C) outside temperature for cooling only models. No fuel installer kit required.

### Lifestyle Convenience

#### Econo Mode.

Limits the maximum operating current and power consumption of the outdoor unit by approximately 30% during start-up. This saves energy and reduces the load on the electrical circuit when multiple electrical devices are used simultaneously.

### Powerful Operation.

Pushing the POWERFUL button on the remote control gives you a boost in cooling or heating power for a 20-minute period, even if the unit is already operating at high capacity.

### Remote Controller with Back-lit Display.

Features a back-lit LCD and luminescent control buttons, allowing for easy viewing in dimly lit rooms.

### Home Leave Operation.

Select this energy saving function when leaving the house and the air conditioner will operate at a pre-selected temperature. Your home can then be warmed or cooled much quicker upon your return. It can also be used to record your preferred (default) settings.

#### Indoor Unit On/Off Switch.

A convenient on/off switch on the indoor unit allows you to start up the system even if you have misplaced the remote control or the remote control batteries are exhausted.

### Comfortable Airflow

### Wide Angle Louvers.

Smoothly curved wide-angle louvers provide wide airflow coverage for effective heating and cooling no matter where the indoor unit is placed within

the room.

### **Draft Reduction.**

This system directs warm air to the floor in winter and cool air across the room in summer for optimal efficiency and comfort. The large flap

governs airflow direction while the small flap (or diffuser) swings, producing fine air currents that help circulate the air around the room.

### **Comfort Mode.**

Comfort Mode operation improves comfort. When cooling, the flap positions itself horizontally to keep cold airflow from being blown directly onto the body.

When heating, the flap turns vertically downwards to drive warm air to the bottom of the room.

### **Single and Multi-Zone Systems** Key Features and Benefits

#### ECO+

An intelligent feature that ensures optimum energy consumption while fulfilling basic human comfort needs. Once activated, set temperature will be adjusted automatically to an optimum energy consumption level.

### Vertical Auto-Swing (up and down).

The vertical auto swing automatically sweeps the air across the room in an up and down motion. When the unit is switched off, the louvers close automatically.

### Horizontal Auto-Swing (left and right).

Automatically moves to ensure an even distribution of air throughout a room.

#### 3-D Airflow.

Combines vertical and horizontal auto-swing to circulate cool/warm air to the corners of large spaces.

### **Worry Free**

### Auto-Restart.

The unit memorizes the operation mode, airflow and temperature settings. Should there be a power failure when the unit is in operation, it will automatically return

to the same operating conditions when the power is restored.

### Self-Diagnosis.

In the event that a problem develops with the unit, malfunction codes can be displayed on the liquid crystal panel of the remote control for fast and easy fault diagnosis.

### Anti-Corrosion.

The special anti-corrosion coating on the outdoor unit heat exchanger provides resistance to salt damage and atmospheric corrosion.

### Comfortable and Clean

### Air-Purifying Filter with Photocatalytic **Deodorizing Function.**

This combination operates as a highly-effective unit and can be used for up to three years if periodic maintenance is performed.

### Titanium Apatite Photocatalytic Air-Purifying Filter.

This filter combines the air-purifying filter and titanium apatite photocatalytic deodorizing filter in a single highly effective unit. The filter can last for up

to three years without replacement if washed once every six months.

### Specialized Air Filter.

The pre-filter net is impregnated with a safe, colorless and odorless agent that is intended to help reduce mold on the filter itself.

### Wipe-Clean Flat Panel.

The flat panel models can be cleaned with only the single pass of a cloth across their smooth surface. The flat panel can also be easily removed for more

thorough cleaning.

### Timers

#### 24-Hour On/OffTimer.

The timer can be preset to start and stop the air conditioner at any time within a 24-hour period. Once the times are set, the air conditioner can be operated for a period by simply pressing the ON or OFF timer buttons.

#### Weekly Timer.

The weekly timer function makes it easy to enter up to four settings per day for each day of the week.

The weekly timer function not only allows you to program on and off time, but also the desired temperature.

### Night Set Mode.

Through the use of the 'Timer-OFF Circuit', the preset room temperature gently rises in cooling or falls in heating before the unit stops. This energy-saving

feature allows you to sleep comfortably without feeling a sudden change in the room temperature, while at the same time saving energy.

### Keeping Warm

### **Quick Warming Function.**

Prevents the compressor from pumping liquid refrigerant in low-ambient conditions. (Heat pumps

### **Automatic Defrosting.**

Sensor performs automatic defrosting of the outdoor heat exchanger if necessary, ensuring optimum heating performance. (Heat pumps only)

### Regional Efficiency Standards

U.S. Department of Energy (DOE) minimum efficiency changes went into effect on January 1, 2015, affecting all residential air conditioners and heat pumps we manufacture. One additional change implemented that adds complication is regional standards that apply to Split System and Package Air Conditioners. Now, the DOE minimum efficiency standards include both national standards (which are based on date of manufacture) and regional standards (which are based on date of installation).

#### **National Standards**

- » Split system heat pumps (14 SEER / 8.2 HSPF)
- » Single package heat pumps (14 SEER / 8.0 HSPF)
- » Single package air conditioner (14 SEER)
- » Single package gas/electric (14 SEER /

81% AFUE)

- » Gas fired furnaces (80% AFUE)
- » Kept 13 SEER base national standard for split-system air conditioners

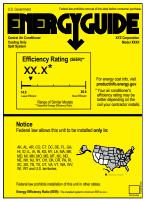

#### Labeling

There are two methods to help identify products subject to regional standards. The first is the EnergyGuide label that is noticeably different, with the inclusion of the map of the United States that identifies where the equipment can be installed.

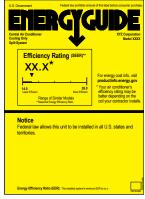

The second is a separate statement that will be on the rating plate or on a label next to the rating plate called the "Install Prohibited" statement. All products subject to regional standards have both the EnergyGuide label and the Install Prohibited statement.

NOTE: The Federal Trade Commission (FTC) originally required a range of SEER be placed on Split System products subject to regional efficiency standards. However, they reversed their decision and now only a single value is listed (since mid-2017). Products in inventory may have mixed EnergyGuide labels (some having a range, others having a single value for SEER).

### **EnergyGuide Labels Currently In Effect**

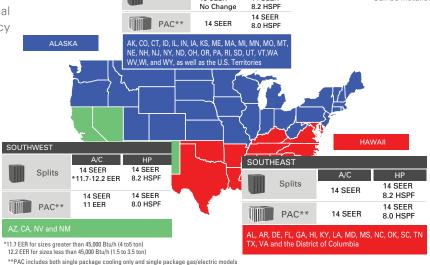

Subject to regional standards

Can be installed anywhere

### **Efficiency Standards**

13 SEER

Splits

· Regional standards apply only to single phase air conditioners, 5 ton and less

### Regional Efficiency Standards

### What You Need to Know as a Distributor

DOE defines a distributor as "a person (other than a manufacturer or retailer) to whom a consumer product is delivered or sold for purposes of distribution in commerce." Therefore, if you resell product for sale other than to an end user, you may be considered a distributor as opposed to a contractor or dealer (see definitions below).

Distributors are required to comply with the requirements:

- Do not knowingly sell product that will be installed in violation of regional standards.
- 2. Conduct regional standards training for all employees and customers.
- 3. Maintain records for all units subject to the regional standards for a period of 54 months. These records are to include the outdoor unit manufacturer, model number, serial number, date of purchase, date of sale, customer name and delivery address if delivered.

### What You Need to Know as a Contractor/Dealer

As a contractor or dealer, you will also be required to adhere to requirements of the DOE 2015 HVAC Regional Standards Enforcement Rules. DOE has defined a contractor as "a person (other than the manufacturer or distributor) who sells to and/or installs for an end user a central air conditioner subject to

regional standards." DOE has defined a dealer as "a type of contractor, generally with a relationship with one or more specified manufacturers." The contractor/dealer requirements include the following:

- Do not knowingly install product that is in violation of regional standards.
- 2. Conduct regional standards training for all employees.
- 3. Maintain records for all units subject to the regional standards for a period of 48 months. These records to include the indoor and outdoor unit manufacturer and model number, outdoor unit serial number, distributor purchased from, date and address of installation.

#### **Enforcement**

Enforcement of the standards will be at least partially via complaints registered with the DOE. DOE has set up an email for reporting suspected violations directly to them at EnergyEfficiencyEnforcement@doe.gov,or suspected violations can be reported by phone, at (202) 287-6997.

All verified violations will require remediation and can result in stiff fines. Notices of Violation will be posted publicly by the DOE. Further, if a distributor or contractor/dealer is found to routinely violate the standards, manufacturers can be prohibited from selling products to that party.

Contractors, dealers and distributors should be aware that the DOE may request copies of documentation proving product sales and installations are in compliance. Records requested by DOE must be provided within 30 days.

#### **Training**

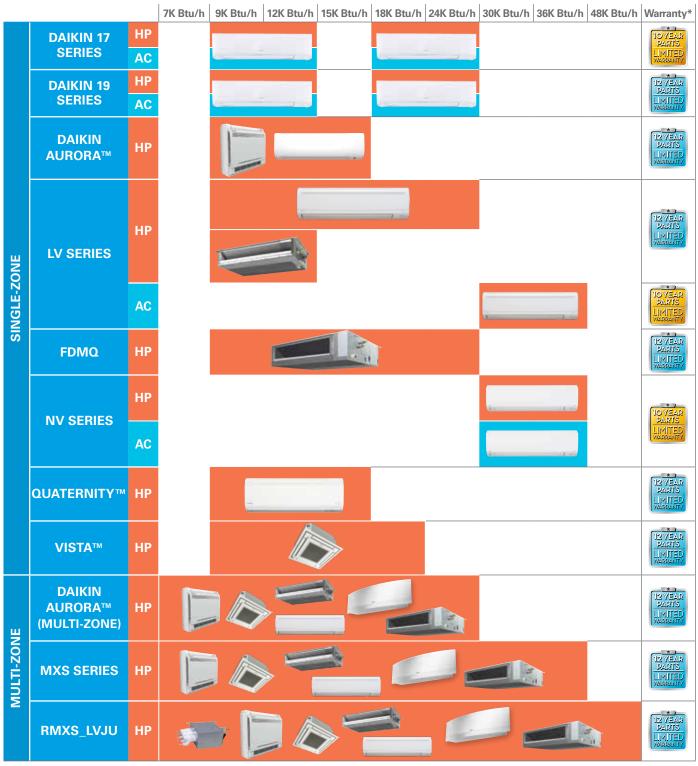

A recorded webinar providing details about the efficiency standards is available for viewing at www.daikincomfort.com/standards. Questions about the efficiency standards can be emailed to RegionalStandardsQuestions@goodmanmfg.com.

### **IMPORTANT NOTE:**

The information provided is a summarized overview and is not intended to provide a complete description of the DOE 2015 Regional Standards. For more information regarding the DOE 2015 HVAC Regional Standards and the enforcement of these standards, please visit https://energy.gov/gc/regional-standards-enforcement.

### Single and Multi-Zone Systems

<sup>\*</sup> Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 10-Year or 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

If product installed in a commercial application, limited warranty period is 5 years.

<sup>†</sup> With wired remote controller

<sup>■</sup> When connected to Daikin AURORA Multi-Zone System

### **Control from Anywhere**

### Innovative Controls Solutions

### **Navigation Remote** Controller (Wired) (BRC1E73)

The Navigation Remote Controller offers scalable control architecture optimized for Daikin FFQ, FDMQ single-zone, multi-zone and SkyAir systems. The wall-mounted controller features a back-lit LCD display as well as intuitive menus. The menu displays are available in English, French, or Spanish languages.

### Hand-held Wireless Controller

Hand-held controllers, included with most indoor units, provide flexible control of Daikin single and multi-zone systems including: temperature control, operating modes, weekly programming, and more.

### **Nature**

Save money on utility bills and reduce energy consumption (as compared to non-scheduled systems) with the weekly schedule.

### Daikin Comfort Control App and Wireless Interface Adapter for Most Single & Multi-Zone Systems (BRP072A43)

It can happen to anyone. You forgot to change the temperature of your heat pump system or air conditioner before leaving the house, or you will be delayed returning home and wish to avoid needlessly heating or cooling your home. What in the past would

have resulted in wasted energy is no longer a problem. With the new Daikin Comfort Control App, you are always in control. You can use your tablet or smartphone to access your Daikin system via the internet. Fault conditions can also be detected remotely, allowing a quick response to problems.

### Functions accessible via the **Daikin Comfort Control App**

Cooling Mode Your Daikin system will only run in cooling mode to maintain the desired cooling temperature

### **Daikin 17 series**

## Wall-Mounted Cooling Only & Heat Pump 17 SEER | 9 HSPF

### COMFORTABLE LIMITED WARRANTY\* PROTECTION

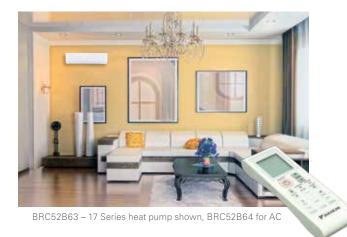

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. If product installed in a commercial application, limited warranty period is 5 years.

Daikin 17 series is available in both cooling only and heat pump configuration to offer a stylish design at an outstanding value. Wall-mounted units are simple to install and can placed subtly, high on a wall, where they do not detract from your décor and operate very quietly.

#### Standard Features

- » Energy Efficient 17 SEER, 9 HSPF, up to 11 EER – Variable-Speed Inverter Compressor
- » Cooling Range: 50° 115°F
- » Heating Range: 5° 65°F
- » Indoor Sound Pressure as low as 22 dB(A)
- » Outdoor Sound Pressure as low as 46 dB(A)
- » Eco+
- » Titanium Apatite Photocatalytic Air Purifying Filter
- » Powerful Operation Mode
- » Wireless Remote Controller
- » Auto Changeover (Heat Pump Only)
- » Auto Fan Speed Control
- » Self-Diagnostics with Digital Display
- » Auto-Restart after Power Failure
- » Anti-Corrosion Heat Exchanger Treatment
- » Quick warming function (Heat Pump)
- » Automatic defrosting (Heat Pump)

### **IDEAL SOLUTIONS FOR:**

- > Renovations, remodeling and new construction
- Sun rooms, basements, attics, garages, hot or cold rooms, and more
- Rooms where floor space comes at a premium or is not available for other application
- > Ceiling void or attic does not allow for a viable duct run option
- Cooling Only models are an excellent value for space not requiring heating

**ECO+** – An intelligent feature that ensures optimum energy consumption while fulfilling basic human comfort needs. Once activated, set temperature will be adjusted automatically to an optimum energy consumption level

**Auto-Restart** – The unit memorizes the operation mode, airflow and temperature settings. Should there be a power failure when the unit is in operation, it will automatically return to the same operating conditions when the power is restored.

**Titanium Apatite Photocatalytic Air Purifying Filter** – This filter combines the air-purifying filter and titanium apatite photocatalytic deodorizing filter in a single highly effective unit.

**Blue Fin Protection** – The hydrophilic coated fin ensures the condensate water moves easily to the drain pan — thus enhancing the cleanliness and lifespan of the cooling coil.

### **Daikin 19 series**

## Wall-Mounted Cooling Only & Heat Pump Up to 19 SEER | 9.0 HSPF

### COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. If product installed in a commercial application, limited warranty period is 5 years.

Daikin 19 series is available in both cooling only and heat pump configuration to offer advanced features and energy savings. Wall-mounted units are simple to install and can placed subtly, high on a wall, where they do not detract from your décor and operate very quietly. Daikin 19 Series is offered with an outstanding 12-year limited warranty\* and is ENERGYSTAR® rated, for additional peace of mind.

### Standard Features

- » Energy Efficient Up to 19 SEER, 9.0 HSPF, up to 12.5 EER – Variable-Speed Inverter Compressor
- » Cooling Range: 50° 115° F (Extended operation to -4° - 115° F with facility setting and air adjustment grille)
- » Heating Range: 5° 65° F
- » Indoor Sound Pressure as Low as 19 dB(A)
- » Outdoor Sound Pressure as Low as 46 dB(A)
- » Washable Air Filter
- » Program Dry Function
- » Econo Mode.
- » Titanium Apatite Photocatalytic Air Purifying Filter
- » Powerful Operation Mode
- » Backlit Wireless Remote Controller
- » Auto-Changeover (Heat Pump Only)
- » Auto-Fan Speed Control
- » Self Diagnostics with Digital Display
- » Auto-Restart after Power Failure
- » Anti-Corrosion Heat Exchanger Treatment
- » Quick Warming Function (Heat Pump)
- » Hot Start Function (Heat Pump)
- » Automatic Defrosting (Heat Pump)

#### **Optional Features**

- » Wired controller
- » Compatible with Daikin Comfort App (adapter required)

| Indoor Unit     | Optional Accessories   |
|-----------------|--|
| BRP072A43       | Wireless Interface Adapter (S21 Adapter Included)                  |
| BRC944B2-A08    | Wired Remote Controller kit (Adaptor Required)                     |
| BRCW901A08      | Wired Remote Controller Cord - 8m (Included in above kit)          |
| DACA-BRCW901P10 | Remote Controller Cable, Plenum Rated, 10 ft                       |
| DACA-BRCW901P25 | Remote Controller Cable, Plenum Rated, 25 ft                       |
| KRP980B2        | Adaptor for wired remote controller (18 & 24)                      |
| KRP067A41       | Adaptor for wired remote controller (09 & 12)                      |
| KAF970A45       | Titanium apatite photocatalytic air-purifying filter WITH frame    |
| KAF970A46       | Titanium apatite photocatalytic air-purifying filter WITHOUT frame |
| DACA-CP3-1      | Condensate Pump (Fits inside all Daikin indoor unit heads)         |
| Outdoor Unit    | Optional Accessories   |
| DACA-WB-1       | Powder Coated Wall-Mounted Bracket                                 |
| KPW063A4        | Air direction adjustment grille (18 & 24)                          |
| KPW937E4        | Air direction adjustment grille (09 & 12)                          |
| KKG067A41       | Back protection wire net (09 & 12)                                 |
| KKG063A42       | Back protection wire net (18 & 24)                                 |
| KKG063A43       | Side protection wire net (18 & 24)                                 |
| KKP937A4        | Drain Plug for OD Unit   |
| KEH067A41E      | Drain pan Heater (09/12)   |
| KEH063A4E       | Drain pan Heater (18/24)   |

#### IDEAL SOLUTIONS FOR:

- Renovations, remodeling and new construction
- Sun rooms, basements, attics, garages, hot or cold rooms, and more
- Rooms where floor space comes at a premium or is not available for other application
- > Ceiling void or attic does not allow for a viable duct run option
- Cooling Only models are an excellent value for space not requiring heating

**Daikin Comfort App** – Easily control your system from anywhere in the world or the comfort of your living room.

**Auto-Restart** – The unit memorizes the operation mode, airflow and temperature settings. Should there be a power failure when the unit is in operation, it will automatically return to the same operating conditions when the power is restored.

**Titanium Apatite Photocatalytic Air Purifying Filter** – This filter combines the air-purifying filter and titanium apatite photocatalytic deodorizing filter in a single highly effective unit.

**Program Dry Function** – This gives priority to reducing the level of humidity in the room rather than room temperature.

**Comfort Mode** – Comfort Mode operation improves comfort. When cooling, the flap positions itself horizontally to prevent cold airflow from being blown directly onto the body. When heating, the flap turns vertically downwards to drive warm air to the bottom of the room.

**Hot Start** – (Heat Pump) When the heating operation starts or when the unit changes from cooling to heating, there is no cold draft.

ARC480A8 - 19 Series heat pump shown, ARC480A9 for AC

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet **ENERGY STAR®** criteria. Ask your contractor for details or visit www.energystar.gov.

### **Daikin 19 series**

## Wall-Mounted Heat Pump Up to 19 SEER | 9.0 HSPF

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet **ENERGY STAR®** criteria. Ask your contractor for details or visit www.energystar.gov.

### Daikin AURORA™

## Wall-Mounted Heat Pump

### **COMFORTABLE LIMITED** WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec If product installed in a commercial application, limited warranty period is 5 years.

Total indoor climate control means having the ability to select a desirable temperature for each space in a house and to have that temperature maintained no matter what the temperature outside - from -13°F / -25°C to 114.8°F / 46°C, ensuring all year round comfort. For all regions, the outdoor units of this Daikin AURORA heat pump system have been redesigned to withstand extreme weather conditions with excellent energy efficiency ratings.

### **Standard Features**

- » Energy Efficient Up to 20 SEER, 12.5 HSPF, 13.0 EER
- » Up to 100% Cooling Capacity at 104° F (40°C).
- » Cooling Range: 50° 115° F (Extended operation to -4° - 115° F with facility setting and air adjustment grille)
- » Heating Range: -13° 60° F
- » Redesigned PCB in the outdoor unit to withstand extreme conditions
- » Indoor Sound Pressure as Low as 19 dB(A)
- » Outdoor Sound Pressure as Low as 49 dB(A)
- » Washable Air Filter
- » Program Dry Function
- » Econo Mode
- » Titanium Apatite Photocatalytic Air Purifying Filter
- » Powerful Operation Mode
- » Backlit Wireless Remote Controller
- » Outdoor Unit Quiet Operation
- » Auto-Changeover
- » Auto-Fan Speed Control
- » Self Diagnostics with Digital Display
- » Auto-Restart After Power Failure
- » Anti-Corrosion Heat Exchanger Treatment
- » Quick Warming Function
- » Hot Start Function
- » Automatic Defrosting

### **Optional Features**

- » Wired controller
- » Compatible with Daikin Comfort App (adapter required)

### **IDEAL SOLUTIONS FOR:**

- > Hot & cold regions where homeowners want to enjoy a reliable, energy efficient source of heating and cooling
- > Cold regions where homeowners want to enjoy a reliable, energy efficient source of heat
- > Renovations, remodeling and new construction
- > Sun rooms, basements, attics, garages, hot or cold rooms,
- > Rooms where floor space comes at a premium or is not available for other application
- Ceiling void or attic does not allow for a viable duct run option

Daikin AURORA heat pump for extreme weather conditions – Up to 100% heating capacity at 5°F (-15°C) and operate efficiently as low as -13°F ambient temperature.

Daikin Comfort App – Easily control your system from anywhere in the world or the comfort of your living room.

**Auto-Restart** – The unit memorizes the operation mode, airflow and temperature settings. Should there be a power failure when the unit is in operation, it will automatically return to the same operating conditions when the power is restored.

#### **Titanium Apatite Photocatalytic**

**Air Purifying Filter** – This filter combines the air-purifying filter and titanium apatite photocatalytic deodorizing filter in a single highly effective unit.

**Comfort Mode** – Comfort Mode operation improves comfort. When cooling, the flap positions itself horizontally to prevent cold airflow from being blown directly onto the body. When heating, the flap turns vertically downwards to drive warm air to the bottom of the room.

Hot Start – (Heat Pump) When the heating operation starts or when the unit changes from cooling to heating, there is no cold draft.

Powerful Operation Mode – Pushing the POWERFUL button on the remote control gives you a boost in cooling or heating power for a 20-minute period, even if the unit is already operating at high capacity.

KPS067A44

Condensate Pump (Fits inside all Daikin indoor unit heads)

DACA-CP3-1

Most Efficient Products that are recognized as the Most greenhouse gas emissions by meeting rigorous energy efficiency performance levels set by the U.S. Environmental Protection Agency.

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR criteria. Ask your contractor for details or visit www.energystar.gov.

### **Daikin AURORA™**

## Wall-Mounted Heat Pump

Our outdoor unit drain pans have up to 14 holes which allows for effective

drainage of condensation. In some case, this improved drain pan design eliminates the need for drain pan heaters, resulting in higher efficiencies in low ambient temperatures.

<sup>\*</sup>Cutting a jumper or a dipswitch setting is required. Refer to installation manual.

<sup>&#</sup>x27;The installation of an optional drain-pan is recommended in areas where ambient temperature may fall below 5 °F (-15 °C) or in areas of heavy snowfall or high levels of wintertime humidity.

### Daikin AURORA™

## Floor-Mounted Heat Pump Up to 20 SEER | Up to 11.7 HSPF

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. If product installed in a commercial application, limited warranty period is 5 years.

Daikin *AURORA* floor-mounted units are simple to install and can be setup in various configurations, on the floor or hanging low on a wall. Its low height enables the unit to fit perfectly beneath a window. The airflow distribution pattern of Daikin's floor-mounted unit is ideal for heating or cooling a space, and is a perfect replacement to traditional radiant systems. For all regions, the outdoor units of this Daikin *AURORA* heat pump system have been redesigned to withstand extreme weather conditions with excellent energy efficiency ratings, from -13°F / -25°C to 114°F / 46°C outside.

### **Standard Features**

- » Energy Efficient Up to 20 SEER, 11.7 HSPF, 12.5 EER
- » Up to 100% Cooling Capacity at 104° F (40°C).
- » Cooling Range: 50° 115° F (Extended operation to -4° - 115° F with facility setting and air adjustment grille)
- » Heating Range: -13° 60° F
- » Redesigned PCB in the outdoor unit to withstand extreme conditions
- » Indoor Sound Pressure as Low as 23 dB(A)
- » Outdoor Sound Pressure as Low as 49 dB(A)
- » Washable Air Filter
- » Program Dry Function
- » Econo Mode
- » Titanium Apatite Photocatalytic Air Purifying Filter
- » Powerful Operation Mode
- » Backlit Wireless Remote Controller
- » Outdoor Unit Quiet Operation
- » Auto-Changeover
- » Auto-Fan Speed Control
- » Self Diagnostics with Digital Display
- » Auto-Restart After Power Failure
- » Anti-Corrosion Heat Exchanger Treatment
- » Quick Warming Function
- » Hot Start Function
- » Automatic Defrosting

#### **Optional Features**

- » Wired controller
- » Compatible with Daikin Comfort App (adapter required)

### IDEAL SOLUTIONS FOR:

- Hot & cold regions where homeowners want to enjoy a reliable, energy efficient source of heating and cooling
- Cold regions where homeowners want to enjoy a reliable, energy efficient source of heat
- > Renovations, remodeling and new construction
- Sun rooms, basements, garages, hot or cold rooms, attics where the walls tend to be lower, or wherever wall space is at a premium
- > Ceiling void or attic does not allow for a viable duct run option

**Daikin AURORA** heat pump for extreme weather conditions – Up to 100% heating capacity at 5°F (-15°C) and operate efficiently as low as -13°F ambient temperature.

**Daikin Comfort App** – Easily control your system from anywhere in the world or the comfort of your living room.

**Auto-Restart** – The unit memorizes the operation mode, airflow and temperature settings. Should there be a power failure when the unit is in operation, it will automatically return to the same operating conditions when the power is restored.

### **Titanium Apatite Photocatalytic**

**Air Purifying Filter** – This filter combines the air-purifying filter and titanium apatite photocatalytic deodorizing filter in a single highly effective unit.

**Comfort Mode** – Comfort Mode operation improves comfort. When cooling, the flap positions itself horizontally to prevent cold airflow from being blown directly onto the body. When heating, the flap turns vertically downwards to drive warm air to the bottom of the room.

**Hot Start** – (Heat Pump) When the heating operation starts or when the unit changes from cooling to heating, there is no cold draft.

### **Daikin AURORA™**

### Floor-Mounted Heat Pump Up to 20 SEER | Up to 11.7 HSPF

Our outdoor unit drain pans have up to 14 holes which allows for effective

drainage of condensation. In some case, this improved drain pan design eliminates the need for drain pan heaters, resulting in higher efficiencies in low ambient temperatures.

<sup>\*</sup>Products that are recognized as the Most Efficient of **ENERGY STAR**® in 2018 prevent greenhouse gas emissions by meeting rigorous energy efficiency performance levels set by the U.S. Environmental Protection Agency.
\*Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet **ENERGY STAR** criteria.
Ask your contractor for details or visit www.energystar.gov.

<sup>&#</sup>x27;The installation of an optional drain-pan is recommended in areas where ambient temperature may fall below 5 ° (-15 °C) or in areas of heavy snowfall or high levels of wintertime humidity.

<sup>\*\*</sup>Cutting a jumper or a dipswitch setting is required. Refer to installation manual.

### **VISTA**<sup>TM</sup>

## Ceiling Cassette Heat Pump Up to 20.9 SEER | Up to 11.7 HSPF

### COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. If product installed in a commercial application, limited warranty period is 5 years.

Daikin VISTA ceiling cassette heat pumps are a remarkable blend of iconic design and engineering excellence with an elegant white or a silver and white finish. Fitting within the ceiling grid and discreetly mounted to the ceiling itself, VISTA ceiling cassette is stylish, low profile, and compact. High efficiency and comfort is delivered through the combined use of floor and presence sensors (optional). It is also possible to close individual louvers via the wired remote control for personalized comfort.

### Standard Features

- » Seamless integration in standard architectural ceiling tiles, leaving only 5/16"
- » High efficiencies with up to 20.9 SEER and up to 11.7 HSPF
- » Cooling Range: 50° 115° F (Extended operation to -4° - 115° F with facility setting and air adjustment grille)
- » Heating Range: 5° 65° F
- » Energy efficient thanks to specially developed small tube heat exchanger, DC fan motor and two optional intelligent sensors
- » Remarkable blend of iconic design and engineering excellence with an elegant finish in white or a combination of silver and white
- » No optional adapter needed for DIII-connection, link your unit into the wider building management system
- » Fresh air integration possible
- » 12-Year Parts Limited Warranty\*

### **Optional Features**

- » Wired controller
- » Fresh air integration possible
- » Presence and Floor Sensor

**Draft Reduction** – This system directs warm air to the floor in winter and cool air across the room in summer for optimal efficiency and comfort. The large flap governs airflow direction while the small flap (or diffuser) swings, producing fine air currents that help circulate the air around the room.

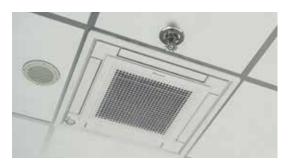

**Individual Louver Control** – The new louver changes the delivery angle to horizontal for cooling and vertical for heating operation, to keep cold or warm air from blowing directly onto your body.

Included in the optional sensor kit:

Presence and Floor Sensor (optional part #BRYQ60A2W or BRYQ60A2S)

The presence and floor sensors are infrared sensors with the ability to sense movement in the room. When you are in the room, the system operates normally. If you leave the room for more than 20 minutes the system automatically changes to an energy-saving operation. Using the intelligent eye, savings of up to 20% in cooling and up to 30% in heating can be achieved. The floor sensor detects the average floor temperature and ensures even temperature distribution between ceiling and floor.

The VISTA Ceiling Cassette fits within a 2'x 2' ceiling grid and can be installed in close proximity to other building accessories.

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet **ENERGY STAR®** criteria. Ask your contractor for details or visit www.energystar.gov.

## Ceiling Cassette Heat Pump Up to 20.9 SEER | Up to 11.7 HSPF

### **LV Series**

### Wall-Mounted Heat Pump Up to 24.5 SEER | Up to 12.5 HSPF

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. If product installed in a commercial application, limited warranty period is 5 years.

LV Series is a feature-packed, intelligent wall-mounted system that includes intelligent eye for energy savings and horizontal auto swing outlet fins for 3-D airflow comfort. With up to 24.5 SEER level, LV Series has been awarded the ENERGYSTAR® Most Efficient Mark in 2018.

### **Standard Features**

- » Energy Efficient Up to 24.5 SEER, 12.5 HSPF, up to 15.3 EER – Variable-Speed Inverter Compressor
- » Cooling Range: 50° 115° F (Extended operation to 0° - 115° F with facility setting and air adjustment grille)
- » Heating Range: 5° 65° F
- » Indoor Sound Pressure as Low as 22 dB(A)
- » Outdoor Sound Pressure as Low as 43 dB(A)
- » Intelligent Eye
- » Power airflow dual flaps and 3-D Airflow
- » Titanium Apatite Photocatalytic Air Purifying Filter
- » Weekly timer
- » Program Dry Function
- » Econo Mode
- » Powerful Operation Mode
- » Backlit Wireless Remote Controller
- » Auto-Changeover
- » Auto-Fan Speed Control
- » Self Diagnostics with Digital Display
- » Auto-Restart After Power Failure
- » Anti-Corrosion Heat Exchanger Treatment
- » Quick Warming Function
- » Hot Start Function
- » Automatic Defrosting

### **Optional Features**

- » Wired controller
- » Compatible with Daikin Comfort App

#### **IDEAL SOLUTIONS FOR:**

- > Renovations, remodeling and new construction
- Sun rooms, basements, garages, hot or cold rooms, attics where the walls tend to be lower, or wherever wall space is at a premium
- Ceiling void or attic does not allow for a viable duct run option
- Homeowners desiring advanced features for comfort and savings

**Daikin Comfort App** – Easily control your system from anywhere in the world or the comfort of your living room.

**3-D Airflow** – Combines vertical and horizontal auto-swing to circulate cool/warm air to the corners of large spaces.

Intelligent Eye – The intelligent eye is an infrared sensor with the ability to sense movement in the room. When you are in the room, the air conditioner operates normally. If you leave the room for more than 20 minutes the air conditioner automatically changes to an energy-saving operation. Using the intelligent eye, savings of up to 20% in cooling and up to 30% in heating can be achieved compared to units without this feature.

**Auto-Restart** – The unit memorizes the operation mode, airflow and temperature settings. Should there be a power failure when the unit is in operation, it will automatically return to the same operating conditions when the power is restored.

**Titanium Apatite Photocatalytic Air Purifying Filter** – This filter combines the air-purifying filter and titanium apatite photocatalytic deodorizing filter in a single highly effective unit.

**Hot Start** – (Heat Pump) When the heating operation starts or when the unit changes from cooling to heating, there is no cold draft.

Most Efficient Products that are recognized as the Most 2010 Efficient of ENERGY STAR® in 2018 prevent greenhouse gas emissions by meeting rigorous energy efficiency performance levels set by the U.S. Environmental Protection Agency.

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR criteria. Ask your contractor for details or visit www.energystar.gov.

### **LV Series**

## Slim-Duct Concealed Ceiling Units

Up to 15.5 SEER | Up to 10.4 HSPF

COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. If product installed in a commercial application, limited warranty period is 5 years.

LV Series is offered in a slim-ducted concealed ceiling unit providing an extremely unobtrusive, compact solution, where only the discharge and intake grilles are visible. In addition, they free up the maximum amount of floor and wall space to minimize the impact on decor. Also, their new low consumption DC fan motor offers energy saving.

### **Standard Features**

- » Energy Efficient Up to 15.5 SEER, 10.4 HSPF, up to 11.2 EER – Variable-Speed Inverter Compressor
- » Cooling Range: 50° 115° F (Extended operation to 0° - 115° F with facility setting and air adjustment grille)
- » Heating Range: 5° 65° F
- » Indoor Sound Pressure as Low as 31 dB(A)
- » Outdoor Sound Pressure as Low as 43 dB(A)
- » Program Dry Function
- » Econo Mode
- » Powerful Operation Mode
- » Backlit Wireless Remote Controller
- » Auto-Changeover
- » Auto-Fan Speed Control
- » Self Diagnostics with Digital Display
- » Auto Restart After Power Failure
- » Anti-Corrosion Heat Exchanger Treatment
- » Quick Warming Function
- » Hot Start Function
- » Automatic Defrosting

### **Optional Features**

- » Wired controller
- » Compatible with Daikin Comfort App (adapter required)

#### **IDEAL SOLUTIONS FOR:**

- > Renovations, remodeling and new construction
- Sun rooms, basements, garages, hot or cold rooms, attics where the walls tend to be lower, or wherever wall space is at a premium
- Ceiling void or attic does not allow for a viable standard ducted solution
- Homeowners' reluctance to use a visible wall or a floor mounted unit

**Daikin Comfort App** – Easily control your system from anywhere in the world or the comfort of your living room.

**Auto-Restart** – The unit memorizes the operation mode, airflow and temperature settings. Should there be a power failure when the unit is in operation, it will automatically return to the same operating conditions when the power is restored.

**Hot Start** – (Heat Pump) When the heating operation starts or when the unit changes from cooling to heating, there is no cold draft.

### FDMQ RVJU

## Ducted Concealed Indoor Unit

Up to 20.2 SEER | Up to 10.6 HSPF

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. If product installed in a commercial application, limited warranty period is 5 years.

A ducted concealed ceiling unit provides a completely concealed installation, minimizing the impact on decor. Easily incorporate longer duct runs and high MERV filters with available external static pressures of up to 0.6.

### Standard Features

- » Energy Efficient Up to 20.2 SEER, up to 10.6 HSPF, up to 12.7 EER – Variable Speed Inverter Compressor
- » Cooling Range 50° 115° F (Extended operation to -4° - 115°F with facility setting and air adjustment grille)
- » Heating Range 5° 65° F
- » Indoor Sound Pressure as low as 32 dB(A)
- » Outdoor Sound Pressure as Low as 46 dB(A)
- » Auto Changeover
- » Auto-Fan Speed control ( with wired controller)
- » Self-Diagnostics with digital display
- » Drain Pan Inspection Port
- » Integral Lift Mechanism
- » Auto Restart After Power Failure
- » Anti-Corrosion Heat Exchanger Treatment
- » Quick Warming Function
- » Hot Start Function
- » Automatic Defrosting

#### **IDEAL SOLUTIONS FOR:**

- > Renovations, remodeling and new construction
- Sun rooms, basements, garages, hot or cold rooms, attics where the walls tend to be lower, or wherever wall space is at a premium
- Ceiling void or attics which allow for a ducted solution with longer duct runs
- > Homeowners' requiring higher level of filtration
- Homeowners' reluctance to use a visible wall or a floor mounted unit

**Auto-Restart** – The unit memorizes the operation mode, airflow and temperature settings. Should there be a power failure when the unit is in operation, it will automatically return to the same operating conditions when the power is restored.

**Hot Start** – (Heat Pump) When the heating operation starts or when the unit changes from cooling to heating, there is no cold draft.

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet **ENERGY STAR®** criteria. Ask your contractor for details or visit www.energystar.gov.

#### **NV Series**

## Wall-Mounted Heat Pump & Cooling Only Up to 17.5 SEER Up to 9.3 HSPF | Up to 9.85 EER

## COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. Warranty registration not required to receive the 10-Year parts limited warranty for residential or commercial installations.

Daikin NV Series is available in both cooling only and heat pump configurations. This feature-packed wall-mount unit offers extended capacity in an elegant design. Comfort Airflow, 3-D Air-flow and Wide Angle Louvers are just a few of the features used in the new NV Series to improve comfort in a room.

#### Standard Features

- » Energy Efficient Up to 17.5 SEER, 9.3 HSPF, up to 9.85 EER – Inverter, Variable-Speed Compressor
- » Cooling Range: 50° 115° F (Extended operation to -22° 115° F with facility setting and air adjustment grille)
- » Heating Range: 5° 65° F
- » Indoor Sound Pressure as Low as 35 dB(A)
- » Outdoor Sound Pressure as Low as 56 dB(A)
- » Intelligent Eye
- » Power airflow dual flaps and 3-D Airflow
- » Titanium Apatite Photocatalytic Air Purifying Filter
- » Weekly timer
- » Program Dry Function
- » Econo Mode
- » Powerful Operation Mode
- » Backlit Wireless Remote Controller
- » Auto-Changeover

#### **IDEAL SOLUTIONS FOR:**

- > Renovations, remodeling and new construction
- Sun rooms, basements, garages, hot or cold rooms, attics where the walls tend to be lower, or wherever wall space is at a premium
- Ceiling void or attic does not allow for a viable duct run option
- Homeowners desiring advanced features for comfort and savings

**Low Ambient Cooling** – Cooling operation down to -22° F (-30°) outside temperature for cooling only models. No fuel installer kit required.

**Daikin Comfort App** – Easily control your system from anywhere in the world or the comfort of your living room.

**3-D Airflow** – Combines vertical and horizontal auto-swing to circulate cool/warm air to the corners of large spaces.

Intelligent Eye – The intelligent eye is an infrared sensor with the ability to sense movement in the room. When you are in the room, the air conditioner operates normally. If you leave the room for more than 20 minutes the air conditioner automatically changes to an energy-saving operation. Using the intelligent eye, savings of up to 20% in cooling and up to 30% in heating can be achieved compared to units without this feature.

**Auto-Restart** – The unit memorizes the operation mode, airflow and temperature settings. Should there be a power failure when the unit is in operation, it will automatically return to the same operating conditions when the power is restored.

**Titanium Apatite Photocatalytic Air Purifying Filter** – This filter combines the air-purifying filter and titanium apatite photocatalytic deodorizing filter in a single highly effective unit.

**Hot Start** – (Heat Pump) When the heating operation starts or when the unit changes from cooling to heating, there is no cold draft.

### **NV** Series

## LV 30/36 Wall-Mount Cooling Only

Up to 19.3 SEER | 10.7 EER

10 YEAR
PARTS
LIMITED
WARRANTY

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. Warranty registration not required to receive the 10-Year parts limited warranty for residential or commercial installations

Daikin's LV 30/36 Wall-Mount offers Cooling Only solutions for larger capacity applications. With the optional Ultra-Low Ambient Kit, cooling range can be extended to -40°F which is perfect for process cooling applications. The LV 30/36 also has some great features for comfort cooling applications like Comfort Airflow, 3-D Airflow, and an Intelligent Eye for room occupancy sensing.

#### Standard Features

- » Energy Efficient Up to 19.3 SEER, up to 10.7 EER Inverter, Variable-Speed Compressor
- » Cooling Range: 50° 115° F (Extended operation to 0° - 115° F with facility setting and air adjustment grille)
- » Heating Range: 5° 65° F
- » Indoor Sound Pressure as Low as 37 dB(A)
- » Outdoor Sound Pressure as Low as 51 dB(A)
- » Intelligent Eye
- » Power airflow dual flaps and 3-D Airflow
- » Titanium Apatite Photocatalytic Air Purifying Filter
- » Weekly timer
- » Program Dry Function
- » Econo Mode
- » Powerful Operation Mode
- » Backlit Wireless Remote Controller
- » Auto-Fan Speed Control
- » Self Diagnostics with Digital Display
- » Auto-Restart After Power Failure
- » Anti-Corrosion Heat Exchanger Treatment
- » Compatible with Daikin Comfort App

| 2F018535-1   | Ultra Low Ambient Kit (30)                                   |
| 2F018535-2   | Ultra Low Ambient Kit (36)                                   |

#### **IDEAL SOLUTIONS FOR:**

- > Renovations, remodeling and new construction
- Sun rooms, basements, garages, rooms with poor airflow
- Ceiling void or attic does not allow for a viable standard ducted solution
- > Mechanical Rooms
- > Server Rooms

**Daikin Comfort App** – Easily control your system from anywhere in the world or the comfort of your living room.

Intelligent Eye – The intelligent eye is an infrared sensor with the ability to sense movement in the room. When you are in the room, the air conditioner operates normally. If you leave the room for more than 20 minutes the air conditioner automatically changes to an energy-saving operation. Using the intelligent eye, savings of up to 20% in cooling and up to 30% in heating can be achieved compared to units without this feature.

**Titanium Apatite Photocatalytic Air Purifying Filter** – This filter combines the air-purifying filter and titanium apatite photocatalytic deodorizing filter in a single highly effective unit.

**3-D Airflow** – Combines vertical and horizontal auto-swing to circulate cool/warm air to the corners of large spaces.

## COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. If product installed in a commercial application, limited warranty period is 5 years.

The Daikin *QUATERNITY*<sup>TM</sup> wall-mounted heat pumps are designed to maximize comfort even under the most challenging weather conditions. Equipped with built-in intelligence and extensive features in a highly efficient system, *QUATERNITY* provides a comfortable and refreshing indoor environment with advanced filtration and climate control.

### IDEAL SOLUTIONS FOR:

- > Renovations, remodeling and new construction
- Challenging hot, humid, or poorly ventilated environments such as basement, garage or attic conversion
- Ceiling void or attic does not allow for a viable standard ducted solution

**Daikin Comfort App** – Easily control your system from anywhere in the world or the comfort of your living room.

**Flash Streamer** – Increases indoor air quality through a powerful multistage filtration system.

**Titanium Apatite Photocatalytic Air Purifying Filter** – This filter combines the air-purifying filter and titanium apatite photocatalytic deodorizing filter in a single highly effective unit.

**Hot Start** – (Heat Pump) When the heating operation starts or when the unit changes from cooling to heating, there is no cold draft.

**Humidity Control** – Active dehumidification to a relative setting. Rooms with large amount of wood floors, pianos, computer rooms that require RH setting.

**3-D Airflow** – Combines vertical and horizontal auto-swing to circulate cool/warm air to the corners of large spaces.

**Powerful Operation Mode** – Pushing the POWERFUL button on the remote control gives you a boost in cooling or heating power for a 20-minute period, even if the unit is already operating at high capacity.

**Auto-Restart** – The unit memorizes the operation mode, airflow and temperature settings. Should there be a power failure when the unit is in operation, it will automatically return to the same operating conditions when the power is restored.

#### Standard Features

- » Energy Efficient Up to 26.1 SEER, 11.0 HSPF, up to 15.8 EER – Variable-Speed Inverter Compressor
- » Cooling Range: 14° 109° F
- » Heating Range: -4° 75° F
- » Indoor Sound Pressure as low as 26 dB(A)
- » Outdoor Sound Pressure as Low as 46 dB(A)
- » Power airflow dual flaps and 3-D Airflow
- » Titanium Apatite Photocatalytic Air Purifying Filter
- » Powerful Operation Mode
- » Wireless Remote Controller
- » Auto-Changeover
- » Auto-Fan Speed Control
- » Self Diagnostics with Digital Display
- » Auto-Restart After Power Failure
- » Anti-Corrosion Heat Exchanger Treatment
- » Quick Warming Function
- » Hot Start Function
- » Automatic Defrosting

#### **Optional Features**

» Wired controller

Most Efficient Products that are recognized as the Most 2010 Efficient of ENERGY STAR® in 2018 prevent greenhouse gas emissions by meeting rigorous energy efficiency performance levels set by the U.S. Environmental Protection Agency.

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR criteria. Ask your contractor for details or visit www.energystar.gov.

#### Zoned comfort control

Homeowners fight over temperatures in their homes and have rooms that go unused for long periods. Now they can save energy and control temperatures independently in up to eight separate zones with a single outdoor unit. With available wall-mounted, concealed slim-duct, ceiling cassette, and floor-mounted indoor options, Daikin Multi-Zone Systems offer multiple indoor unit styles to meet all home comfort needs.

## Heat or cool multiple spaces independently with 1 outdoor unit

- » Great installation flexibility and a wide choice of styles.
- » Wide range of outdoor units, to which up to 8 indoor units can be connected.
- » All indoor units can be individually controlled.
- » The discrete, robust outdoor unit can easily be mounted onto a roof or terrace, or simply to the outside wall.
- » It is possible to combine different types of indoor units.

#### **Compatible Indoor Units:**

## EMURA™ - Designed to perfectly balance technological capability and the beauty of aerodynamics

- » Iconic award winning design and engineering excellence
- » Elegant finish in pure matte white or modern silver
- » Two-area intelligent eye sensor controls comfort and allows for energy savings during unoccupied periods
- » Titanium apatite photo-catalytic air purification

#### VISTA<sup>™</sup> - Unique design that integrates seamlessly into the ceiling

- » Iconic award wining design and engineering excellence
- » Elegant finish in white or silver / white combination
- » DC fan motor and two optional intelligence sensors for energy efficiency

## FTXS - Discreet wall-mounted unit providing high efficiency and comfort

- » Discreet, stylish front panel blends easily with the wall, and matches all interior decors
- » Dry program allows humidity levels to be reduced without variations in room temperature
- » Intelligent Eye function reduces heating or cooling operation during unoccupied periods

## FVXS - Floor mounted unit for optimal heating comfort thanks to dual airflow

- » Its low height enables the unit to fit beneath a window
- » Can be installed against a wall or recessed
- » Vertical auto swing moves the louver up and down for efficient air and temperature distribution

#### FDMQ - Ducted concealed unit capable of up to .6 esp

- » Higher external static pressure capabilities allow for longer duct runs and easily implementing high MERV filters
- » Drain Pan inspection port makes it easy to observe drain pan conditions
- » Rear or bottom return air configurations for installation flexibility

#### FDXS/CDXS - Slim duct concealed ceiling unit capable of up to 0.18 esp

- » External static pressure facilitates unit's use with minimal length of duct runs
- » Discretely concealed in the ceiling: only the suction and discharge grills are visible
- » DC fan motor for low energy consumption

### Multi-Zone Systems **Daikin AURORA™ OUTDOOR UNITS** Up to 18.0 SEER | Up to 12.5 HSPF

#### COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. If product installed in a commercial application, limited warranty period is 5 years.

The Daikin AURORA multi-zone system is a flexible solution for individual zone comfort. Connecting up to 3 indoor units to a single outdoor unit reduces installation space and costs while maximizing comfort and energy efficiency. With a choice of 6 indoor unit types in a wide range of capacities, For all regions, the outdoor units of the Multi-Zone AURORA heat pump system have been redesigned to withstand extreme weather conditions with excellent energy efficiency ratings.

#### Standard Features

- » Multi-Zone comfort: One outdoor unit connects up to three separate fan coils individually controlled
- » Energy Efficient Up to 18.0 SEER, up to 12.5 HSPF, up to 12.7 EER - Variable Speed Inverter Compressor
- » Cooling Range 14° 115° F
- » Heating Range -13° 60° F
- » Enhanced Capacity Delivers up to 100% nominal cooling capacity at 114.8° F / 46°C
- » Up to 100% heating capacity at 5°F / -15°C with confirmed continuous operation down to -13°F / 25°C
- » Quick and easy installation
- » Precision temperature control for individual rooms
- » Space-saving design
- » Quiet operation
- » Fully optimized for R-410A refrigerant
- » World renowned Daikin Inverter "Variable Speed" compressor technology

| Outdoor Unit       | Optional Accessories            |

#### **IDEAL SOLUTIONS FOR:**

- > Primary living area (master bedrooms and living rooms)
- > Hot or cold rooms
- > Rooms with poor air flow
- > Renovations and remodeling
- > Basements, attics and garages
- > New construction

Daikin AURORA heat pump for extreme weather conditions – Up to 100% heating capacity at 5°F (-15°C) and operate efficiently as low as -13°F ambient temperature.

Outdoor Unit Quiet Operation – can reduce sound levels by 3dB for times when guieter operation is needed.

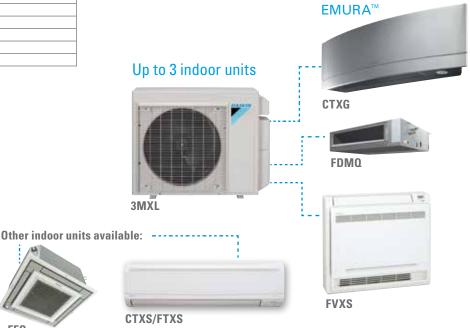

**Auto-Restart** – The unit memorizes the operation mode, airflow and temperature settings. Should there be a power failure when the unit is in operation, it will automatically return to the same operating conditions when the power is restored.

Our outdoor unit drain pans have up to 14 holes which allows for effective drainage of condensation. In some

case, this improved drain pan design eliminates the need for drain pan heaters, resulting in higher efficiencies in low ambient temperatures.

# Multi-Zone Systems MXS Series OUTDOOR UNITS Up to 18.9 SEER | Up to 12.5 HSPF

## COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. If product installed in a commercial application, limited warranty period is 5 years.

The Daikin Multi-Zone System is a flexible solution for individual zone comfort. Connecting up to 4 indoor units to a single outdoor unit reduces installation space and costs while maximizing comfort and energy savings. With a choice of six indoor unit types in a wide range of capacities, Daikin Multi-Zone Systems allow mixed and matched combinations.

#### Standard Features

- » Multi-Zone comfort: One outdoor unit connects up to four separate fan coils individually controlled
- » Energy Efficient Up to 18.9 SEER, up to 12.5 HSPF, up to 12.7 EER – Variable Speed Inverter Compressor
- » Cooling Range 14° 115° F
- » Heating Range 5° 60° F
- » Quick and easy installation
- » Precision temperature control for individual rooms
- » Space-saving design
- » Quiet operation
- » Fully optimized for R-410A refrigerant
- » World renowned Daikin Inverter "Variable Speed" compressor technology

| Outdoor Unit       | Optional Accessories            |
|--------------------|---------------------------------|
| KPW063A4           | Air direction adjustment grille |
| KKG063A42          | Back protection wire net        |
| KKP937A4           | Drain plug                      |

| KPS063A41          | Snow hood (intake side plate)   |
| KPS063A44          | Snow hood (intake rear plate)   |
| KPS063A47          | Snow hood (outlet)              |

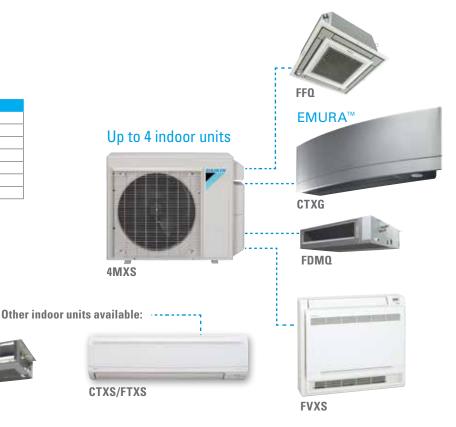

#### **IDEAL SOLUTIONS FOR:**

- > Entire homes or floors of homes
- > Multiple zones
- New construction
- Primary living areas (master bedrooms and living rooms)
- > Basements

#### Enhanced Drain Pan -

MXS\_NMVJU Series models feature an enhanced drain pan with optimal drainage for reduced ice build-up in extreme conditions.

# Multi-Zone Systems OUTDOOR UNITS RMXS\_LVJU and BPMKS\_A Up to 18.8 SEER | Up to 11.3 HSPF

## COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. If product installed in a commercial application, limited warranty period is 5 years.

The 8-Zone Multi-Zone system is the ultimate, flexible solution for individual zone comfort. Connecting up to eight indoor units to a single outdoor unit reduces installation space and costs while maximizing comfort and energy savings. With a choice of six indoor unit types in a wide range of capacities, the 8-Zone Multi-Zone allows mixed and matched combinations for absolute comfort in almost any residential or light commercial application.

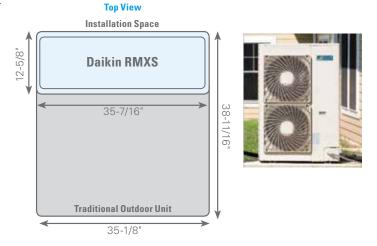

#### Space Saving Design

- » More than 60% in physical space savings versus a traditional cube style outdoor unit
- » More than 80% in total (including clearances) space savings versus a traditional cube style outdoor unit

#### **Standard Features**

- » Multi-Zone comfort: one outdoor unit connects up to eight separate units
- » Energy Efficient up to 18.8 SEER, up to 11.3 HSPF, up to 10.3 EER
- » Cooling Range 23° 115° F
- » Heating Range 5° 60° F
- » Up to 130% connection ratio
- » Long piping lengths up to 633 ft. total
- » Spacing-saving design

# Multi-Zone Systems OUTDOOR UNITS RMXS\_LVJU and BPMKS\_A Up to 18.8 SEER | Up to 11.3 HSPF

#### **Longer Refrigerant Piping**

Longer refrigerant piping capabilities offers much more flexibility in the choice of installation positions for the indoor units, and greatly simplifies system layout.

#### **BPMKS**

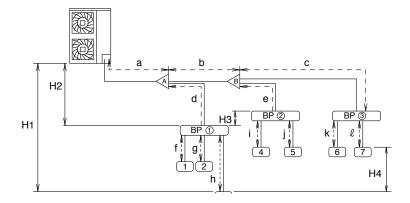

- » Branch Provider Unit
- » Varies the refrigerant volume to meet the cooling or heating requirements of each room connected to the system.
- » Facilitates zone on/off and capacity control to operate rooms individually via zone temperature controls
- » Simple installation with flare nut connections

#### REFNET joint

» Reduces the amount of work involved in installation and increases the reliability of the system.

**REFNET Joint**

#### Simplified Electrical Wiring

The outdoor unit and BP units operate from separate 208/230V single-phase power supplies. Indoor units are powered from the BP unit and wired as Daikin's current 4 wire single split systems reducing the wiring size and easing installation

## COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. If product installed in a commercial application, limited warranty period is 5 years.

The Daikin *EMURA* wall-mounted units, are the next generation of home air conditioning is available for Multi-Zone combinations, offering smart technology within a sleek, curved silhouette. Daikin *EMURA* is designed to satisfy a uniquely "Designer" sense of style.

Offering sophisticated solutions for contemporary interiors, the new Daikin *EMURA* combines form and functionality to create an icon of contemporary climate control. Available in silver or pure matte white, Daikin *EMURA* makes a modern design statement on any wall.

#### Standard Features

- » Indoor Sound Pressure as low as 21 dB(A)
- » 2-Area Intelligent Eye
- » Power airflow dual flaps and 3-D Airflow
- » Titanium Apatite Photocatalytic Air Purifying Filter
- » Weekly Timer
- » Program Dry Function
- » Econo Mode
- » Comfort Mode
- » Powerful Operation Mode
- » Backlit Wireless Remote Controller

#### **Optional Features**

- » Wired controller
- » Compatible with Daikin Comfort App (adapter required)

| Indoor Unit     | Optional Accessories   |
|-----------------|--|
| BRC944B2-A08    | Wired Remote Controller kit (Includes BRC944B2 & BRCW901A08)                                   |
| DACA-BRCW901P10 | Remote Controller Cable, Plenum Rated, 10 ft (For BRC944B2)                                    |
| DACA-BRCW901P25 | Remote Controller Cable, Plenum Rated, 25 ft (For BRC944B2)                                    |
| BRP072A43       | Wireless Interface Adapter   |
| DACA-CP1-1      | Condensate Pump (Fits inside all Daikin indoor unit heads - 33 ft head - 22dB)                 |
| DACA-CP2-1      | Condensate Pump (Higher ft head needs - 50 ft head - 38db)                                     |
| DACA-CP3-1      | Condensate Pump (Will not fit in certain unit size heads - 33 ft head - 22dB)                  |
| KAF970A46       | 07, 15, 18 Class Air-purifying filter with photocatalytic deodorizing function (without frame) |
| KRP928BB2S      | Interface adaptor for DIII-NET   |

#### **IDEAL SOLUTIONS FOR:**

- > Renovations, remodeling and new construction
- Sun rooms, basements, garages, hot or cold rooms, attics where the walls tend to be lower, or wherever wall space is at a premium
- Ceiling void or attic does not allow for a viable duct run option
- Homeowners desiring advanced features for comfort, savings, and a "Designer" sense of style

**Daikin Comfort App** – Easily control your system from anywhere in the world or the comfort of your living room.

**3-D Airflow** – Combines vertical and horizontal auto-swing to circulate cool/warm air to the corners of large spaces.

**Comfort Mode** – Comfort Mode operation improves comfort. When cooling, the flap positions itself horizontally to prevent cold airflow from being blown directly onto the body. When heating, the flap turns vertically downwards to drive warm air to the bottom of the room.

**2-Area Intelligent Eye** – The two-area intelligent eye sensor controls comfort in two ways. If the room is empty for 20 minutes, it changes the set point to start saving energy. As soon as someone enters the room, it immediately returns to the original setting. The intelligent eye also directs air flow away from people in the room to avoid cold drafts.

**Titanium Apatite Photocatalytic Air Purifying Filter** – (Option) This filter combines the air-purifying filter and titanium apatite photocatalytic deodorizing filter in a single highly effective unit.

**Night Set Mode** – Rapid changes in room temperature can disturb your sleep. To avoid this, Daikin Emura prevents overheating or overcooling during the night. If the timer is switched on, the unit will automatically set the temperature to 3 °F warmer.

## Multi-Zone Systems INDOOR UNITS CTXS\_LVJU and FTXS\_LVJU

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. If product installed in a commercial application, limited warranty period is 5 years.

CTXS/FTXS Series is a feature-packed, intelligent wall-mounted system that includes intelligent eye for energy savings and horizontal auto swing outlet fins for 3-D airflow comfort.

#### Standard Features

- » Indoor Sound Pressure as low as 22 dB(A)
- » Intelligent Eye
- » Power airflow dual flaps and 3-D Airflow
- » Titanium Apatite Photocatalytic Air Purifying Filter
- » Weekly Timer
- » Program Dry Function
- » Econo Mode
- » Powerful Operation Mode
- » Backlit Wireless Remote Controller
- » Auto-Changeover
- » Auto-Fan Speed Control

#### **Optional Features**

- » Wired controller
- » Compatible with Daikin Comfort App (adapter required)

| Indoor Unit     | Optional Accessories   |
|-----------------|--|
| BRC944B2-A08    | Wired Remote Controller kit (Includes BRC944B2 & BRCW901A08)                                   |
| DACA-BRCW901P10 | Remote Controller Cable, Plenum Rated, 10 ft (For BRC944B2)                                    |
| DACA-BRCW901P25 | Remote Controller Cable, Plenum Rated, 25 ft (For BRC944B2))                                   |
| BRP072A43       | Wireless Interface Adapter   |
| DACA-CP1-1      | Condensate Pump (Fits inside all Daikin indoor unit heads -<br>33 ft head - 22dB)              |
| DACA-CP2-1      | Condensate Pump (Higher ft head needs - 50 ft head - 38db)                                     |
| DACA-CP3-1      | Condensate Pump (Will not fit in certain unit size heads - 33 ft head - 22dB)                  |
| KAF952A42       | 09, 12 Class Air-purifying filter with photocatalytic deodorizing function (without frame)     |
| KAF970A46       | 07, 15, 18 Class Air-purifying filter with photocatalytic deodorizing function (without frame) |
| KRP928BB2S      | Interface adaptor for DIII-NET   |

#### **IDEAL SOLUTIONS FOR:**

- > Renovations, remodeling and new construction
- Sun rooms, basements, garages, hot or cold rooms, attics where the walls tend to be lower, or wherever wall space is at a premium
- Ceiling void or attic does not allow for a viable duct run option
- Homeowners desiring advanced features for comfort and savings

**3-D Airflow** – Combines vertical and horizontal auto-swing to circulate cool/warm air to the corners of large spaces.

Intelligent Eye – The intelligent eye is an infrared sensor with the ability to sense movement in the room. When you are in the room, the air conditioner operates normally. If you leave the room for more than 20 minutes the air conditioner automatically changes to an energy-saving operation. Using the intelligent eye, savings of up to 20% in cooling and up to 30% in heating can be achieved compared to units without this feature.

**Hot Start** – (Heat Pump) When the heating operation starts or when the unit changes from cooling to heating, there is no cold draft.

**Titanium Apatite Photocatalytic Air Purifying Filter** – This filter combines the air-purifying filter and titanium apatite photocatalytic deodorizing filter in a single highly effective unit.

**Auto-Restart** – The unit memorizes the operation mode, airflow and temperature settings. Should there be a power failure when the unit is in operation, it will automatically return to the same operating conditions when the power is restored.

**Powerful Operation Mode** – Pushing the POWERFUL button on the remote control gives you a boost in cooling or heating power for a 20-minute period, even if the unit is already operating at high capacity.

## Multi-Zone Systems INDOOR UNITS FDXS\_LVJU and CDXS

## COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. If product installed in a commercial application, limited warranty period is 5 years.

A slim-ducted concealed ceiling unit provides an extremely unobtrusive, compact solution, where only the discharge and intake grilles are visible. In addition, they free up floor and wall space to minimize the impact on decor.

#### Standard Features

- » Indoor Sound Pressure as low as 31 dB(A)
- » Program Dry Function
- » Econo Mode
- » Powerful Operation Mode
- » Backlit Wireless Remote Controller
- » Auto-Changeover
- » Auto-Fan Speed Control
- » Self-Diagnostics with Digital Display

#### **Optional Features**

- » Wired controller
- » Compatible with Daikin Comfort App (adapter required)

#### **IDEAL SOLUTIONS FOR:**

- > Renovations, remodeling and new construction
- Sun rooms, basements, garages, hot or cold rooms, attics where the walls tend to be lower, or wherever wall space is at a premium
- Ceiling void or attic does not allow for a viable standard ducted solution
- Homeowners' reluctance to use a visible wall or a floor mounted unit

**Daikin Comfort App** – Easily control your system from anywhere in the world or the comfort of your living room.

**Hot Start** – (Heat Pump) When the heating operation starts or when the unit changes from cooling to heating, there is no cold draft.

**Powerful Operation Mode** – Pushing the POWERFUL button on the remote control gives you a boost in cooling or heating power for a 20-minute period, even if the unit is already operating at high capacity.

## Multi-Zone Systems INDOOR UNITS FDMQ\_RVJU

**Ducted Concealed** 

## COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. If product installed in a commercial application, limited warranty period is 5 years.

A ducted concealed ceiling unit provides a completely concealed installation, minimizing the impact on decor. Easily incorporate longer duct runs and MERV filters with available external static pressures of up to 0.6.

#### **Standard Features**

- » Indoor Sound Pressure as low as 32 dB(A)
- » Auto-Fan Speed control ( with wired controller)
- » No optional adapter needed for DIII-connection, link your unit into the wider building management system
- » Self-Diagnostics with digital display
- » Drain Pan Inspection Port
- » Integral lift mechanism

|   | Indoor Unit | One Controller Required |
|---|-------------|-------------------------|
| E | BRC1E73     | Wired Remote Controller |
| П | (RCS01-4B   | Remote Sensor           |

#### **IDEAL SOLUTIONS FOR:**

- > Renovations, remodeling and new construction
- Sun rooms, basements, garages, hot or cold rooms, attics where the walls tend to be lower, or wherever wall space is at a premium
- Ceiling void or attics which allow for a ducted solution with longer duct runs
- > Homeowners requiring higher level of filtration
- Homeowners' reluctance to use a visible wall or a floor mounted unit

**Program dry function** – This gives priority to reducing the level of humidity in the room rather than room temperature.

**Hot Start** – (Heat Pump) When the heating operation starts or when the unit changes from cooling to heating, there is no cold draft.

**Powerful Operation Mode** – Pushing the POWERFUL button on the remote control gives you a boost in cooling or heating power for a 20-minute period, even if the unit is already operating at high capacity.

## Multi-Zone Systems INDOOR UNITS FVXS NVJU

## COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. If product installed in a commercial application, limited warranty period is 5 years.

Floor-mounted units are simple to install and can be setup in various configurations, on the floor or hanging low on a wall. Its low height enables the unit to fit beneath a window. The airflow distribution pattern of Daikin's floor-mounted unit is ideal for heating a space, and is a perfect replacement to traditional radiant systems.

#### **Standard Features**

- » Indoor Sound Pressure as low as 19 dB(A)
- » Washable Air Filter
- » Program Dry Function
- » Econo Mode
- » Powerful Operation Mode
- » Titanium Apatite Photocatalytic Air Purifying Filter
- » Backlit Wireless Remote Controller
- » Outdoor Unit Quiet Operation
- » Auto-Changeover
- » Auto-Fan Speed Control
- » Self-Diagnostics with Digital Display

#### **Optional Features**

- » Wired controller
- » Compatible with Daikin Comfort App (adapter required)

| Indoor Unit            | Optional Accessories   |
|------------------------|--|
| BRC944B2-A08           | Wired Remote Controller kit (Includes BRC944B2 & BRCW901A08)                   |
| DACA-BRCW901P10        | Remote Controller Cable, Plenum Rated, 10 ft (For BRC944B2)                    |
| DACA-BRCW901P25        | Remote Controller Cable, Plenum Rated, 25 ft (For BRC944B2)                    |
| BRP072A43              | Wireless Interface Adapter   |
| DACA-CP1-1             | Condensate Pump (Fits inside all Daikin indoor unit heads - 33 ft head - 22dB) |
| DACA-CP2-1             | Condensate Pump (Higher ft head needs - 50 ft head - 38db)                     |
| DACA-CP3-1             | Condensate Pump (Will not fit in certain unit size heads - 33 ft head - 22dB)  |
| KRP928BB2S             | Interface adaptor for DIII-NET   |
| KAF968A42 or KAF968B42 | Titanium apatite photocatalytic air-purifying filter (without frame)           |

#### **IDEAL SOLUTIONS FOR:**

- Cold regions where homeowners want to enjoy a reliable, energy efficient source of heat
- > Renovations, remodeling and new construction
- Sun rooms, basements, garages, hot or cold rooms, attics where the walls tend to be lower, or wherever wall space is at a premium
- Ceiling void or attic does not allow for a viable duct run option

**Auto-Restart** – The unit memorizes the operation mode, airflow and temperature settings. Should there be a power failure when the unit is in operation, it will automatically return to the same operating conditions when the power is restored.

**Titanium Apatite Photocatalytic Air Purifying Filter** – This filter combines the air-purifying filter and titanium apatite

the air-purifying filter and titanium apatite photocatalytic deodorizing filter in a single highly effective unit.

**Program dry function** – This gives priority to reducing the level of humidity in the room rather than room temperature.

**Comfort Mode** – Comfort Mode operation improves comfort. When cooling, the flap positions itself horizontally to prevent cold airflow from being blown directly onto the body. When heating, the flap turns vertically downwards to drive warm air to the bottom of the room.

**Hot Start** – (Heat Pump) When the heating operation starts or when the unit changes from cooling to heating, there is no cold draft.

**Powerful Operation Mode** – Pushing the POWERFUL button on the remote control gives you a boost in cooling or heating power for a 20-minute period, even if the unit is already operating at high capacity.

#### VISTA™ Ceiling Cassette

## Multi-Zone Systems INDOOR UNITS FFQ Q2VJU

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. If product installed in a commercial application, limited warranty period is 5 years.

The Daikin VISTA ceiling cassettes are a remarkable blend of iconic design and engineering excellence with an elegant white or a silver and white finish. Fitting within the ceiling grid and discreetly mounted to the ceiling itself, VISTA is stylish, low profile, and compact. High efficiency and comfort is delivered through the combined use of floor and presence sensors (optional). It is also possible to close individual louvers via the wired remote control for personalized comfort.

#### **Standard Features**

- » Indoor Sound Pressure as low as 29 dB(A)
- » Energy efficient thanks to specially developed small tube heat exchanger, DC fan motor and two optional intelligent sensors
- » No optional adapter needed for DIII-connection, link your unit into the wider building management system
- » Draft Prevention
- » Program Dry Function
- » Hot Start Function
- » Auto-Fan Speed Control (with wired controller)
- » Self-Diagnostics with Digital Display
- » Schedule TIMER operation (with wired controller)

#### **Optional Features**

- » Wired controller
- » Fresh air integration possible

| Indoor Unit | Optional Accessories   |
|-------------|--|
| BRC1E73     | Wired Navigation Remote Controller (For Ceiling Cassette Only)         |
| BRC7E830    | Wireless Remote Controller (For Ceiling Cassette Only)                 |
| BRC082A42W  | Wireless Remote Controller (White)                                     |
| BRC082A42S  | Wireless Remote Controller (Silver)                                    |
| BYFQ60C2W1S | Low Profile Decoration Panel (Silver) - 1-13/16× 24-7/16 × 24-7/16     |
| BYFQ60C2W1W | Low Profile Decoration Panel (White) - 1-13/16× 24-1/16 × 24-1/16      |
| BRYQ60A2S   | Sensor kit (Silver) Intel agent Eye, Comfort Airflow, and Floor Sensor |
| BRYQ60A2W   | Sensor kit (White) intelligent Eye, Comfort Airflow, and Floor Sensor  |
| BDBHQ44C60  | Sealing member of air discharge outlet                                 |
| KAFQ441BA60 | Long life filter   |

#### **IDEAL SOLUTIONS FOR:**

- > Renovations, remodeling and new construction
- Sun rooms, basements, garages, hot or cold rooms, attics where the walls tend to be lower, or wherever wall space is at a premium
- Ceiling void or attic does not allow for a viable standard ducted solution
- Homeowners' reluctance to use a visible wall or a floor mounted unit

**Draft Reduction** – This system directs warm air to the floor in winter and cool air across the room in summer for optimal efficiency and comfort. The large flap governs airflow direction while the small flap (or diffuser) swings, producing fine air currents that help circulate the air around the room.

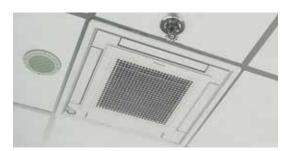

**Individual Louver Control** – The new louver changes the delivery angle to horizontal for cooling and vertical for heating operation, to keep cold or warm air from blowing directly onto your body.

Included in the optional sensor kit: Presence and Floor Sensor (optional part #BRYQ60A2W or BRYQ60A2S)

The presence and floor sensors are infrared sensors with the ability to sense movement in the room. When you are in the room, the system operates normally. If you leave the room for more than 20 minutes the system automatically changes to an energy-saving operation. The floor sensor detects the average floor temperature and ensures even temperature distribution between ceiling and floor.

The VISTA Ceiling Cassette fits within a 2'x 2' ceiling grid and can be installed in close proximity to other building accessories.

## VRV for Single Family Homes

#### Daikin VRV LIFE

Re-inventing residential air-conditioning by breaking technological barriers, Daikin VRV LIFE systems bring inverter driven VRV technology to solve some of the age-old residential HVAC challenges. Precision engineered for flexibility, zoning, low sound and space saving, with the ability to mix and match ducted and duct-free indoor units in combination with a gas furnace. VRV LIFE systems are an ideal choice for a premium solution.

#### Solving HVAC Challenges

#### **Zoning**

Modern homes demand zoning for improved comfort and control. Existing air duct zoning kits can quickly add cost, space and complexity of installation. It also does not always provide the desired comfort levels. Many homes are left with areas which are too warm in summer or too cold in winter.

#### **Operational Efficiencies**

Traditional single speed solutions offer basic ON/OFF operation mode only. With the compressor turning ON/OFF constantly, the increased current inrush leads to higher running costs. With little-to-no zoning, operating the entire system when unnecessary reduces savings opportunities.

#### Sound

The ON/OFF cycles of a traditional single speed system are often accompanied by undesirable operational sounds. These continuous sounds can become a nuisance in yards especially at night or when it is close to a window. Installing traditional units in sound sensitive applications or close to lot lines leaves homeowners with limited options.

#### Flexibility

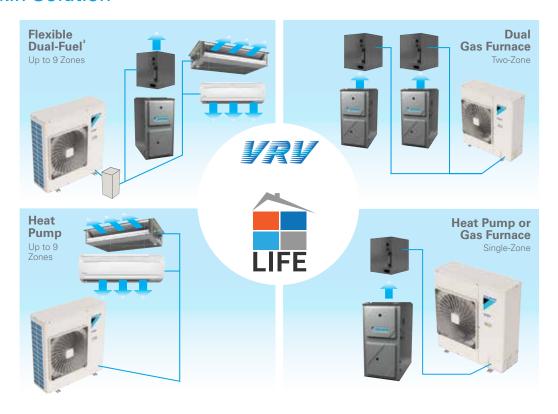

Traditional single-speed ON/OFF systems provide little to no flexibility for adding zones at a later date as the usage of the home changes or expands. The common practice of adding systems to address the HVAC needs of the new zone quickly add cost and reduce yard space.

### The Daikin Solution

Daikin *VRV LIFE* systems are the industry's first VRV Heat Pump with gas furnace connectivity for residential applications. The new *VRV LIFE* systems offers solutions to some of the traditional HVAC challenges for single family applications.

### **Zoning**

Daikin *VRV LIFE* systems provides effective zoning solutions by offering the flexibility to connect up to 9¹ refrigerant zones to a single system. Precision engineered refrigerant control allows system operation to meet the needs of individual zones.

### **Operational Efficiencies**

VRV LIFE systems are engineered with Daikin inverter and variable refrigerant temperature (VRT) technologies. These empower the compressor to operate at its optimal efficiencies during part load operations and thereby reducing power consumption\* and providing high operational efficiencies.

#### Sound

Daikin VRV systems are globally renowned for their quietness. With operating sound pressure levels as low as 57 dbA<sup>1</sup>, VRV LIFE is an optimal solution for installation close to lot lines and sound sensitive applications.

### Space

With a compact, light weight and space saving design of only 37"W x 12-5/8" D, VRV LIFE systems provides up to 75%2 reduction in installation space compared to similar capacity top discharge unitary condensing units.

<sup>&</sup>lt;sup>3</sup> Dual-Fuel is achievable only when VRV indoor units and gas \* Compared to non-inverter units furnace and A-Coil are connected to one *VRV Life* unit.

 $<sup>^{\</sup>mbox{\tiny $1$}}$  Model specific, refer to product engineering manual for details.

<sup>&</sup>lt;sup>2</sup>When compared to a system of two outdoor units combined with two gas furnaces and A-Coils.

## VRV LIFE™ VRV LIFE Outdoor RXSQ\_TAVJU

## COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 10-Year Parts Limited Warranties, or the 10-Year Compressor Replacement Limited Warranty, online registration must be completed within 60 days of installation Online registration and some of the additional requirements are not required in California or Quebec.

### RXSQ - VRV LIFE Outdoor Unit

- » Available in 2, 3, 4 and 5-Ton models
- » Excellent zoning flexibility with 1-to-1 and 1-to-multi connections
- » Broader diversity with ability to provide cooling and heating in up to 9 zones¹
- » Ability to choose heat pump or multi-zone Dual-Fuel<sup>2</sup> heating capability
- » Auto and programmable modes for heat pump to gas heat switch over temperatures
- » Compatible with 12 types and 65 models of Daikin VRV indoor fan coil units and 80 – 97% AFUE Daikin up flow and down flow communicating gas furnaces
- » Dependable heat pump operation in extreme ambient conditions down to -4° F in heating mode and up to 122° F in cooling mode
- » Year round comfort and energy savings delivered by combining VRV and VRT technologies compared to traditional split systems
- » Operation with sound levels of under 58 dbA¹make for easy install close to lot lines

- » Reduced installation cost with re-use of existing refrigerant lines and uninsulated liquid line<sup>3</sup>
- » Engineered with Daikin's swing Inverter compressor technology
- » Backed by 10-Year Parts Limited Warranty and 10-Year Replacement Compressor Limited Warranty\*

## VRV LIFE™ VRV A-Coil CXTQ\_TASBLU

### CXTQ All Aluminum Coil

- » Available in 2, 3, 4, and 5-Ton capacities
- » Engineered for compatibility with VRV LIFE outdoor unit
- » Factory installed electronic expansion valve with PID control loop for precision capacity control
- » Seamless integration to full suite of Daikin controls using onboard control board
- » Air cleaner and humidifier integration capable<sup>1</sup>
- » UV and rust resistant, 5VA rated thermoplastic drain pan with integrated secondary drain
- » Foil-faced insulation covers internal casing to reduce cabinet condensation
- » Split seam front for easy installation and service access
- » Light weight all aluminum evaporator coil
- » Ships factory standard up flow with easy field conversion to downflow¹
- » Backed by best-in-class 10-Year Parts Limited Warranty\* ¹Rules apply, refer to installation manual for details.

### DAIKIN FIT™ DX17VSS

### Quiet / Space-Saving / Efficient

## COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Unit Replacement Limited Warranty and 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation.

Additional requirements for annual maintenance are required for the Unit Replacement Limited Warranty. Online registration and some of the additional requirements are not required in California or Quebec.

## Designed to fit comfort, space-saving, and efficiency requirements with ease.

FLEXIBLE. INNOVATIVE. TECHNOLOGY. The *Daikin Fit*<sup>TM</sup> system is a side discharge, smart HVAC system that won't compromise on comfort and connects to ducted solutions traditional to the

unitary market. In a market saturated with expensive high-tiered inverters, the system provides a premium mid-efficiency inverter at an affordable rate. The low profile of the outdoor unit offers solutions when a traditional cube style cannot.

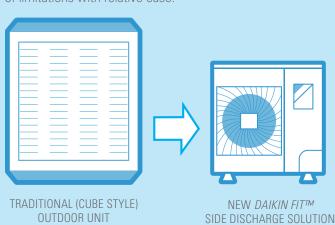

### **Features and Benefits**

- » Up to 18 SEER
- » Compact The trunk style outdoor unit is perfect when installation space is limited
- » Inverter (variable-speed) Compressor Ideal indoor comfort and efficiency
- » Low dBa Reclaim outdoor space
- » Quiet-mode Provides enhanced acoustical comfort
- » Blue Fin Coat Long condenser coil life and reliability
- » Swing Compressor Quiet and dependable
- » Side panel access Ease of service
- » Lightweight Easier to handle and install (compared to traditional cube style systems)

## AFFORDABLE. EFFICIENT. SPACE-SAVING.

When installation space is limited, families shouldn't need to compromise on comfort. Ideal for zero lot lines, roof, wall, or terrace areas, the *Daikin Fit*<sup>TM</sup> features a new style solution allowing you to meet the demands of homes with the strictest of limitations with relative ease.

# DAIKIN FIT™ DX17VSS Quiet / Space-Saving / Efficient

### **Application**

### A new solution for even the most unique projects

- » Perfect alternative to the traditional cube style unitary products in a 1:1 application
- » Traditional homes, townhomes, bungalows, condos, zero lot line homes, patios, terrace, and multi-story locations that would typically require a crane
- » Install using existing ductwork and existing line sets
- » Space-saving low profile trunk style outdoor unit for easy carrying and installation in tight spaces
- » Ease of service and maintenance with a quick-to-access side panel
- » Utilize two new EEV coil families:
  - CAPE (Upflow/Downflow)
  - CHPE (Dedicated Horizontal)
- » Connects with any Daikin communicating gas furnace 80% and 90%+
- » ComfortNet<sup>TM</sup> communicating system compatible
- » Add the new Daikin Premium Air Cleaner for additional IAQ (Indoor Air Quality) control

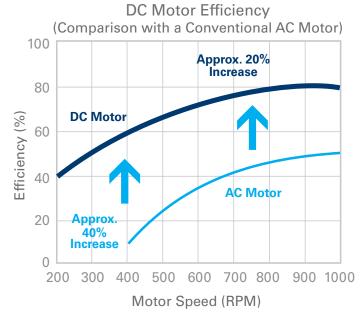

### **Budget**

### Operational efficiencies that drive savings

The inverter compressor is the heart of a Daikin Fit™ system. Daikin's inverter technology is responsible for delivering intelligent comfort with efficiency, based on demand. The inverter (variable-speed) compressor delivers the capacity required to maintain desired room conditions, typically reducing energy consumption by up to 30% or more (compared to traditional fixed-speed systems).

» The enhanced functionality of the variable-speed DC fan motor can offer an increase of approximately 20% in efficiency (compared to systems with a conventional AC motor).

Note: Data is based on studies conducted under controlled conditions at a Daikin laboratory.

### DAIKIN FIT™ DX17VSS

### Quiet / Space-Saving / Efficient

### Comfort

### Ideal temperature and low sound levels

Traditional (non-inverter) systems offer basic ON/OFF operation mode only. With the compressor turning ON/OFF constantly, the system works to reach set indoor temperature. With inverter technology, the *Daikin Fit*<sup>TM</sup> system, can adjust operations to meet the desired comfort levels.

Undesirable operational sounds often accompany non-inverter (traditional) HVAC systems. These continuous sounds can become a nuisance in yards, or when the system is installed near a window. With the ability to reach sound power levels as low as 56dB(A), the *Daikin Fit*<sup>TM</sup> system can help bring additional acoustical comfort to any environment (inside and out).

### **SOUND LEVELS AS LOW AS:**

| 120       | Aircraft taking off (120-140 dBA) |
|-----------|-----------------------------------|
| 110       | Chain saw (100-110 dBA)           |
| 100<br>90 | Hair dryer (90 dBA)               |
| 80        | Daikin DZ14SA (non-inverter)      |
| 70<br>60  |                                   |
| 50        | Daikin Fit™ Systems               |
| 40<br>30  | Quiet bedroom (30-40 dBA)         |
| 20        | Normal breathing (10-20 dBA)      |
| 10        | Normal breathing (10-20 dbA)      |
|           | Threshold of hearing (0 dBA)      |

### Design

### Compact footprint to meet design demands

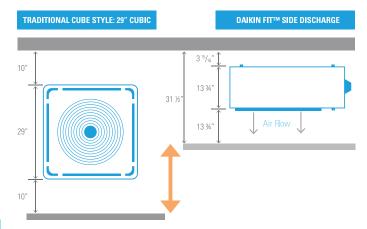

Feature rich design in a compact footprint that includes:

- » Blue Fin Coat: Long condenser coil life and reliability
- » Swing Compressor: Quiet and dependable

With clearance space as little as 4" from a wall and compact size, the  $\textit{Daikin Fit}^{\text{TM}}$  system works when installation space is limited.

- » Fit more in your HVAC tech van or truck; 4 − 5 Daikin Fit<sup>TM</sup> units as opposed to 1 or 2 traditional systems
- » Easy to bring to the installation site and install on pad the single fan unit can be transported by a single worker or on a dolly

| UNIT DIM                       | ENSIONS                    |

<sup>^</sup> Energy Star Notes

Proper sizing and installation of equipment is critical to achieving optimal performance.

#### Notes

Always check the S&R plate for electrical data on the unit being installed.

Unit is charged with refrigerant for 15' of  $\frac{3}{6}$ " liquid line. System charge must be adjusted per Installation Instructions Final Charge Procedure.

 $<sup>^{\</sup>star\star}$  Inverter/Controller limited to less than 1 Amp

<sup>&</sup>lt;sup>1</sup> Wire size should be determined in accordance with National Electrical Codes; extensive wire runs will require larger wire sizes

Must use time-delay fuses or HACR-type circuit breakers of the same size as noted.

## DAIKIN FIT™ - INDOOR UNITS CAPEA/CAPE/CHPE All Aluminum Coils

## CAPEA/CAPE/CHPE All Aluminum Coils

- » Available in 1.5-Ton through 5-Ton capacities
- » Engineered for compatibility with *Daikin Fit™* outdoor units
- » Electronic Expansion Valve (EEV) models feature
  - ComfortNet™ communicating system compatible
  - Cooling and heat pump applications
  - Fault recall of six most recent faults
  - PID control loop for precision capacity control
- » Seamless integration to full suite of Daikin controls using communicating control board
- » Light weight all aluminum evaporator coil
- » Air cleaner and humidifier integration capable (rules apply, refer to installation manual for details).
- » UV and rust resistant, 5VA rated thermoplastic drain pan with integrated secondary drain
- » Foil-faced insulation covers internal casing to reduce cabinet condensation

- » Split seam front for easy installation and service access (except for CAPEA)
- » Ships factory standard up flow with easy field conversion to downflow (CAPEA & CAPE)
- » CHPE is for horizontal applications

## DAIKIN PREMIUM AIR CLEANER

### Daikin Premium Air Cleaner

- » The new Daikin Premium Air Cleaner is a MERV 15 media filter that removes more than 85% of particles down to 0.3 microns
- » Pleated media filter removes over 98% of Aspergillus fumigatus, Aspergillus versicolor, and Stachybotrys chartarum from the airstream, three common mold spores that are found in homes
- » Pleated media filter removes over 99% of Ragweed, over 72% of Cat Dander, and over 73% of Dust Mites from the airstream, three common allergens that are found in homes Extra deep, 5¼" pleated filter constructed of cellulose-free, hydrophobic polyolefin fibers
- » Designed for multi-position horizontal or vertical installations
- » Magnetic door design ensures tool-less, easy access to filter components for quick and easy filter change
- » Filter design features a structured density gradient for sustained efficiency over the life of the filter
- » Filter has a tight cabinet fit ensuring negligible air bypass
- » Filter frame designed with dual pull tabs for easy removal
- » Fully gasketed door for proper air seal
- » Heavy duty, 20 gauge, post-forming painted, corrosion-resistant cabinet and door
- » All cabinet mounting holes are slotted and designed to lineup with original equipment flanges for time-saving installation
- » Filter should be changed once or twice a year based on conditions within the home

#### Notas

- Installation with units with ECM motors recommended.
- 2. For DV15-2121-AC and DV15-2124-AD with air flow >1600 cfm, use of two filters is recommended
- 3. Furnace riser kits are recommended for: DV15-2814-FA, DV15-2817-FB, DV15-2821-FC, and DV15-2824-FD in side installation application

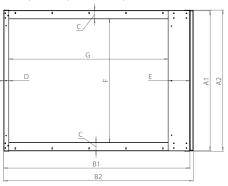

MERV Rating 15 - Minimum Filtration Efficiency @ 492 fpm • E1 85% (0.3 - 1.0 micron) • E2 90% (1.0 - 3.0 micron) • E3 95% (3.0 - 10.0 micron)

### DX20VC

## Air Conditioner

### COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Unit Replacement Limited Warranty and 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation.

Additional requirements for annual maintenance are required for the Unit Replacement Limited Warranty. Online registration and some of the additional requirements are not required in California or Quebec.

#### Standard Features

- » ComfortNet™ communicating system compatible
- » Daikin Inside variable-speed compressor
- » High-efficiency ECM indoor condenser fan motor
- » Refrigeration-grade premium 7mm copper tubing and aluminum fin condenser coil
- » Acoustically engineered sound control blanket for quiet operation
- » Daikin Inside Intelligence constantly monitors the system for trouble spots
- » Heavy-gauge galvanized steel cabinet with sound-control top
- » Baked enamel finish protects the system from the elements
- » AHRI certified; ETL listed

When properly matched and installed, your ComfortNet™compatible DX20VC Conditioner offers up to 24.5 SEER high-efficiency performance. The higher the SEER, the greater the efficiency — and the lower the operating cost compared to lower SEER units. In many applications,

the efficiency of your DX20VC can be enhanced by using it in conjunction with a Daikin brand gas furnace that includes a variable-speed blower motor.

This unit features a powder-paint finish over heavy-gauge galvanized steel that provides premium durability and excellent UV protection.

## **DX18TC** Air Conditioner

### **Standard Features**

- » ComfortNet™ communicating system compatible
- » High-efficiency two-stage scroll compressor
- » High-efficiency ECM indoor condenser fan motor
- » Copper tube / aluminum fin condenser coil
- » Factory-installed in-line filter drier
- » Acoustically engineered sound control blanket for quiet operation
- » Copeland® CoreSense advanced diagnostics monitors the system for trouble spots
- » Heavy-gauge galvanized steel cabinet with sound-control top
- » Baked enamel finish protects the system from the elements
- » AHRI certified; ETL listed

When properly matched and installed, your ComfortNet™compatible DX18TC Air Conditioner offers up to 19 SEER high-efficiency performance. The higher the SEER, the greater the efficiency — and the lower the operating cost compared

to lower SEER units. In many applications, the efficiency of your DX18TC can be enhanced by using it in conjunction with a Daikin brand gas furnace that includes a variablespeed blower motor.

This unit features a powder-paint finish over heavy-gauge galvanized steel that provides premium durability and excellent UV protection.

### DX16TC

# Air Conditioner Up to 17 SEER

## COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Unit Replacement Limited Warranty and 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation.

Additional requirements for annual maintenance are required for the Unit Replacement Limited Warranty. Online registration and some of the additional requirements are not required in California or Quebec.

### Standard Features

- » ComfortNet™ communicating system compatible
- » High-efficiency two-stage scroll compressor
- » High-efficiency ECM indoor condenser fan motor
- » Copper tube / aluminum fin condenser coil
- » Factory-installed in-line filter drier
- » Acoustically engineered sound control blanket for quiet operation
- » Copeland® CoreSense advanced diagnostics monitors the system for trouble spots
- » Heavy-gauge galvanized steel cabinet with sound-control top
- » Baked enamel finish protects the system from the elements
- » AHRI certified; ETL listed

When properly matched and installed, your DX16TC Air Conditioner offers up to 16 SEER high-efficiency performance. The higher the SEER, the greater the efficiency — and the lower the operating cost compared to lower SEER units. In many applications, the efficiency of your DX16TC can be enhanced

by using it in conjunction with a Daikin brand gas furnace that includes a variable-speed blower motor.

This unit features a powder-paint finish over heavy-gauge galvanized steel that provides premium durability and excellent UV protection.

### COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Unit Replacement Limited Warranty and 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation.

Additional requirements for annual maintenance are required for the Unit Replacement Limited Warranty. Online registration and some of the additional requirements are not required in California or Quebec.

### Standard Features

- » ComfortNet<sup>TM</sup> communicating system compatible
- » Daikin Inside variable-speed compressor
- » High-efficiency ECM indoor condenser fan motor
- » Refrigeration-grade premium 7mm copper tubing and aluminum fin condenser coil
- » Daikin Inside Intelligence constantly monitor the system for trouble spots
- » Acoustically engineered high-density sound control blanket for quiet operation
- » Heavy-gauge galvanized steel cabinet with sound-control top
- » Baked enamel finish protects the system from the elements
- » AHRI certified; ETL listed

When properly matched and installed, your ComfortNet™compatible DZ20VC Variable-Speed Heat Pump offers up to 21 SEER high-efficiency performance. The higher the SEER, the greater the efficiency — and the lower the operating cost compared to lower SEER

units. In many applications, the efficiency of your DZ20VC can be enhanced by using it in conjunction with a Daikin brand gas furnace or air handler that includes a variable-speed blower motor.

This unit features a powder-paint finish over heavy-gauge galvanized steel that provides premium durability and excellent UV protection.

### DZ14SN

## Heat Pump Up to 15 SEER | 9.0 HSPF

## COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

### **Standard Features**

- » Energy-efficient compressor
- » Refrigeration-grade premium copper tubing and aluminum fin condenser coil
- » Time-delay defrost technology
- » Factory-installed in-line filter drier
- » Factory-installed heater band and accumulator
- » Quiet condenser fan motor
- » Heavy-gauge galvanized steel cabinet with sound-control top
- » Baked enamel finish protects the system from the elements
- » AHRI certified; ETL listed

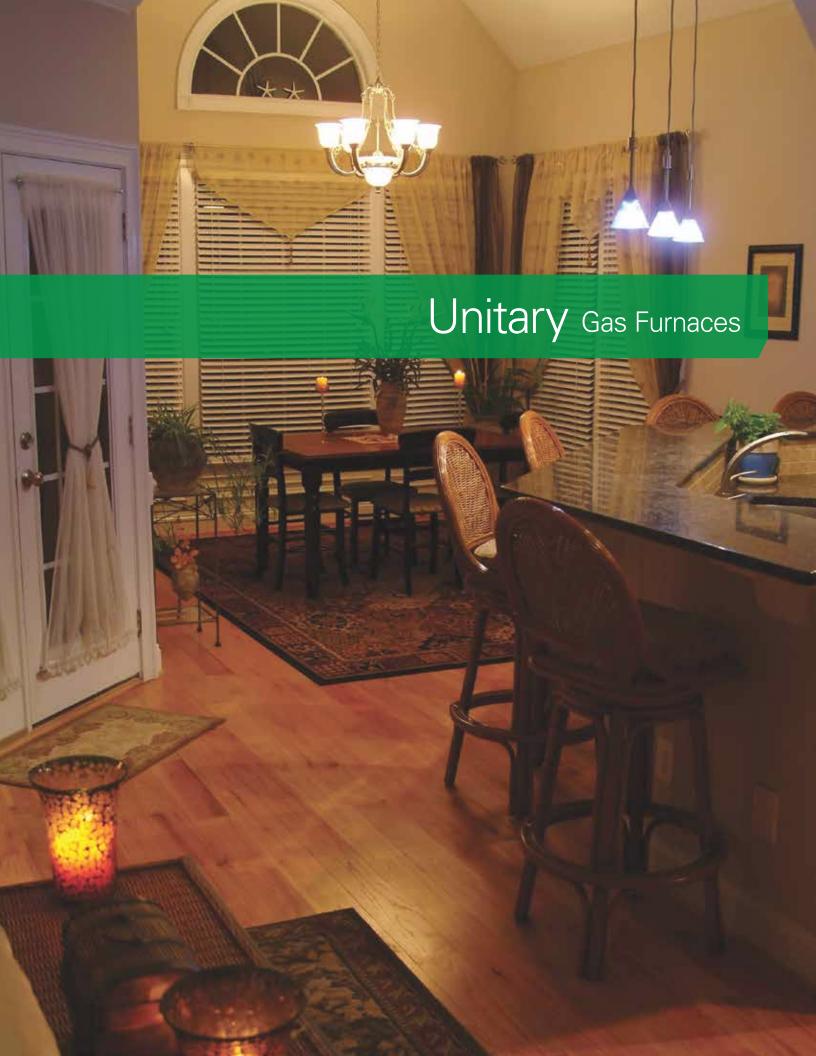

When properly matched and installed, your DZ14SN Heat Pump offers up to 15 SEER high-efficiency performance. The higher the SEER, the greater the efficiency — and the lower the operating cost compared to lower SEER units. In many applications, the efficiency of your DZ14SN can be enhanced by using it in conjunction with

a Daikin brand gas furnace or air handler.

This unit features a powder-paint finish over heavy-gauge galvanized steel that provides premium durability and excellent UV protection.

### Gas Furnace Up to 98% AFUE

## COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the Lifetime Heat Exchanger Limited Warranty (good for as long as you own your home), 12-Year Unit Replacement Limited Warranty and 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation.

Additional requirements for annual maintenance are required for the Unit Replacement Limited Warranty. Online registration and some of the additional requirements are not required in California or Quebec.

#### Standard Features

- » Multi-position installation: upflow, horizontal left or right
- » ComfortNet™ communicating system compatible
- » Durable tubular stainless-steel heat exchanger
- » Secondary stainless-steel heat exchanger for increased efficiency
- » Efficient and quiet variable-speed induced draft blower motor
- » Durable silicon nitride igniter
- » Self-diagnostic control board continuously monitors the system for consistent, reliable operation
- » Self-calibrating modulating gas valve autoconfigures for each installation
- » Fully insulated heat exchanger and blower section
- » Optional continuous air circulation to keep the air moving throughout the home

With the Daikin brand DM97MC Modulating, Variable-Speed ComfortNet™ communicating systems furnace, you will own what we believe to be our best furnace. Not only will this furnace provide your family with years of reliable warmth in even the harshest winters, it will do so economically.

### **DM96VE**

## Gas Furnace Up to 96% AFUE

## COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the Lifetime Heat Exchanger Limited Warranty (good for as long as you own your home), 6-Year Unit Replacement Limited Warranty and 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation.

Additional requirements for annual maintenance are required for the Unit Replacement Limited Warranty. Online registration and some of the additional requirements are not required in California or Quebec.

### Standard Features

- » Multi-position installation: upflow, horizontal left or right
- » Durable tubular stainless-steel heat exchanger
- » Secondary stainless-steel heat exchanger for increased efficiency
- » Quiet, multi-speed ECM indoor blower motor
- » Quiet two-speed induced draft blower
- » Durable silicon nitride igniter
- » Self-diagnostic control board continuously monitors the system for consistent, reliable operation
- » Two-stage gas valve
- » Fully insulated heat exchanger and blower section
- » Optional continuous air circulation to keep the air moving throughout the home

The Daikin brand DM96VE Multi-Speed, Multi-Position Gas Furnace features our heavy-duty stainless-steel tubular heat exchanger and durable silicon nitride hot-surface ignition system. This furnace is run-tested for heating or combination heating/cooling applications.

Not only will this furnace provide your family with years of reliable warmth in even the harshest

winters, it will do so economically. This quiet furnace delivers a money-saving efficiency of up to 96% AFUE compared to lower AFUE furnaces.

Up to 92% AFUE

#### **Standard Features**

- » Multi-position installation: downflow, horizontal left or right
- » Self-diagnostic control board continuously monitors the system for consistent, reliable operation
- » Durable tubular stainless-steel heat exchanger
- » Secondary stainless-steel heat exchanger for increased efficiency
- » Quiet, multi-speed blower motor
- » Quiet, single-speed induced draft blower
- » Durable silicon nitride igniter
- » Single-stage gas valve
- » Heavy-gauge steel cabinet with durable baked-enamel finish
- » Fully insulated heat exchanger and blower section
- » Optional continuous air circulation to keep the air moving throughout the home

The Daikin brand DC92SS Single-Stage, Multi-Speed, Multi-Position Gas Furnace features our heavy-duty stainless-steel tubular heat exchanger and durable silicon nitride hot-surface ignition system. This furnace is run-tested for heating or combination heating/cooling applications.

Not only will this furnace provide your family with years of reliable warmth in even the harshest

winters, it will do so economically. This quiet furnace delivers a money-saving efficiency of up to 92% AFUE compared to lower AFUE furnaces.

## Gas Furnace

## COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the Lifetime Heat Exchanger Limited Warranty (good for as long as you own your home), 12-Year Unit Replacement Limited Warranty and 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation.

Additional requirements for annual maintenance are required for the Unit Replacement Limited Warranty. Online registration and some of the additional requirements are not required in California or Quebec.

#### Standard Features

- » Multi-position installation: upflow, horizontal left or right
- » ComfortNet™communicating system compatible
- » Durable tubular stainless-steel heat exchanger
- » Quiet, variable-speed motor
- » Quiet, two-speed induced draft blower
- » Durable silicon nitride igniter
- » Self-diagnostic control board continuously monitors the system for consistent, reliable operation
- » Heavy-gauge steel cabinet with durable baked-enamel finish
- » Two-stage gas valve
- » Fully insulated heat exchanger and blower section
- » Continuous air circulation to keep the air moving throughout the home

The Daikin brand DM80VC Two-Stage, Variable-Speed Multi-Position Gas Furnace provides exceptional indoor comfort and quiet operation. This furnace features a stainless-steel tubular heat exchanger and durable silicon nitride ignition system. With its two-stage gas valves and variable-speed circulator blower, the DM80VC provides comfort all season long.

### Air Handler

Multi-Position, Variable-Speed Inverter-Tuned

## COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

#### Standard Features

- » Electronic Expansion Valve (EEV) for cooling and heat pump applications.
- » Variable-speed ECM indoor blower motor
- » ComfortNet™ communicating system compatible
- » Provides constant CFM over a wide range of static pressure conditions independent of duct system
- » CFM indicator
- » Thermostat provides adjustable low CFM for efficient fan-only operation
- » All-aluminum evaporator coil
- » Fault recall of six most recent faults
- » Improved humidity and comfort control compared to units without ECM or EEV
- » 3 kW 25 kW electric heater kits
- » Horizontal or vertical configuration capabilities
- » 21" depth for easier attic access
- » DecaBDE-free thermoplastic drain pan with secondary drain connections
- » Screw-less sides and back helps to reduce condensation when installed in humid locations
- » Foil-faced insulation covers the internal casing to reduce cabinet condensation
- » Tool-less filter access
- » AHRI certified; ETL listed

The Daikin brand DVPEC Multi-Position, Variable-Speed, Inverter-Tuned Air Handler is part of our *ComfortNet™* family of communicating units and is designed specifically for use with 18 SEER inverter outdoor equipment. This unit's ECM indoor blower motor allows for a soft start and stop, offering a quiet, efficient operation while helping to reduce the cold blast of air upon heating start-up.

# Air Handler Multi-Position, Variable-Speed

### **Standard Features**

- » ComfortNet™ communicating system compatible
- » Variable-speed ECM indoor blower motor
- » Auto configuration of the airflow and tonnage in communicating mode
- » Provides constant CFM over a wide range of static pressure conditions independent of duct system
- » All-aluminum evaporator coil
- » Factory-installed thermal expansion valves
- » Built-in compatibility with multi-stage heat pump and cooling applications
- » Provides adjustable low speed for efficient fan-only operation
- » Improved humidity and comfort control
- » Rigid 21" deep cabinet for easy attic access
- » Multi-position installation: upflow, downflow or horizontal
- » Built-in coil has horizontal, vertical, and downflow drain pans with secondary drain connections
- » Foil-faced insulation covers the internal casing to reduce cabinet condensation
- » AHRI certified; ETL listed

The Daikin brand DVPTC Multi-Position, Variable-Speed Air Handler is part of our *ComfortNet™* family of communicating units and optimized for use with the chlorine-free refrigerant, R-410A. This unit's ECM indoor blower motor allows for a soft start and stop, which offers a quiet, efficient operation and helps reduce the cold blast of air upon heating start-up.

# ARUF Air Handler Multi-Position Multi-Speed

### **Standard Features**

- » All-aluminum evaporator coil
- » Direct-drive, multi-speed PSC blower motor
- » Coil mounting track for quick repositioning
- » Rigid 21" deep cabinet for easy attic access
- » Screw-less sides and back reduces condensation
- » Foil-faced insulation covers the entire blower case to reduce operating sound and cabinet condensation
- » Multi-position installation: upflow, downflow or horizontal
- » Tool-less filter access accommodates standard-size filters
- » AHRI certified; ETL listed

The Daikin brand ARUF Multi-Position Air Handler features a 21" deep cabinet for easy attic access. This unit includes a check flowrater expansion device as well as direct-drive, multi-speed motor for air volume variation. The ARUF is ideal for new or retrofit applications and may be installed in a variety of locations.

## **MBVC & MBR**Air Handler

### Modular Blowers

## COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

#### Standard Features

- » MBVC is *ComfortNet™* communicating system compatible
- » MBVC: variable-speed, ECM indoor blower motor
- » MBR: multi-speed PSC blower motor
- » Provides constant CFM over a wide range of static pressure conditions independent of duct system
- » CFM indicator
- » Fault recall of six most recent faults
- » Built-in dehumidification feature
- » Blower section usable as an electric furnace
- » 21" deep cabinet for easier attic access
- » Control board includes a blower time-delay in the cooling mode
- » Foil-faced insulation lines the cabinet to help reduce operating sound and cabinet condensation
- » Horizontal or vertical configuration capabilities
- » AHRI Certified; ETL Listed

The Daikin brand MBVC/MBR modular blowers are tailor-made for exceptional energy efficiency. Now fully compatible with the *ComfortNet™* line of communicating equipment, the MBVC's ECM indoor blower motor assemblies increase both installation and application flexibility. Both units can be matched with cased coils for upflow, downflow, and horizontal applications.

# AWUF/AWUT Air Handler Wall-Mount

#### **Standard Features**

- » All-aluminum evaporator coil
- » Direct-drive, multi-speed motor allows air volume variation or heating/cooling
  - Multi-speed ECM AWUF19, 25, 31, 32, 37
     AWUT31, 32, 37
  - Multi-speed PSC motor: AWUF18, 19, 30, 36
- » AWUF models are equipped with a check flowrator
- » AWUT models are equipped with a fully adjustable TXV
- » Sequence-controlled, rust-resistant nickel chromium heating elements
- » Thermoplastic drain pan with bottom primary and secondary drain connection
- » Factory-installed pull-type disconnect

The Daikin brand AWUF and AWUT Air Handlers are designed to be vertically wall or stud mounted. The AWUF and AWUT are housed in a fully insulated, galvanized-steel cabinet.

- » Built-in filter rack (filter included)
- » Large chassis (2½- and 3-ton units) front return only
- » Small chassis (1½- and 2-ton units) front or bottom return
- » AHRI certified; ETL listed

## CAPT Cased Indoor Coil

#### **Standard Features**

- » Internal factory-installed thermal expansion valves (TXV) for cooling and heat pump applications
- » Rust-resistant, high-temperature, thermoplastic drain pans feature a low water-retention design
- » All-aluminum evaporator coil
- » Rifled aluminum tubing and corrugated aluminum fin coil
- » Galvanized, leather grain-embossed finish
- » 21" depth for easier attic access
- » Upflow/downflow configuration
- » Foil-faced insulation covers the internal casing to reduce cabinet condensation
- » High-quality post-paint cabinet
- » Split-seam front for easy access
- » AHRI certified; ETL listed

The Daikin brand All-aluminum CAPT Cased coils with TXV option are made for split system air conditioners and heat pumps. This unit features aluminum tubing and corrugated aluminum fin coils and rust-resistant, high-temperature, thermoplastic drain pans. The CAPT cabinet is painted nickel gray.

## CAPEA / CAPE Cased Indoor Coil

#### **Standard Features**

- » Electronic Expansion Valve (EEV) models feature
  - ComfortNet™ communicating system compatible
  - Cooling and heat pump applications
  - Fault recall of six most recent faults
- » All-aluminum evaporator coil
- » Galvanized, leather grain-embossed finish
- » Rust-resistant, high-temperature, thermoplastic drain pans feature a low water-retention design
- » Upflow/downflow configuration
- » 21" depth for easier attic access
- » Foil-faced insulation covers the internal casing to reduce cabinet condensation
- » Split-seam front for easy access (CAPE only)
- » DecaBDE-free UV-resistant drain pan
- » UV-resistant drain pan
- » Compatible with the Daikin Fit<sup>TM</sup> system only
- » AHRI certified; ETL listed

The Daikin brand All-aluminum CAPE Cased Upflow/Downflow Indoor Coils are made for the Daikin Fit™ system. This unit features aluminum tubing and corrugated aluminum fin coils and rust-resistant, high-temperature, thermoplastic drain pans. The CAPE cabinet is painted nickel gray.

- » Electronic Expansion Valve (EEV) models feature
  - ComfortNet™ communicating system compatible
  - Cooling and heat pump applications
  - Fault recall of six most recent faults
- » All-aluminum evaporator coil
- » Galvanized, leather grain-embossed finish
- » Rust-resistant, high-temperature, thermoplastic drain pans feature a low water-retention design
- » Dedicated Horizontal configuration
- » 21" depth for easier attic access
- » Foil-faced insulation covers the internal casing to reduce cabinet condensation
- » UV-resistant drain pan
- » Compatible with the Daikin Fit<sup>TM</sup> system only
- » Split-seam front for easy access
- » AHRI certified; ETL listed

The Daikin brand All-aluminum CHPE Cased Horizontal "A" Coils are made for the *Daikin Fit<sup>TM</sup>* system. Each coil is made of quality galvanized steel with a painted, leather grainembossed finish. This cabinet is painted Architectural Gray.

## CSCF Uncased Indoor Coil

### **Standard Features**

- » Check flowrater for cooling and heat pump applications
- » All-aluminum evaporator coil
- » Rifled aluminum tubing and corrugated aluminum fin coil
- » Rust-resistant, high-temperature, thermoplastic drain pan with secondary drain connection
- » Foil-faced insulation covers the internal casing to reduce cabinet condensation
- » Compact, versatile, right or left horizontal position
- » Copper sweat connections
- » UV-resistant drain pan
- » AHRI certified; ETL listed

The Daikin brand CSCF Horizontal Slab Evaporator Coils are made for split system air conditioners and heat pumps. This unit features a check flowrater expansion device and rust-resistant, high-temperature, thermoplastic drain pan. Each coil's cabinet has a quality, galvanized-steel finish.

15 SEER

## COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive 6-Year Unit Replacement Limited Warranty and 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation.

Additional requirements for annual maintenance are required for the Unit Replacement Limited Warranty. Online registration and some of the additional requirements are not required in California or Quebec.

#### **Standard Features**

- » Energy-efficient scroll compressor with internal relief valve
- » Variable-speed ECM indoor blower motor
- » Quiet horizontal discharge
- » All-aluminum evaporator coil
- » Copper tube / aluminum fin condenser coil
- » Compressor sound blanket
- » Heavy-gauge galvanized-steel cabinet UV-resistant powder-paint finish
- » Aluminum foil-facing internal insulation reinforced with fiberglass scrim
- » Fully insulated blower compartment has convenient access panels
- » Louvered condenser coil protection
- » Totally enclosed, permanently lubricated condenser fan motor
- » Fully charged R-410A system
- » 5 kW to 20 kW electric heat kit available as a field-installed option
- » AHRI Certified: ETL listed
- » One footprint; two heights

The Daikin brand DP15CH Packaged Air Conditioner features energy-efficient cooling performance in one self-contained unit. This unit is housed in a heavy-gauge, galvanized-steel cabinet protected by a high-quality, UV-resistant powder-paint finish. The DP15CH allows for ground-level or rooftop applications and is approved for manufactured or modular homes.

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive 6-Year Unit Replacement Limited Warranty and 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation.

Additional requirements for annual maintenance are required for the Unit Replacement Limited Warranty. Online registration and some of the additional requirements are not required in California or Quebec.

## DP16HM Packaged Heat Pump

### **Standard Features**

- » High-efficiency two-stage scroll compressor with internal relief valve
- » Variable-speed ECM indoor blower motor
- » Liquid-line filter drier
- » Convertible airflow: horizontal or downflow
- » Copper tube/aluminum fin condenser coils
- » Compressor sound blanket
- » Heavy-gauge galvanized-steel cabinet UV-resistant powder-paint finish
- » Aluminum foil-facing internal insulation reinforced with fiberglass scrim
- » Fully insulated air-handling compartment with convenient access panels
- » Louvered condenser coil protection
- » All-aluminum evaporator coil on 2- to 4-ton units
- » Aluminum-copper evaporator coil on 5-ton units
- » Totally enclosed, permanently lubricated condenser fan motor
- » Electric heat kit available as a field-installed option

The Daikin brand DP16HM Packaged Heat Pump provides high-efficiency cooling and heating performance in one self-contained unit. This unit uses R-410A chlorine-free refrigerant. The DP16HM is housed in a heavy-gauge, galvanized-steel cabinet that offers a high-quality, UV-resistant powder-paint finish and allows for a ground-level or rooftop mount.

- » Variable-speed ECM indoor blower motor
- » Copper tube/aluminum fin condenser coils
- » All-aluminum evaporator coil on 2- to 4-ton units
- » Aluminum-copper evaporator coil on 5-ton units
- » Fully insulated heavy-gauge, zinc-coated steel cabinet with UV-resistant powder-paint finish
- » Aluminum foil-facing internal insulation reinforced with fiberglass scrim
- » Compressor grommets for vibration isolation
- » All models fit in a standard-size pick-up truck
- » One roof curb fits all units
- » Convenient access panels
- » Bottom 2" high base rails for easier handling
- » Two-stage gas valve; natural gas with easy conversion to propane
- » Power-assisted combustion
- » AHRI Certified; ETL Listed
- » All blower operation and all safety circuits complete with self-diagnostics
- » Direct-spark ignition system, including a micro-processorbased control for the entire ignition sequence
- » Loss-of-charge protection and high-pressure switch
- » California Low  $NO_X$  approved

The Daikin brand DP16GM High-Efficiency Packaged Gas/ Electric unit provides indoor comfort and energy-efficient operation. This unit is housed in a heavy-gauge, zinc-coated steel cabinet with a weather-resistant, powder-paint finish and allows for a ground-level or rooftop mount.

Up to 14.2 SEER / 8.1% AFUE

## COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the Lifetime Heat Exchanger Limited Warranty (good for as long as you own your home), and 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

### Standard Features

- » Heavy-duty stainless-steel heat exchanger
- » Energy-efficient scroll compressor
- » Multi-speed ECM indoor blower motor
- » All-aluminum evaporator coil
- » Aluminum tube/aluminum fin condenser coil
- » Compressor sound blanket
- » Flowrater expansion device on 2- to 4-ton units; TXV expansion device on 5-ton units
- » Redundant gas valve with easy conversion to propane
- » Power-assisted combustion
- » Direct spark ignition system includes a microprocessor-based control for the entire ignition sequence, all blower operation, and all safety circuits complete with self-diagnostics
- » All models comply with California Low NO<sub>X</sub> standards
- » AHRI Certified; ETL Listed
- » High-quality UV-resistant powder-paint finish
- » Aluminum foil-facing internal insulation reinforced with fiberglass scrim
- » Horizontal or downflow application
- » Convenient access panels
- » One roof curb fits all units
- » Bottom, 2" high base rails for easier handling
- » One footprint; two heights

The Daikin Brand DP14GM Packaged Gas/Electric Unit features energy-efficient cooling and heating performance in one self-contained unit. The DP14GM is housed in a heavy-gauge, galvanized-steel cabinet protected by a high-quality, UV-resistant powder-paint finish. This unit allows for ground-level or rooftop applications.

## DP14DM Packaged Dual-Fuel

Up to 14.5 SEER / 8.0 HSPF / 8.1% AFUE

### **Standard Features**

- » Combines cooling with heat pump and gas heating for optimal year-long performance
- » High-efficiency scroll compressor
- » Heavy-duty stainless-steel heat exchanger
- » Multi-speed ECM indoor blower motor
- » All-Aluminum evaporator coil
- » Copper tube/aluminum fin coil
- » Compressor sound blanket
- » Fully insulated heavy-gauge, zinc-coated steel cabinet with UV-resistant powder-paint finish
- » Aluminum foil-facing internal insulation reinforced with fiberglass scrim
- » Louvered metal panel condenser coil protection
- » Horizontal or downflow application
- » Convenient access panels
- » One roof curb fits all units
- » Bottom, 2" high base rails for easy handling
- » All models fit a standard-size pick-up truck
- » Two-stage gas valve; natural gas with easy conversion to propane with accessory kit
- » Power-assisted combustion
- » Direct spark ignition system includes a microprocessorbased control for the entire ignition sequence
- » All blower operation and all safety circuits complete with self-diagnostics
- » Loss-of-charge protection
- » All models comply with California Low NO<sub>x</sub> emission standards
- » AHRI Certified; ETL Listed
- » One footprint; two heights

The Daikin Brand DP14DM High-Efficiency Packaged Dual-Fuel unit provides indoor comfort and energy-efficient operation. This unit is housed in a heavy-gauge, zinc-coated steel cabinet with a weather-resistant, powder-paint finish and allows for a ground-level or rooftop mount.

# SkyAir Heat Pumps and Air Conditioners SkyAir

#### Quick and easy installation for a broad range of applications

SkyAir is the ultimate ducted and duct free solution for light commercial and residential whole house applications. Ranging from 18,000 Btu/h to 42,000 Btu/h, these innovative systems provide energy efficiency, technological reliability and installation flexibility.

#### SkyAir systems key features and benefits include:

- DC fan motor improves efficiency compared to conventional AC motors.
- Aero spiral fan and grille minimizes turbulence and increases sound reduction.
- Reluctance brushless DC compressor increases efficiency compared to fixed-speed compressor technology.
- Swing Compressor Model Friction and refrigerant leakage are minimized for greater energy savings.
- Scroll Compressor Model Suctioned gas is compressed in the scroll section before reaching the heated motor so that non-expanded gas is compressed, resulting in high-efficiency compression.
- > Long piping lengths up to 230 ft. allow layout flexibility.
- Anti-corrosion treatment on the outdoor heat exchanger increases durability.

| Model                            |  |

<sup>\*</sup>Applicable to heat pump models only, refer to installation manual for more details.

### FBQ\_PVJU RZR PVJU8 / RZQ PVJU8 DC Duct Concealed

#### COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. Warranty registration not required to receive the 10-Year parts limited warranty for residential or commercial installations.

#### Sleek in design with comfort control features.

#### Standard Features

- » Medium external static pressure (ESP) capabilities offer up to 0.8 "W.G.
- » DC fan motor provides excellent efficiency
- » Three user selected fan speeds available plus fan "Auto" logic
- » Built-in condensate pump
- » Bottom access for easy service
- » Low profile design at less than 12" high
- » Optional wired controller
- » Connect to Daikin Zoning Kit (Optional)

- » Increases the flexibility of the SkyAir systems in both residential and commercial applications by adding a Zoning Box to an indoor unit fan coil
- » Allows several separate ducts to supply air to different individually-controlled zones.
- » The DZK BACnet® Interface will work with any BACnet/ IP compatible Building Management System
- » DZK thermostats pictured below

# FCQ\_PAVJU RZR\_PVJU8 / RZQ\_PVJU8 Round Flow Cassette

### COMFORTABLE LIMITED WARRANTY\* PROTECTION

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. Warranty registration not required to receive the 10-Year parts limited warranty for residential or commercial installations.

### Customizable comfort ideal for open plan applications.

#### **Standard Features**

- » 23 configurable airflow patterns ensure ideal air distribution for maximized comfort and savings
- » 360° airflow reduces draft
- » Lower air velocities provide better airflow distribution
- » Stain resistant decoration panel allows for easy cleaning
- » Condensate pump provided as standard
- » Outside air integration possible
- » Optional wired controller

# FHQ\_PVJU RZR\_PVJU8 / RZQ\_PVJU8 Ceiling Suspended

### COMFORTABLE LIMITED WARRANTY\* PROTECTION

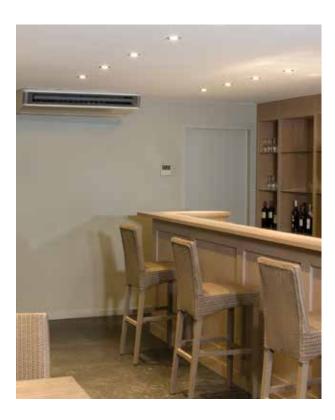

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. Warranty registration not required to receive the 10-Year parts limited warranty for residential or commercial installations.

### A slim solution for open or structured ceilings.

#### **Standard Features**

- » Slim in height at less than 8"
- » Auto-swing capability with 100° airflow pattern distributes comfortable airflow
- » Innovative stream fan technology keeps sound pressure levels low
- » Lateral servicing space allows installation in corners, narrow spaces, walls, and ceilings
- » Flat panel design makes cleaning simple
- » Concealed piping
- » Optional wired controller
- » Optional condensate pump

# FTQ\_PBVJU RZQ\_PVJU8 / RZQ\_PVJU7 Inverter Ducted

### COMFORTABLE LIMITED WARRANTY\* PROTECTION

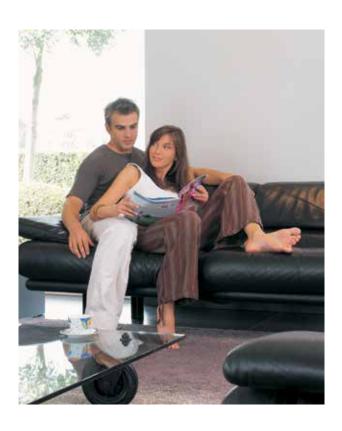

\* Complete warranty details available from your local dealer or at www.daikincomfort.com. Warranty registration not required to receive the 10-Year parts limited warranty for residential or commercial installations.

### An intelligent alternative to traditional unitary systems.

#### **Standard Features**

- » Upflow or horizontal right configurations for the indoor unit
- » Energy efficiency up to SEER 20.0
- » High heating capacity at low ambient temperatures as low as -4°F with no electrical heat
- » Field-installed electric heater options available from 3 kW to 15 kW (electric heater connection kit part no. KER26A60 required for electric heat integration)
- » Low outdoor unit sound levels (as low as 49 dB(A))

### **Light Commercial**Commercial Comfort

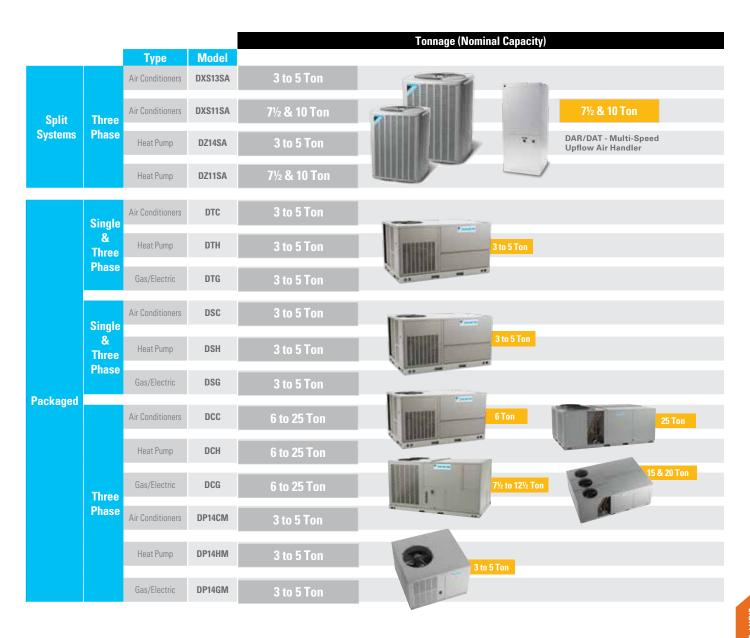

#### Commercial comfort. No compromise.

Get curb appeal, energy efficient performance and outstanding product limited warranties\*.

Get on the ground floor with one of the world's largest HVAC manufacturers and start growing your business. Daikin commercial splits and packaged units offer ease of installation, efficient operation and outstanding product limited warranty\* coverage. Whether you need a straight cooling unit, heat pump or gas/electric, you'll find cogent features such as 5mm condensing coils, outstanding heat pump features and our most durable tubular heat exchanger. When you want the best, don't compromise. Demand Daikin!

\*Complete warranty details available from your local distributor or manufacturer's representative or at www.daikincomfort.com.

### **Light Commercial**Features

# DSC - Single & Three-PhasePackaged Air Conditioners3 to 5 Tons

\*Complete warranty details available from your local distributor or manufacturer's representative or at www.daikincomfort.com.

The Daikin DSC Commercial Packaged Air Conditioners feature a high-efficiency scroll compressor, convertible airflow orientation, and easy access for servicing. These units are housed in a heavy-gauge, galvanized-steel cabinet with UV-resistant powder-paint finish.

#### DESIGNED FOR EXCEPTIONAL DURABILITY, ENERGY EFFICIENCY, AND OUTSTANDING PERFORMANCE.

- » R-410A chlorine-free refrigerant
- » High-efficiency scroll compressors
- » Copper tube/aluminum fin coils
- » 24-volt terminal strip
- » High-capacity, steel-cased filter drier
- » Convertible airflow orientation
- » Bottom utility entry
- » AHRI Certified; ETL Listed
- » Built-in filter rack with standard2" filters
- » Heavy-gauge, galvanized-steel cabinet with UV-resistant powder-paint finish
- » Full perimeter rail; Curb fit

## **DCC - Three-Phase Packaged Air Conditioners**6 Tons

\*Complete warranty details available from your local distributor or manufacturer's representative or at www.daikincomfort.com.

The Daikin DCC Commercial Packaged Air Conditioners feature a high-efficiency scroll compressor, convertible airflow orientation, and easy access for servicing. These units are housed in a heavy-gauge, galvanized-steel cabinet with UV-resistant powder-paint finish.

#### DESIGNED FOR EXCEPTIONAL DURABILITY, ENERGY EFFICIENCY, AND OUTSTANDING PERFORMANCE.

- » R-410A chlorine-free refrigerant
- » High-efficiency scroll compressors
- » Copper tube/aluminum fin coils
- » 24-volt terminal strip
- » High-capacity, steel-cased filter drier
- » Convertible airflow orientation
- » Bottom utility entry
- » AHRI Certified; ETL Listed
- » Built-in filter rack with standard2" filters
- » Heavy-gauge, galvanized-steel cabinet with UV-resistant powder-paint finish
- » Full perimeter rail; Curb fit

### DCH - Three-Phase Packaged Heat Pumps 6 Tons

The Daikin DCH Commercial Packaged Heat Pumps feature the chlorine-free refrigerant R-410A. Other features include highefficiency scroll compressors and easy access for servicing. These units are housed in a heavy-gauge, galvanized-steel cabinet with UV-resistant powder-paint finish.

- » R-410A chlorine-free refrigerant
- » High-efficiency scroll compressor
- » Copper tube/aluminum fin coils
- » Contactor with lugs
- » AHRI Certified; ETL Listed
- » High-capacity, steel-cased filter drier
- » Bottom utility entry
- » 24-volt terminal strip
- » Convertible airflow orientation
- » Easy to service

- » Built-in filter rack with standard2" filters
- » Heavy-gauge, galvanized-steel cabinet with UV-resistant powder-paint finish
- » Full perimeter rail; Curb fit

# **DSG - Single & Three-Phase Packaged Gas/Electric**3 to 5 Tons

The Daikin DSG Commercial Packaged Gas/Electric Units feature the chlorine-free refrigerant R-410A. Other features include our dual-diameter tubular heat exchanger and a high-efficiency scroll compressor. These units are housed in a heavy-gauge, galvanized-steel cabinet with UV-resistant powder-paint finish.

- » R-410A chlorine-free refrigerant
- » Aluminized-steel tubular heat exchanger; stainless-steel heat exchanger optional
- » High-efficiency scroll compressor
- » Copper tube/aluminum fin coils
- » Contactor with lugs
- » High-capacity, steel-cased filter drier
- » 24-volt terminal strip Easy to service and Convertible
- » Built-in filter rack with standard 2" filters
- » Bottom utility entry
- » AHRI Certified; ETL Listed
- » Complies with California Low NO<sub>X</sub> emissions standards
- » Full perimeter rail; Curb fit
- » For installation in California's South Coast Air Quality Management District (SCAQMD) only: This furnace does not meet the SCAQMD Rule 1111 14 ng/J NOx emission limit, and thus is subject to a mitigation fee of up to \$450. This furnace is not eligible for the SCAQMD Clean Air Furnace Rebate Program: www.CleanAirFurnaceRebate.com.

# DCG - Three-PhasePackaged Gas/Electric6 Tons

\*Complete warranty details available from your local distributor or manufacturer's representative or at www.daikincomfort.com.

The Daikin DCG Commercial Packaged Gas/Electric Units feature the chlorine-free refrigerant R-410A. Other features include our dual-diameter tubular heat exchanger and a high-efficiency scroll compressor. These units are housed in a heavy-gauge, galvanized-steel cabinet with UV-resistant powder-paint finish.

- » R-410A chlorine-free refrigerant
- » Aluminized-steel tubular heat exchanger; stainless-steel heat exchanger optional
- » High-efficiency scroll compressor
- » Copper tube/aluminum fin coils
- » Contactor with lugs
- » High-capacity, steel-cased filter drier
- » 24-volt terminal strip
- » Easy to service and Convertible
- » Built-in filter rack with standard2" filters
- » Bottom utility entry
- » AHRI Certified; ETL Listed
- » Complies with California Low NO<sub>X</sub> emissions standards
- » Full perimeter rail; Curb fit

# **DT Series - Single-Phase Packaged Units**3 to 5 Tons

The Daikin DT High-Efficiency Commercial Packaged Air Conditioners and Heat Pumps feature a high-efficiency scroll compressor, high-capacity steel-cased filter drier, and easy access for servicing. These units are housed in a heavy-gauge, galvanized-steel cabinet with UV-resistant powder-paint finish.

#### DESIGNED FOR EXCEPTIONAL DURABILITY, ENERGY EFFICIENCY, AND OUTSTANDING PERFORMANCE.

- » High-efficiency scroll compressor
- » Copper tube/aluminum fin coils
- » Contactor with lugs
- » High-capacity, steel-cased filter drier
- » 24-volt terminal strip
- » Convertible airflow orientation
- » Easy to service

- » Built-in filter rack with standard2" filters
- » Heat Kits with single-point entry
- » AHRI Certified; ETL Listed
- » Heavy-gauge, galvanized-steel cabinet with UV-resistant powder-paint finish
- » Full perimeter rail; Curb fit
- » DTG Gas/Electric only: For installation in California's South Coast Air Quality Management District (SCAQMD) only: This furnace does not meet the SCAQMD Rule 1111 14 ng/J NOx emission limit, and thus is subject to a mitigation fee of up to \$450. This furnace is not eligible for the SCAQMD Clean Air Furnace Rebate Program: www.CleanAirFurnaceRebate.com.

# DT Series - Three-PhasePackaged Units3 to 5 Tons

\*Complete warranty details available from your local distributor or manufacturer's representative or at www.daikincomfort.com.

The Daikin DT High-Efficiency Commercial Packaged Air Conditioners and Heat Pumps feature a high-efficiency scroll compressor, high-capacity steel-cased filter drier, and easy access for servicing. These units are housed in a heavy-gauge, galvanized-steel cabinet with UV-resistant powder-paint finish.

#### DESIGNED FOR EXCEPTIONAL DURABILITY, ENERGY EFFICIENCY, AND OUTSTANDING PERFORMANCE.

- » High-efficiency scroll compressor
- » Copper tube/aluminum fin coils
- » Contactor with lugs
- » High-capacity, steel-cased filter drier
- » 24-volt terminal strip
- » Convertible airflow orientation
- » Easy to service

- » Built-in filter rack with standard 2" filters
- » Heat Kits with single-point entry
- » AHRI Certified; ETL Listed
- » Heavy-gauge, galvanized-steel cabinet with UV-resistant powder-paint finish
- » Full perimeter rail; Curb fit
- » DTG Gas/Electric only: For installation in California's South Coast Air Quality Management District (SCAQMD) only: This furnace does not meet the SCAQMD Rule 1111 14 ng/J NOx emission limit, and thus is subject to a mitigation fee of up to \$450. This furnace is not eligible for the SCAQMD Clean Air Furnace Rebate Program: www.CleanAirFurnaceRebate.com.

# **DP14CM - Three-Phase Packaged Air Conditioners**3 to 5 Tons

The Daikin DP14CM Commercial Packaged Air Conditioner provides energy-efficient cooling and cooling performance in one self-contained unit. This unit uses the chlorine-free refrigerant R-410A. The DP13CM is housed in a heavy-gauge, galvanized-steel cabinet that offers a high-quality, UV-resistant powder-paint finish and allows for a ground-level or rooftop mount.

- » Energy-efficient compressor with internal relief valve
- » Fully charged R-410A system
- » EEM blower motor; PSC blower motor on 3-ton units
- » Copper tube/aluminum fin coils
- » Totally enclosed, permanently lubricated condenser fan motor
- » Electric heat kit available as a field-installed option
- » Convertible airflow horizontal or downflow
- » Louvered condenser coil protection
- » Heavy-gauge galvanized-steel cabinet with attractive nickel gray powder-paint finish
- » Fully insulated air-handling compartment with convenient access panels

# DP14GM - Three-Phase Packaged Gas/Electric 3 to 5 Tons

The Daikin DP14GM Commercial Packaged Gas/Electric Units feature the chlorine-free refrigerant R-410A. Other features include our corrosion-resistant tubular heat exchanger and an energy-efficient scroll compressor. These units are housed in a heavy-gauge, galvanized-steel cabinet with UV-resistant powder-paint finish.

#### DESIGNED FOR EXCEPTIONAL DURABILITY, ENERGY EFFICIENCY, AND OUTSTANDING PERFORMANCE.

- » Energy-efficient compressor with internal relief valve
- » EEM blower motor; PSC blower motor on 3-ton units
- » Durable, corrosion-resistant aluminized-steel tubular heat exchanger
- » Fully charged R-410A system
- » Copper tube/aluminum fin coils
- » Gas valve for natural gas with easy conversion to propane
- » Direct-spark ignition system includes a microprocessor-based control for the entire ignition sequence
- » All blower operation and all safety circuits complete with self-diagnostics
- » All models comply with California Low NO<sub>X</sub> standards
- » AHRI Certified; ETL Certified
- » Heavy-gauge, galvanized-steel cabinet with UV-resistant powder-paint finish
- » Fully insulated cabinet
- » One roof curb fits all units

- » One footprint; one height
- » Convenient access panels
- » Fits in a standard-size pick-up truck
- » For installation in California's South Coast Air Quality Management District (SCAQMD) only: This furnace does not meet the SCAQMD Rule 1111 14 ng/J NOx emission limit, and thus is subject to a mitigation fee of up to \$450. This furnace is not eligible for the SCAQMD Clean Air Furnace Rebate Program: www.CleanAirFurnaceRebate.com.

# **DX13SA - 13 SEER Air Conditioners**3 to 5 Tons

\*Complete warranty details available from your local distributor or manufacturer's representative or at www.daikincomfort.com.

The Daikin DX13SA Three-Phase Air Conditioner uses the chlorine-free refrigerant R-410A and features operating sound levels that are among the best in the heating and cooling industry. With its 13 SEER rating, the DX13SA will help reduce energy consumption throughout the life of the system compared to lower SEER-rated equipment.

#### DESIGNED FOR EXCEPTIONAL DURABILITY, ENERGY EFFICIENCY, AND OUTSTANDING PERFORMANCE.

- » R-410A chlorine-free refrigerant
- » Energy-efficient compressor
- » Factory-installed filter drier
- » Copper tube/enhanced aluminum fin coil
- » Complies with ASHRAE Standard 90.1
- » AHRI Certified; ETL Listed
- » Louvered sound control top design
- » Steel louver coil guard
- » Heavy-gauge galvanizedsteel cabinet
- » Attractive nickel gray powder-paint finish
- » Top and side maintenance access
- » Single-panel access to controls with space provided for field-installed accessories

### DX11TA - 11.2 EER / 13-13.5 IEER Air Conditioners $7\frac{1}{2}$ & 10 Tons

The Daikin DX11TA Commercial Air Conditioner cabinet features a powder-paint finish over heavy-gauge galvanized steel that provides premium durability and improved UV protection. Designed for ground-level or rooftop mount, the base pan elevates the unit above the slab to provide excellent water drainage and keep the coil away from debris that can collect inside the unit. The unit's attractive louvered metal guard protects the coil from damage and strengthens the unit.

#### DESIGNED FOR EXCEPTIONAL DURABILITY, ENERGY EFFICIENCY, AND OUTSTANDING PERFORMANCE.

- » R-410A chlorine-free refrigerant
- » Two-stage energy-efficient compressor with internal relief valve
- » High-capacity, steel-cased filter drier
- » High-efficiency copper tube/aluminum fin coil High- and low-pressure switches
- » AHRI Certified; ETL Listed
- » Louvered sound control top design
- » Steel louver coil guard protects coil from damage and adds strength to the unit
- » Bottom pan rails elevate unit above slab
- » Heavy-gauge galvanized-steel cabinet
- » Attractive nickel gray powder-paint finish

### DZ14SA - 14 SEER Heat Pumps 3 to 5 Tons

\*Complete warranty details available from your local distributor or manufacturer's representative or at www.daikincomfort.com.

The Daikin Commercial Heat Pump cabinet features a powderpaint finish over heavy-gauge galvanized steel that provides premium durability and improved UV protection. Designed for ground-level or rooftop mount, the base pan elevates the unit above the slab to provide excellent water drainage and keep the coil away from debris that can collect inside the heat pump. The unit's attractive louvered metal guard protects the coil from damage and strengthens the unit.

#### DESIGNED FOR EXCEPTIONAL DURABILITY, ENERGY EFFICIENCY, AND OUTSTANDING PERFORMANCE.

- » R-410A chlorine-free refrigerant
- » Energy-efficient scroll compressor
- » Low-pressure switch
- » Liquid refrigerant return protection
- » Factory-installed, bi-flow liquid line filter drier
- » Copper tube/enhanced aluminum fin coil
- » Reliable time-initiated, temperture-
- terminated defrost control

  » Contactor with lug connection
- » Ground lug connection
- » AHRI Certified; ETL Listed
- » Louvered sound control top design
- » Steel louver coil guard

- » Heavy-gauge galvanized-steel cabinet
- » Attractive nickel gray powder-paint finish
- » Top and side maintenance access
- » Service ports and controls are accessible while unit is operating

# **DAT - Multi-Speed Upflow Air Handler**7½ & 10 Tons

\*Complete warranty details available from your local distributor or manufacturer's representative or at www.daikincomfort.com.

The Daikin DAT Multi-Speed, Multi-Position Air Handlers are suitable for upflow or left side horizontal installations to accompany your 7½ and 10-ton split-system units. These unit feature a fully insulated fiberglass blanket for quiet, efficient operation.

### DESIGNED FOR EXCEPTIONAL DURABILITY, ENERGY EFFICIENCY, AND OUTSTANDING PERFORMANCE.

- » Circuited for use with one (1) 7½-ton or one (1) 10-ton cooling-only or heat pump system. Also circuited for use with two (2) 4-ton or two (2) 5-ton cooling-only units
- » Copper tube/aluminum fin coils
- » TXV control; 7½-ton unit has one (1) thermal expansion valve; 10-ton unit has two (2) thermal expansion valves
- » Draw-thru centrifugal blower is beltdriven for quiet, efficient operation
- » Heavy-gauge, reinforced, galvanized-steel cabinet

- » Fully insulated with fiberglass blanket
- » Horizontal and vertical condensate pans
- » Built-in filter rack (2" filter included)
- » Entry on top of panel for both low and high voltages
- » Removable access panels make servicing of unit faster and easier

- $\ ^{\wedge}$  Contains 20 brackets; four brackets needed to anchor unit to pad
- <sup>1</sup> Installed on indoor coil
- <sup>2</sup> Field-installed, non-bleed, expansion valve kit Condensing units and heat pumps with reciprocating compressors require the use of start-assist components when used in conjunction with an indoor coil using a nonbleed thermal expansion valve refrigerant metering device or liquid line solenoid kit. The TXV should always be sized based on the tonnage of the outdoor unit.

# Heat Pumps

<sup>\*</sup> Electric Heater kW rating: Rated at 240v for 208-230v units; 480v for 460v units

# What is Daikin VRV?

### One Flexible Package

Daikin VRV is a modular, commercially applied air-conditioning and heating system that distributes refrigerant from the outdoor unit to multiple indoor units, providing efficient, comfortable individual user control and reliability in one flexible package.

Daikin VRV systems provide advanced solutions for almost any large residential to commercial application. Available in air-cooled or water-cooled solutions and heat recovery or heat pump systems, VRV provides advanced heating and cooling options with individual zone control for both open plan and tightly grouped applications.

VRV is built upon 4 basic "Building Blocks" — Outdoor Unit, Indoor Unit, Piping, and Controls — providing the attributes of a central chilled water system but with the simplicity of a split system.

This makes it very flexible and ideal for energy-efficient and comfortable cooling and heating of many types of buildings such as banks, health care, skilled care, libraries, storage facilities, conference centers, etc.

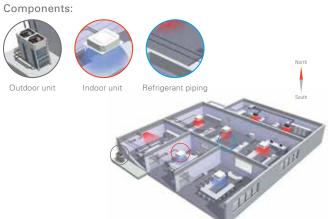

#### Air Cooled

- » Fast and easy to install no need for additional components
- » Low maintenance costs
- » Can be installed both outdoors and indoors
- » Up to 38 tons capacity for one system
- » Available in Heat Pump or Heat Recovery (Simultaneous Heating and Cooling of Different zones)

#### Water Cooled

- » Suitable for multi-story and large buildings because of the almost unlimited possibilities of water piping
- » Not affected by outdoor temperature/climate conditions
- » Reduce CO<sub>2</sub> emissions thanks to the possibility of geothermal energy as a renewable energy source
- » Available in Heat Pump or Heat Recovery (Simultaneous Heating and Cooling of Different zones)

#### Components:

Refrigerant piping (Geothermal)

206

# Why choose Daikin VRV?

## Inventor and leader in VRV systems since 1982

# Diverse products that make the difference

### » In efficiency

- Variable Refrigerant Temperature technology leading to excellent energy efficiency
- Indoor units with advanced sensing technology and optional self-cleaning air filter panel

#### » In comfort

- Variable Refrigerant Temperature technology preventing cold droughts
- 13 different indoor unit types and 81 models
- Low sound indoor and outdoor units

#### » In aesthetics

- Stylish cassettes integrated in the ceiling
- Ceiling suspended cassettes
- Elegant wall mounted units

#### » In installation

- Automatic refrigerant charge function
- Self-addressing control system after installation
- VRV Configurator for simplified and time saving commissioning
- Flexible connection possibilities for indoor and outdoor units

#### » In control

- intelligent Touch Manager a mini-BMS/Centralized Controller that integrates all units in a cost-efficient system
- Easy integrating with third party BMS
- Dedicated control solutions for applications such as offices, shops, hotels, schools, etc.

### » In system design

- User friendly sizing and selection software
- CAD drawings and Revit\* families
- Comprehensive engineering manuals

#### » In after market support

- Nationwide field support organization
- 50+ product training facilities in North America
- Dedicated tech support team

#### » In reliability

- Refrigerant-cooled electronics in outdoor unit
- Extensive testing before new units leave the factory
- Spare parts available in the US
- ISO 9001 compliant manufacturing
- One of the best warranties\*\* in the industry
- \* Visit bim.daikincity.com for Revit families
- \*\* Complete warranty details available from your local distributor or manufacturer's representative or at www.daikincomfort.com.

# Outstanding 10-Year Parts and Compressor Limited Warranties\*

Outstanding warranty\* with 10-Year Replacement Compressor Limited Warranty and 10-Year

Parts Limited Warranty as standard ensures our confidence in our new VRV IV.

\* Complete warranty details available from your local Daikin manufacturer's representative or distributor or online at www.daikincomfort.com.

# FXMQ\_PBVJU HSP DC Concealed Ducted Unit

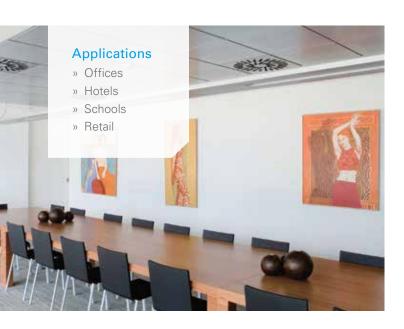

# Powerful, Concealed, Flexible

The ceiling mounted HSP DC concealed ducted unit is ideal for small to large spaces in need of a concealed air-conditioning system. It is extremely powerful and the compact design allows it to be completely concealed. This makes it perfect for retail, classrooms, offices, banks, restaurants, shops and hotels common areas.

### Features and Benefits

- » Capacity range up to 54 MBH.
- » Energy efficient due to the DC fan motor
- » Ideal to use together with the optional Daikin Zoning Kit, DZK
- » Configurable auxiliary heater control logic
- » Enhanced indoor air quality and LEED ready with MERV 13 filter options
- » Ease of installation with auto adjusting airflow at commissioning based on external static pressure
- » Flexible ductwork design with ESP capabilities up to 0.8" W.G.
- » Installation flexibility with a low profile, compact design at less than 12" in height
- » Easy maintenance with complete service access from below
- » Option to permanently turn off the condensate pump via field settings

BRC1E73 (option)

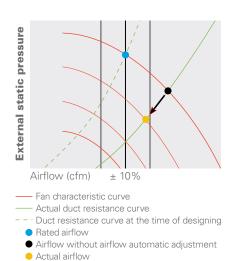

3RC2A71 (option)

BRC4C82 (option)

### Auto Adjust External Static Pressure

- » After installation, it is possible that the actual duct resistance is lower than expected at the time of designing. As a consequence, the air-flow will be too high.
- » With the automatic air-flow adjustment function the unit can adapt its fan speed to a lower curve, so the air-flow decreases.
- » The air-flow will always be within 10% of the rated air-flow because of the amount of possible fan curves (more than 8 fan curves available per model).
- » Alternatively the installer can manually select a fan curve with the wired remote control.

Auto Adjust External Static Pressure

<sup>\*</sup>Optional face plates available to provide a more intuitive user interface and disable specific functions

# FXMQ\_PBVJU (cont.) HSP DC Concealed Ducted Unit

## Kits and Accessories

The optional Daikin Zoning Kit (DZK) increases the flexibility of the Daikin VRV and SkyAir systems by adding a

Zoning Box to an indoor unit fan coil (FXMQ-P or FBQ-P series, respectively) allowing several separate ducts to supply air to different individually-controlled zones in the building. A zone can be a room, part of room, or several rooms. This flexible and scalable Zoning Kit integrates seamlessly with the indoor unit fan coil controls. The DZK system controls work together with the regular Daikin zone controller (i.e. BRC1E73) to establish the required set-point, fan speed and mode of operation that is then requested to the VRV indoor unit via the Daikin zone controller. This allows the internal DZK control algorithms to look at the number of zone dampers in operation, and at what position the dampers need to be and adjust the VRV indoor unit operation accordingly. The DZK system is not directly compatible with the suite of Daikin centralized control options such as iTM and iTC.

A complete Daikin Zoning Kit consists of Zoning Box (with Control Board), Wired Thermostat, and Wireless Thermostats. The optional DZK BACnet Interface enables any BACnet/IP compatible Building Management System to be used for remote monitoring and control of the DZK.

#### Wired Thermostat

The 3rd generation DZK introduces all new, redesigned Wired and Wireless thermostats. The revised form factor offers a slim profile and capacitive touch capability for an enhanced user experience.

The wired thermostat in the DZK is a graphical colored, touch-screen interface with text menus, intuitive icons, and guided scheduling capability. It displays temperatures and operating values, and selects the operating mode for the system.

#### Wireless Thermostats

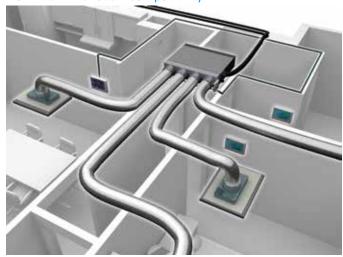

The optional Wireless thermostat offers a backlit, low energy E Ink display with capacitive touch buttons. The user can adjust the zone set point temperature, set user mode schedules, activate local ventilation, and more.

The optional Wireless Lite thermostat offers a sleek, simple user interface to adjust the local zone set point temperature using led-lit capacitive touch buttons.

# Now with BACnet®/IP compatibility

# Zoning Box with Control Box (Model Depends on Indoor Unit)

The Zoning Box in the Daikin Zoning
Kit mounts easily on Daikin's Indoor
Unit FXMQ-P or FBQ\_P series fan
coils. It consists of the enclosure,
individually motorized dampers, and a
control box. It is available in different sizes
and damper configurations and by utilizing
ducts for air supply it can be used to control
the air temperature in up to 6 zones. The wired
thermostat and the wireless thermostats provide
temperature inputs and user interfaces for programming
and adjustment of the control functions for each zone.

#### **DZK BACnet Interface**

If VRV systems are installed with the DZK system to accomplish a variety of zoning solutions and there is a requirement to be able

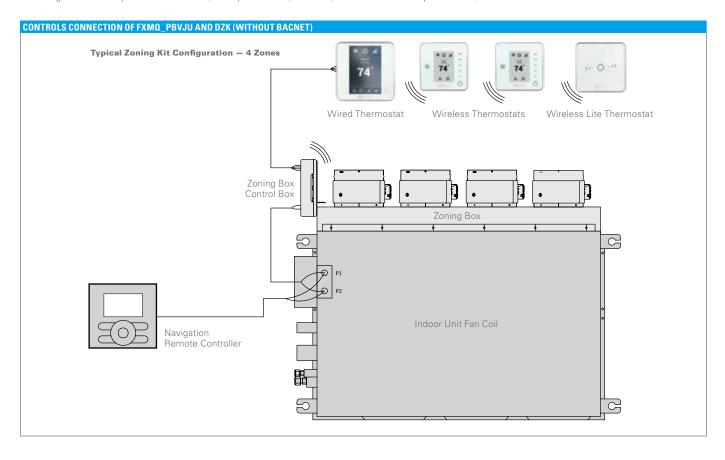

to monitor and control the various DZK zone dampers from a centralized control system, it is possible to utilize the DZK BACnet Interface to address this solution.

The DZK BACnet Interface will work with any BACnet/IP compatible Building Management System.

For configuration of DZK systems without BACnet, either products with, or without, the BACnet functionality can be used, even "mix and match".

# FXSQ\_TAVJU MSP Concealed Ducted Unit

# Do more with less

The MSP concealed ducted unit is engineered with impressive static pressure capability in a compact, flexible chassis design to give designers a tool to approach even the most cramped air conditioning applications.

## Features and Benefits

- » Powerful static pressure capability, with up to 0.6 in. Wg. (150Pa) external static pressure.
- » Ease of installation with auto adjusting airflow at commissioning based on external static pressure.
- » Designed for installation flexibility, with a factory rear-return configuration and field convertible to bottom return.
- » Sound levels as low as 28 dB(A) for quiet operation.
- » Provides a high degree of control for auxiliary heating devices, with independently configurable on/off temperature values.
- » Integral condensate pump with up to 25-5/16" (643mm) of lift from the drain outlet

BRC1E73 (option)

3RC2A7´ (option)

BRC4C82 (option)

### Flexible Installation

The FXSQ\_TA can easily be converted to a bottom-return configuration to optimize the use of space above the ceiling or bulkhead space.

Note: 1 Nominal cooling capacities are based on the following conditions: 80 °FDB / 67 °FWB (26.7 °CDB / 19.4 °CWB) return air temperature; 95 °FDB (35 °CDB) outdoor temperature; 25 ft. (7.6 m) equivalent refrigerant piping.

Nominal heating capacities are based on the following conditions: 70 °FDB (21.1 °CDB) return air temperature; 47 °FDB / 43 °FWB (8.3 °CDB / 6.1 °CWB) outdoor temperature; 25 ft. (7.6 m) equivalent refrigerant piping.

# FXDQ\_MVJU LSP Slim Concealed Ducted Unit

Condensate Pump as Standard

Outside Air Integration Possible

Filter Included

# Concealed, Slim, Quiet, Comfortable

The LSP slim concealed unit is available for use with the VRV systems to complement the existing concealed ceiling unit options. With its low profile and low sound level this unit can be installed into limited ceiling void, bulkhead or soffit space.

### Features and Benefits

- » Slim height, at only 7-7/8", makes it suitable for most of the applications where attic / bulkhead space is limited
- » With a sound level down to 29 dB(A) these units are among the guietest on the market
- » Factory shipped for rear air inlet field convertible to bottom air inlet
- » Washable filter included
- » Condensate pump with vertical lift of up to 21-5/8" included as standard
- » Blends unobtrusively with any interior decor; only the suction and discharge grills are visible

#### FXTQ\_TAVJUA(D)

## Multi-Position Air Handling Unit

The FXTQ\_TAVJUA(D) air handler features full multi-position\* flexibility to meet the most demanding installation conditions. A multitude of features ensure reliable, efficient performance year round.

#### **Features and Benefits**

- » Expanded capacity lineup, featuring ten models ranging from ¾ ton to 5 tons, with a redesigned\*\* unit frame for maximum durability.
- » Full multi-position air handler capable of upflow, downflow\*, horizontal right, and horizontal left installation.
- » A high efficiency, ECM motor powers the fan to deliver nominal CFM at up to 0.9" in. Wg static. An auto fan speed setting automatically adjusts the fan speed through 5 steps based on the load in the space.
- » Wide line up of electric heat (field installed) options from 3kW to 25kW.
- » An auxiliary heat logic features a reduced heater operation deadband and the ability to run both heat pump and auxiliary heat for maximum comfort and performance in colder climates. The auxiliary heat can be interlocked with the ambient temperature sensed by the outdoor unit.
- » Designed with less than 2% air leakage when tested in accordance with ASHRAE standard 193.
- » New integrated control board reduces\*\* the number of electrical connections required. Quick disconnect control wiring terminals simplify installation.
- » Easily integrate with third party accessories such as a humidifier or economizer with on-board contacts.

- » Up to 200% connection ratio is possible on applicable VRV IV systems.
- » Available with optional factory installed disconnect (Built to order — model FXTQ\_TAVJUD.
- \*Downflow requires field installed optional downflow accessory. (Part number DFK-B/C/D)
- \*\*Compared to previous model FXTQ\_P

#### **Designed for Compact Spaces**

With its compact and space saving design, the new FXTQ\_TAVJUA(D) air handler units are engineered to suit most light commercial and residential applications.

- » At under 46" tall and only 17-1/2" wide up to 3 tons, the FXTQ\_TAVJUA(D) can be installed in tight closet spaces.
- » Designed for zero clearance on three sides and only 24" clearance on the front for service.
- » Sound levels as low as 36 dBA to suit applications in sound sensitive environments

<sup>\*1</sup> Nominal cooling capacities are based on the following conditions: 80 °FDB / 67 °FWB (26.7 °CDB / 19.4 °CWB) return air temperature; 95 °FDB (35 °CDB) outdoor temperature; 25 ft. (7.6 m) equivalent refrigerant piping.

 $<sup>^{\</sup>circ}$  Nominal heating capacities are based on the following conditions: 70 °FDB (21.1 °CDB) return air temperature; 47 °FDB / 43 °FWB (8.3 °CDB / 6.1 °CWB) outdoor temperature; 25 ft. (7.6 m) equivalent refrigerant piping.

 $<sup>\</sup>ensuremath{^{*3}}$  External static pressures are indicated as rated / maximum allowable range.

#### FXMQ\_MVJU

## HSP High Capacity Concealed Ducted Unit

#### Concealed, Slim Design, Strong, Comfortable

The FXMQ\_MVJU ducted fan coil unit is ideal for larger open space floor plans usually found in offices, retails, hotels, or education facilities. It performs well across multiple spaces that can benefit from the same mode of operation, limiting equipment and installation cost.

#### **Features and Benefits**

- » Design flexibility with a capacity range up to 96 MBH
- » Improved ductwork and filtration flexibility with ESP capabilities of up to 1.1" W.G.
- » Low profile design of less than 19" high to reduce required installation space

## Concealed Floor-Standing Unit

#### Versatile, Logical, Durable, Quiet

The ideal way to save space, our floor-standing units can easily be installed along a perimeter wall — or concealed. The air distribution from these models will allow you to find the right balance for classrooms, churches, office hallways or similar spaces. The concealed floor units cover a wide range of capacities and can be built into counter in order to maintain the aesthetics of the room.

#### **Features and Benefits**

- » Ideal for installation beneath a window
- » Unit requires minimal installation space
- » Fitted with a washable long-life filter
- » Remote-control options available
- » Space-saving unit can be freestanding or wall-mounted, concealed or exposed
- » Models range from 7.5 MBH to 24 MBH

## Round Flow Sensing Cassette

Condensate Pump as Standard

Outside Air Integration Possible

Filter Included

#### Adaptive Comfort Control

The Round Flow Sensing Cassette is ideal for open plan applications such as classrooms and offices where adaptive comfort control is preferred. The unit provides an excellent comfort level, energy efficiency, and flexibility due to advanced control functions based on input from three room sensors (occupancy, air temperature, and surface temperature). With 18 configurable airflow distribution patterns, it can be efficient and provide a comfortable environment in smaller, more intricate spaces as well.

#### **Features and Benefits**

- » Capacity range from 7.5 to 48 MBH.
- » True 360° Airflow and three room sensors enables optimized occupant comfort and efficiency
- » Energy efficient with DC fan motor and auto-logic that adjusts fan speed based on space load
- » Optional self-cleaning air filter panel to further increase efficiency and reduce maintenance costs, when used in VRV IV systems
- » Very flexible with 18 different possible airflow patterns, ensuring ideal air distribution to maximize comfort and efficiency
- » Compact design to allow for installation in small ceiling voids
- » Sound pressure levels as low as 27 db(A)
- » Enhanced indoor air quality and LEED ready with MERV 13 filter options

The built-in occupancy sensor has two main functions: save energy and optimize occupancy comfort. In order to save energy, the function of the occupancy sensor can be used to automatically set back the air temperature and also lower the fan speed if no people are present in the room.

BRC1E73 (option)

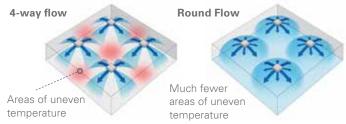

BRC2A71 (option)

Together with the occupancy sensor, the air-temperature sensor and the built-in surface temperature sensor are used to maintain an even and comfortable temperature distribution from floor to ceiling in the room. This is done by automatically adjusting the supplied airflow rate and the individual position of each of the four supply air louvers in the unit, thus maintaining the required comfortable space environment.

In order to further increase efficiency and reduce maintenance costs, the Round-Flow Sensing Cassette can be equipped with an optional self-cleaning filter panel that performs automatic air-filter cleaning up to once a day. Dust is deposited into a collection box during the self-cleaning process. When indicated with light on the unit and on the controller display, the dust collection box in the unit can easily and quickly be emptied with a standard vacuum cleaner.

4-way flow vs. Round Flow

Round Flow Ceiling Mounted Cassette type offers 360° airflow with improved temperature distribution.

## 4-Way Ceiling-Suspended Cassette

Condensate Pump as Standard

Filter Included

Optional Surface & Occupancy Sensor Kit

#### Slim, Stylish, Flexible

The unique 4-way ceiling-suspended cassette is an ideal solution for rooms without a false ceiling, or minimal space above a false ceiling, where adaptive comfort control is preferred.

The optional Sensor Kit (occupancy and surface temperature) together with air temperature sensor and advanced control functions enables the unit to provide an exceptional comfort level, energy efficiency, and flexibility.

#### Features and Benefits

- » Very low unit height of under 8" makes it an ideal solution for school, shops, restaurants and offices with no or low false ceilings
- » Optional Sensor Kit enables input from three room sensors to provide optimized occupant comfort and efficiency
- » Stylish unit blends easily with any interior, as the air louvers close entirely when not in operation
- » Energy efficient fan motor
- » Individual air louver control one or more louvers can be easily closed via the remote controller when required
- » Ideal for both new and existing buildings
- » Can also be mounted partially recessed in a false ceiling
- » Same appearance and size for all capacity models
- » Standard drain pump with 19.5" lift

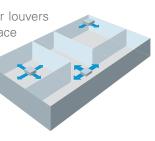

BRC1E73 (option)

BRC2A71 (option)

#### Flexible Airflow Pattern

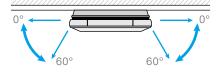

The four individually controlled air louvers in the unit enables comfortable space environment in a variety of different room layouts.

Air from each louver can be set to exhaust in 5 different angles between 0 and 60 degrees, or set to auto-swing.

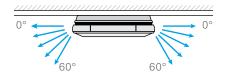

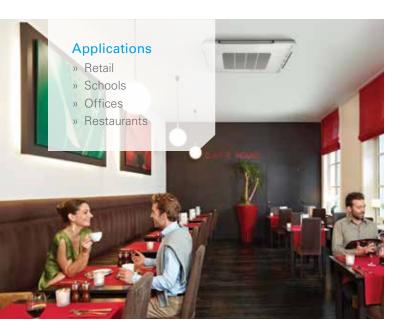

Airflow Angles

Auto Swing: Wide discharge angle: 0° to 60°

Fixed angles: 5 levels

<sup>&</sup>lt;sup>1</sup> Installation box for Adapter PCB (KRP1BA97) is necessary. <sup>2</sup> Remote Sensor can only be installed when Sensor Kit is not installed.

Automatic air-direction control

Air-flow from the indoor unit is automatically adjusted to always maintain a comfortable environment — even when occupancy changes.

# **FXZQ\_TAVJU**VISTA<sup>TM</sup> $2 \times 2$ Cassette Unit for VRV

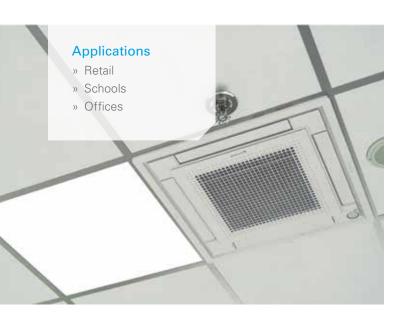

#### Designer Comfort

VISTA<sup>TM</sup> is a remarkable blend of iconic design and engineering excellence with an elegant white or a silver and white finish. Fitting within the ceiling grid, *VISTA* is stylish, low profile, and compact. Energy efficiency and comfort can be enhanced through the combined use of optional floor and presence sensors. It is also possible to close individual louvers via the wired remote control for personalized comfort.

#### **Features and Benefits**

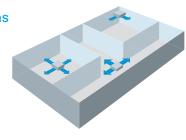

- New 0.5 ton (5,800 Btu/h) size.
- Seamless integration in standard architectural ceiling tiles, eliminating any overlap of adjacent tiles.
- Energy efficient operation thanks to specially developed small tube heat exchanger and two optional intelligent sensors.
- The use of a high efficiency DC fan motor reduces operational power input up to 48% compared to the previous generation.
- Provides high degree of control for auxiliary heating devices, with independently configurable on/off temperature values.
- Direct integration of fresh air through a factory knock out.

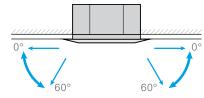

#### Flexible Airflow Patterns

The four air louvers in the unit enables comfortable space environment in many different room layouts.

Airflow Angles

Auto Swing: Wide discharge angle:  $0^{\circ}$  to  $60^{\circ}$ 

Fixed Angles: 5 Levels

0°

0'

Angles can be also set on site to prevent drafts (0°-35°) or soiling of the ceiling (25°-60°), other than standard setting (0°-60°).

<sup>\*</sup>Optional face plates to provide a more intuitive user interface and disable specific functions

<sup>\*\*</sup>Not compatible with the legacy-style decoration panel

#### **FXEQ\_PVJU**

## Ceiling-Mounted Cassette (Single Flow)

Condensate Pump as Standard

Outside Air Integration Possible

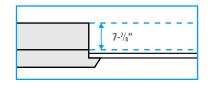

Filter Included

#### Slim and Compact Design for Installation Flexibility

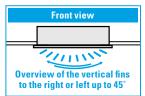

#### **Features and Benefits**

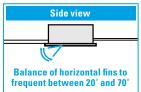

» The main body of the unit is optimized to be a compact design.
Only 7-1/8" in height and a width of 18-1/2" making it possible to

use this style of indoor unit in the tightest of spaces.

» The innovative discharge air louver design forces air in heating mode to ground level to improve the overall space heating effect of the indoor unit.

- » The unit is equipped with both horizontal and vertical louvers that can be freely adjusted with the remote controller providing a capability to optimize the airflow and throw to suit your room design.
- » The utilization of both a DC-style Fan Motor and integrated Condensate Pump allow for improvements in energy consumption as well as lower operating sound levels than other styles of indoor units.
- » This Indoor unit can be set to 5 predetermined fan speeds using the BRC1E73 wired remote controller, which allows for optimum and comfortable airflow.

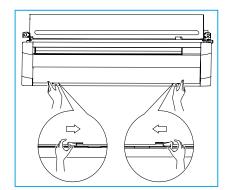

- » A Ventilation Air knock-out is provided to allow up to 15% of the rated airflow through the unit to be pretreated outside air.
- » The innovative "smooth finish" decoration panel design helps to minimize dust and dirt build-up and facilitates easier cleaning.
- » The Indoor Unit is equipped with a factory installed condensate pump with a lift capacity of up to 33-7/16" (measured from the bottom of the unit).
- 31-½"
- » The units are equipped with customizable auxiliary heat control settings to facilitate the

On/Off control of an external auxiliary heat solution.

» For ease of service and maintenance activities, it is possible to access the main components of the unit by only removing the decoration panel.

Note: \*1. Electrical box (No.5-1/6-1) is required for controller (No. 5/6) \*2. Adaptor mounting box (No.12) is necessary.

<sup>&</sup>lt;sup>\*2</sup> Nominal heating capacities are based on the following conditions: return air temperature: 70.0° FDB (21.1°C DB), outdoor temperature: 47.0° FDB (8.3°C DB), 43.0° FDB (6.1°C WB) equivalent ref. piping: 25ft. (7.6m) (Horizontal)

## **FXHQ\_MVJU**Ceiling-Suspended Unit

#### Slim, Efficient, Quiet, Easy to Maintain

With its slim, elegant design, the FXHQ ceiling-suspended unit is a great fit for any light commercial space. Wide air openings provide a comfortable airflow and an innovative stream fan ensures quiet operation, making it ideal for retail stores, restaurants, classrooms and conference rooms.

#### **Features and Benefits**

- One of our slimmest indoor units (less than 8") fits within any interior design
- » Wide air discharge outlet distributes a comfortable airflow throughout the entire space with throw of up to 25 ft.
- » Innovative stream fan technology keeps sound pressure levels low
- » Smooth flat louver design makes cleaning simple
- » Long-life filter is standard
- » Models range from 12 MBH to 36 MBH

## **FXAQ\_PVJU**Wall-Mounted Unit

#### Stylish, Compact, Convenient, Comfortable

Daikin's wall-mounted units are ideal for cooling or heating smaller zones such as stores, offices, and restaurants. The compact, stylish design lets the unit blend discreetly into any interior design, and airflow can be supplied in any of five different directions and easily programmed via remote control.

#### **Features and Benefits**

- » Auto-swing mechanism ensures efficient air distribution via louvers that automatically close when the unit is turned off
- » Wide air discharge outlet distributes a comfortable airflow throughout the entire space
- » Horizontal louvers and front panel can be easily removed for cleaning
- » Drain pipe can be easily hidden from sight
- » Models range from 7.5 MBH to 24 MBH

## **FXLQ\_MVJU9**Floor-Standing Unit

#### Versatile, Logical, Durable, Quiet

The ideal way to save space, our floor-standing units can easily be installed along a perimeter wall. The air distribution from these models will allow you to find the right balance for classrooms, churches, office hallways or similar spaces.

#### Features and Benefits

- » Ideal for installation beneath a window
- » Unit requires minimal installation space
- » Fitted with a washable long-life filter
- » Remote-control options available
- » Space-saving unit can be freestanding or wall-mounted
- » Models range from 7.5 MBH to 24 MBH

## VRV Products Outdoor Units

### Daikin VRV AURORA™ Heat Recovery 208-230V & 460V

Daikin VRV AURORA™ Series heat recovery systems introduce a new benchmark for VRF technology by integrating advanced technologies to provide comfort, control, energy efficiency and reliability. The Daikin VRV AURORA Series heat recovery systems set a new industry standard for heating and cooling solutions by delivering high heat capacities at low ambient applications.

#### **Features and Benefits**

- » VRF Industry's first air cooled system that delivers heating down to -22°F (-30°C) as standard
- » Daikin's patented inverter based vapor injection compressor delivers high heating capacity of up to 100% at 0°F (-18°C), up to 85% at -13°F (-25°C) and up to 60% at -22°F(-30°C)
- » Optimized efficiencies delivered by dedicated allinverter compressors and inverter fan motors
- » Refrigerant-cooled efficient and stable inverter board operation, independent of ambient conditions
- » Hot gas base pan circuit allows installation without an additional drain pan heater
- » Designed to provide continuous heating during defrost and oil return\*\*
- » Engineered with Daikin vapor injection compressor for optimized part load efficiencies
- » Added peace of mind with Auto Changeover ability to back up (auxiliary) heat

#### Applications:

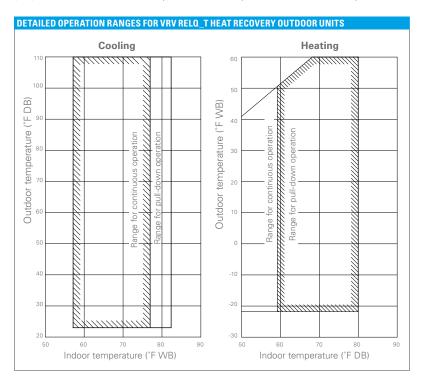

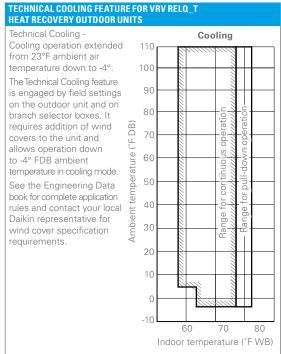

- » Long pipe lengths up to 1640 ft total and ability to connect up to 41\*\*\* indoor units with up to 100 ft vertical separation between indoor units provides design and installation flexibility
- » Corrosion resistant, 1000 hours salt spray tested Daikin PE blue fin heat exchanger
- » Ships factory standard with coil guards
- \* Complete warranty details available from your local distributor or manufacturer's representative or at www.daikincomfort.com.
- \*\*Multi modules only for continuous heating during defrost
- \*\*\*Varies by model

Certified efficiency data in accordance with ANSI/AHRI Standard 1230 2010, "Performance Rating of Variable Refrigerant Flow (VRF) Multi-Split Air Conditioning and Heat Pump Equipment" for the VRV Series. The VRV AURORA<sup>TM</sup> Series has been designed and optimized to meet or exceed the latest minimum efficiency requirements in 10 C.F.R. Part 431 as determined by the U.S. Department of Energy (DOE) and baseline efficiencies as defined by ASHRAE 90.1 2013. Systems under 65MBH are currently certified to AHRI 210/240. IEER ratings are as defined in ASHRAE 90.1 2013.

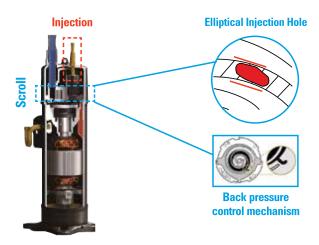

### **Daikin VRV AURORA™**

## Heat Recovery 208-230 & 460V (cont.)

- » Compressor technology with new spiral design and injection valves for precise refrigerant control
- » Strong and efficient motors for optimized compressor performance and part load efficiencies
- » Patented back pressure control mechanism to minimize scroll pressure losses

#### **VRV IV**

### Air-Cooled Heat Recovery

Daikin's VRV IV systems integrate advanced technology to provide comfort control with high energy efficiency and reliability. VRV IV provides heating and cooling solutions for multi-family residential to large commercial applications. Daikin VRV IV is the first variable refrigerant flow (VRF) system assembled in North America.

#### **Features and Benefits**

- » Total comfort solution for heating, cooling, ventilation and controls.
- » Redesigned and optimized for low total Life Cycle Cost (LCC).
- » Available in large capacity single modules up to 14 tons and systems up to 38 tons allowing for flexible system design.
- » Year-round comfort and energy efficiency delivered by combining VRV and VRT technologies.
- » Compatible with Daikin DVS series of Dedicated Outdoor Air Systems (DOAS).
- » High energy efficiency with IEER values up to 29.3.
- » Integrated inverter technology delivers high efficiency during part load conditions and provides precise individual zone control.
- » Design flexibility with long piping lengths up to 3,280 ft. total, and up to 100 ft. vertical separation between indoor units.
- » Corrosion resistant 1000 hr. salt-spray tested Daikin PE blue fin heat exchanger.

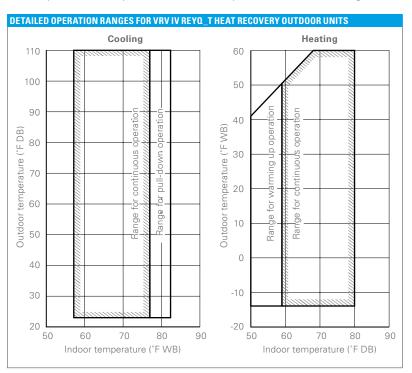

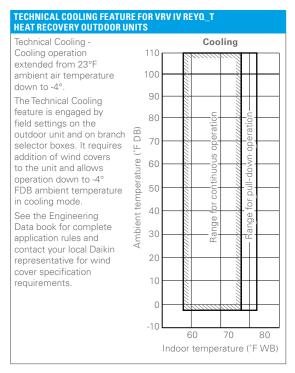

- » Single/multiple port branch selector boxes provide compact dimensions and a wide range of product offerings (single, 4, 6, 8, 10 and 12 port options).
- » Reduced commissioning time with VRV configuration software and Graphical User Interface (GUI), as compared to VRV III.
- » VRV IV takes advantage of Daikin's unique zone and centralized controls that are optimized for the specific needs of North America.
- » Outstanding 10-Year Limited Parts Warranty\* as standard.
- \* Complete warranty details available from your local distributor or manufacturer's representative or at www.daikincomfort.com.

Certified efficiency data in accordance with ANSI/AHRI Standard 1230 2010, "Performance Rating of Variable Refrigerant Flow (VRF) Multi-Split Air Conditioning and Heat Pump Equipment" for the VRV Series. The VRV IV Series has been designed and optimized to meet or exceed the latest minimum efficiency requirements in 10 C.F.R. Part 431 as determined by the U.S. Department of Energy (DOE) and baseline efficiencies as defined by ASHRAE 90.1 2013. Systems under 65MBH are currently certified to AHRI 210/240. IEER ratings are as defined in ASHRAE 90.1 2013.

### **VRV IV**

#### **VRV IV**

### Air-Cooled Heat Pump

Daikin's VRV IV systems integrate advanced technology to provide comfort control helping to maximize energy efficiency and reliability. VRV IV provides heating and cooling solutions for multi-family residential to large commercial applications. Daikin VRV IV is the first variable refrigerant flow (VRF) system assembled in North America.

#### **Features and Benefits**

- » Total comfort solution for heating, cooling, ventilation and controls.
- » Redesigned and optimized for low total Life Cycle Cost (LCC).
- » Available in large capacity single modules up to 14 tons and systems up to 34 tons allowing for a more flexible system design.
- » Year-round comfort and energy efficiency delivered by combining VRV and VRT technologies.
- » High energy efficiency with IEER values up to 27.3.
- » Integrated inverter technology delivers high efficiency during part load conditions and provides precise individual zone control.
- » Design flexibility with long piping lengths up to 3,280 ft. total, and up to 100 ft. vertical separation between indoor units.
- » Corrosion resistant 1000 hr. salt-spray tested Daikin PE blue fin heat exchanger.

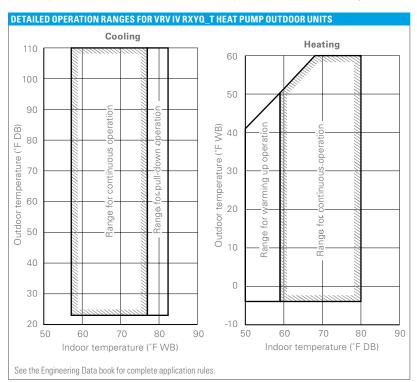

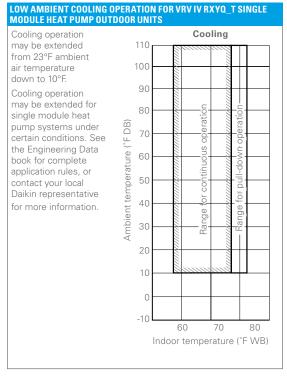

- » Reduced commissioning time with VRV configuration software and Graphical User Interface (GUI), as compared to VRV III.
- » VRV IV takes advantage of Daikin's unique zone and centralized controls that are optimized for the specific needs of North America.
- » Outstanding 10-year limited parts warranty\* as standard.
- \* Complete warranty details available from your local distributor or manufacturer's representative or at www.daikincomfort.com.

Certified efficiency data in accordance with ANSI/AHRI Standard 1230 2010, "Performance Rating of Variable Refrigerant Flow (VRF) Multi-Split Air Conditioning and Heat Pump Equipment" for the VRV Series. The VRV IV Series has been designed and optimized to meet or exceed the latest minimum efficiency requirements in 10 C.F.R. Part 431 as determined by the U.S. Department of Energy (DOE) and baseline efficiencies as defined by ASHRAE 90.1 2013. Systems under 65MBH are currently certified to AHRI 210/240. IEER ratings are as defined in ASHRAE 90.1 2013.

### VRV-III PC Air-Cooled

Heat Recovery

Daikin's VRV III systems integrate advanced technology to provide comfort control to help maximize energy efficiency. Available in heat recovery configurations, VRV III provides a solution for residential to large commercial applications desiring heating, cooling, or simultaneous operation.

#### Features and Benefits

- » Advanced continuous heating during defrost cycle and oil return for single module systems
- » Variable Refrigerant Temperature (VRT) control
- » Extended operating range with heating function -4°F ambient air temperature

Certified efficiency data in accordance with ANSI/AHRI Standard 1230 2010, "Performance Rating of Variable Refrigerant Flow (VRF) Multi-Split Air Conditioning and Heat Pump Equipment" for the VRV Series. The VRV III Series has been designed and optimized to meet or exceed the latest minimum efficiency requirements in 10 C.F.R. Part 431 as determined by the U.S. Department of Energy (DOE) and baseline efficiencies as defined by ASHRAE 90.1 2013. Systems under 65MBH are currently certified to AHRI 210/240. IEER ratings are as defined in ASHRAE 90.1 2013.

# VRV T-Series Water Cooled Heat Pump / Heat Recovery 208-230V / 460V

VRV T-Series Water Cooled systems are equivalent to 4-pipe chilled water systems, but also offer a viable alternative to Water Source Heat Pump solutions. Each connected indoor unit can provide heating and cooling independently to suit zone requirements making these systems suitable for both open plan, or cellar applications with different operation requirements.

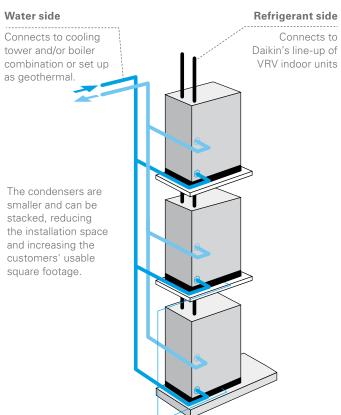

### Features and Benefits

- » Flexible System design with increased diversity up to 150%¹ compared to previous VRV water cooled generation
- » Triple-stack capable to deliver up to 36 tons in 10.5 ft ceiling height
- » Flexible and easy installation with field selectable top or front refrigerant connections
- » Design flexibility with long piping lengths up to 980 ft. total (540 ft. max. linear liquid piping length) and up to 100 ft. vertical separation between indoor units
- » Engineered with heat rejection cancellation technology<sup>2</sup> to minimize mechanical room conditioning requirements
- » Year round comfort and energy efficiency by combining VRV and VRT technologies
- » Wide water temperature operation range Can be applied to both geothermal and boiler/tower applications as standard with condenser water inlet temperature as low as 14°F in heating and 23°F in cooling is possible.
- » 2-9V variable water flow control logic² as standard to increase waterside system operational efficiencies
- » Refrigerant cooled inverter technology to deliver consistent and reliable PCB operations
- » Easy commissioning with ability to program settings off site using new configurator tool
- » 3-digit 7-segment digital display on the unit for improved and faster configuration, commissioning, and troubleshooting
- » Engineered for easy service with drop-down switch box to access key components
  - <sup>1</sup> Model specific, check product specification for details
  - <sup>2</sup> Refer to installation manual for field settings and other requirements to activate this feature

VRV Water Cooled System Series design is based on a modular design concept. It is composed of unified condensing units that require simply connecting a two-pipe refrigerant network for heat pump applications or a three-pipe refrigerant network for heat recovery applications. Water-cooled condensers are available in 6\*, 8, 10 and 12 tons.

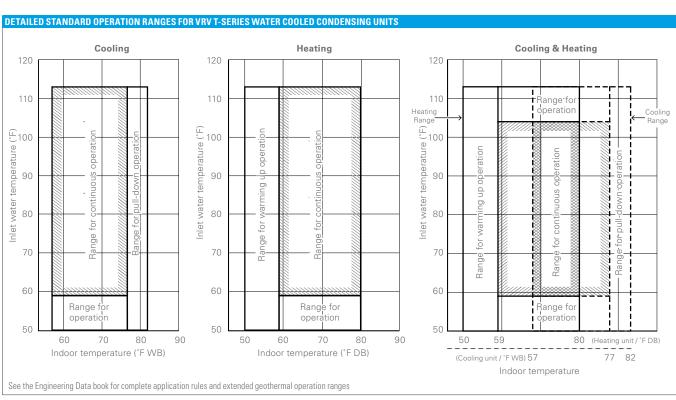

This is a simple system that allows manifolding together up to three condensers to form one system of up to 36 tons. The condensers are designed for internal mounting only.

\* 6-ton model (RWEYQ72PC) is PC series. T and PC series models cannot be combined to form multi-module systems.

Certified efficiency data in accordance with ANSI/AHRI Standard 1230 2010, "Performance Rating of Variable Refrigerant Flow (VRF) Multi-Split Air Conditioning and Heat Pump Equipment" for the VRVT-Series Water Cooled. The VRV T-Series Water Cooled has been designed and optimized to meet or exceed the latest minimum efficiency requirements in 10 C.F.R. Part 431 as determined by the U.S. Department of Energy (DOE) and baseline efficiencies as defined by ASHRAE 90.1 2013. Systems under 65MBH are currently certified to AHRI 210/240. IEER ratings are as defined in ASHRAE 90.1 2013.

# VRV T-Series Water Cooled Heat Pump or Heat Recovery 208-230V

### A modular, energy-efficient and reliable alternative to centralized equipment

### Features and Benefits

- » Flexible System design with increased diversity up to 150%¹ compared to previous VRV water cooled generation
- » Small condensers can be triple stacked for reduced installation space and increased usable square footage
- » Larger (than previous models) single-system capacity and modular concept ensures wider application range for accommodating floor-by-floor loads of commercial buildings
- » Year round comfort and energy efficiency by combining VRV and VRT technologies

- » Can be applied to both geothermal and boiler/tower applications as standard with condenser water inlet temperature as low as 14 °F in heating and 23 °F in cooling is possible
- » 2-9V variable water flow control logic² as standard to increase waterside system operational efficiencies
- » Refrigerant cooled inverter technology to deliver consistent and reliable PCB operations
- » Engineered for easy service with drop-down switch box to access key components
- <sup>1</sup> Model specific, check product specification for details
- <sup>2</sup> Refer to installation manual for field settings and other requirements to activate this feature

<sup>&</sup>lt;sup>4</sup> Varies based on indoor and condensing unit model selected; refer to Engineering Manual for details.

<sup>&</sup>lt;sup>5</sup>Please note that a water strainer (standard accessory for the T-series, field supplied for the PC-series) is required for each condensing unit model.

<sup>6</sup> Application rules apply below 50°F. Please contact your local Daikin sales representative for design assistance and approval.

# **VRV T-Series Water Cooled** Heat Pump or Heat Recovery 460V

### A modular, energy-efficient and reliable alternative to centralized equipment

### Features and Benefits

- » Flexible System design with increased diversity up to 150%1 compared to previous VRV water cooled generation
- » Small condensers can be triple stacked for reduced installation space and increased usable square footage
- » Larger (than previous models) single-system capacity and modular concept ensures wider application range for accommodating floor-by-floor loads of commercial buildings
- » Year round comfort and energy efficiency by combining VRV and VRT technologies

- » Can be applied to both geothermal and boiler/tower applications as standard with condenser water inlet temperature as low as 14 °F in heating and 23 °F in cooling is possible
- » 2-9V variable water flow control logic² as standard to increase waterside system operational efficiencies
- » Refrigerant cooled inverter technology to deliver consistent and reliable PCB operations
- » Engineered for easy service with drop-down switch box to access key components
- <sup>1</sup> Model specific, check product specification for details
- $^{\rm 2}$  Refer to installation manual for field settings and other requirements to activate this feature

<sup>&</sup>lt;sup>4</sup>Varies based on indoor and condensing unit mode selected; refer to Engineering Manual for details.

<sup>&</sup>lt;sup>6</sup> Application rules apply below 50°F. Please contact your local Daikin sales representative for design assistance and approval.

<sup>&</sup>lt;sup>5</sup> Please note that a water strainer (standard accessory for the T-series, field supplied for the PC-series) is required for each condensing unit model.

### **VRV IV S-Series**

# Heat Pump 208-230V

### **Light Commercial**

The VRV IV S-series system is a highly efficient solution for small commercial buildings requiring heating and cooling of up to 9 zones. A mix of ducted and duct-free indoor units can be combined to provide individual comfort and ease of installation.

Whether you are working with space constraints or want to maximize the amount of commercial space available, the VRV IV S-series system gives you the flexibility you need. With its simple, versatile design and long piping lengths (up to 230 ft. actual piping length one way), the VRV IV S-series can accommodate practically any floor layout, enabling better use of space.

Its advanced zoning capabilities allow floor-by-floor installation so that each floor can be occupied quickly upon completion. And, because the outdoor units are lightweight and vibration-free, there's no need to reinforce floors, reducing both installation time and costs.

Daikin VRV's wide range of stylish and discreet indoor units provide configurations for every retail space, giving you the benefit of our highly efficient technology, whatever the design of your store. Wall mounted units matched to your interior meet both aesthetic and energy needs while also supporting the look and feel of your brand and preserving floor space. Slim ducted and concealed units blend almost unseen into your store, while floor standing units with small footprints preserve floor space, fitting unobtrusively into recesses or under windows.

### Features and Benefits

- » Single-phase technology is perfect for light commercial and residential applications in 36,000, 48,000 and 60,000 Btu/h models.
- » Space-saving design fit in tight areas and are quick and easy to install.
- » Savings in energy use due to higher SEER and HSPF ratings when compared to VRV III-S.
- » Soft sound level operation ensures a comfortable fit in any room.
- » Single-supplier reliability. The system factory engineered and 80% complete upon delivery — is fully optimized by Daikin, plus has self-diagnostics and one of the best warranties in the industry\*.
- » Simplified equipment selection with a flexible array of indoor unit options.
- \* Complete warranty details available from your local Daikin manufacturer's representative or distributor or online at www.daikincomfort.com.

### DETAILED OPERATION RANGES FOR VRV IV-S (RXTQ\_TAVJU) HEAT PUMP OUTDOOR UNITS

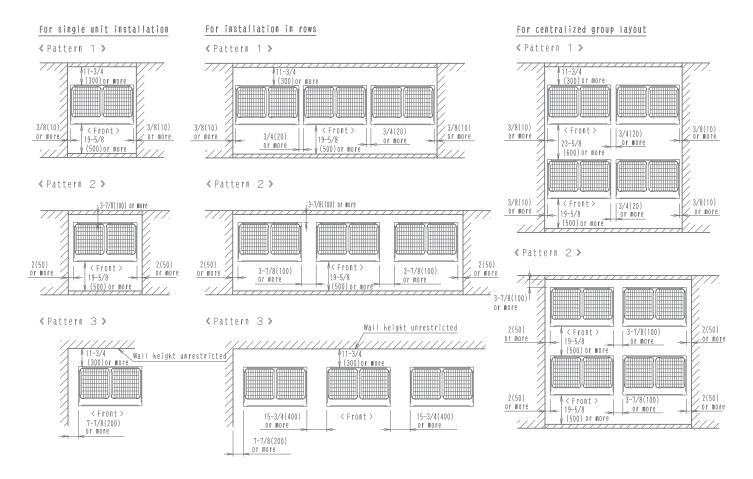

# **URV IV / URV** AURORATM

### **Installation Space Examples**

- » The installation space requirement shown in the figure is a reference for cooling.
- » During installation, install the units using the most appropriate of the patterns shown in the figure for the location in question, taking into consideration human traffic and wind.
- » If the number of units installed is more than that shown in the pattern in the figure, install the units so that there is no air short circuiting.
- » Consider the space needed for the refrigerant piping when installing the units, as determined by local codes.
- » If the space requirements in the figure do not apply, contact your contractor or Daikin directly.

# **URV IV / URV** AURORATM

### **Notes**

1. Heights of walls in case of Patterns 1 and 2:

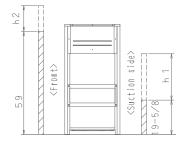

Front: 59in

Suction side: 19-5/8in Side: Height unrestricted.

Installation space shown in this drawing is based on the cooling operation at 95°F outdoor air temperature.

When the design outdoor temperature exceeds 95°F or the load exceeds maximum ability because of much generation load of heat in all outdoor unit, take the suction-side space more broadly than the space shown in this drawing.

 If the above wall heights are exceeded then h2/2 and h1/2 should be added to the front and suction side service spaces respectively as shown in the figure. 3. When installing, the units most appropriate pattern should be selected in order to obtain the best fit in the space available, always bearing in mind the need to leave enough space for a person to pass between the units and wall and for the air to circulate freely.

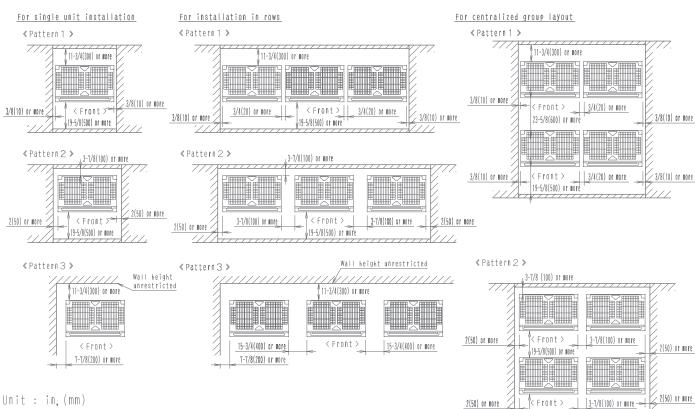

4. The units should be installed to leave sufficient space at the front for the field refrigerant piping work to be carried out comfortably.

# **VRV III PC, VRVT-Series Water Cooled & VRV IV S-Series**Installation Space

### **Notes**

 Heights of walls in case of Patterns 1 and 2:

Front: 59in.

Suction side: 19-5/8in
Side: Height unrestricted.
Installation space shown in above are based on the cooling operation at 95°FDB outdoor air temperature.
The suction side space must be extended in the following case.

- When the design outdoor temperature exceeds 95°FDB.
- When the heat loads are large and exceed maximum operating loads for all outdoor units.
- When the wall heights exceed above, add "h2" /2 and "h1" /2 to the front and suction service

- spaces respectively. (See right figure for "h2" and "h1".)
- When installing units, the most appropriate pattern from those shown above should be selected.
  - A person to pass between the units and surrounding walls.
  - The air to circulate freely.
  - The possibility of short circuiting should be evaluated when installing more units that those shown in the patterns above.
- Sufficient space should be provided in front of the units for refrigerant piping installation and servicing.

59

<Suction :

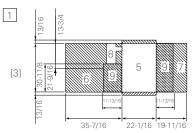

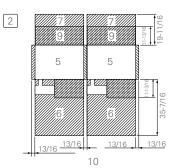

- 1. In case of a single installation [inch.]
- 2. In case of multiple unit installation [inch.]
- 3. Top view
- 4. Side view
- 5. Condensing unit
- 6. Service Space (front side)
- 7. Service Space (back side)
- 8. Space for installing water piping must be ample enough to remove the front panel.

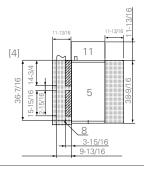

- Ventilation space (refer to Engineering Data Book for further details)
- 10. Secure spaces in the front, back, and top sides as same as the case of single installation.

[1]

11. Service space above the unit for refrigerant piping (refer to Engineering Data Book for further details)

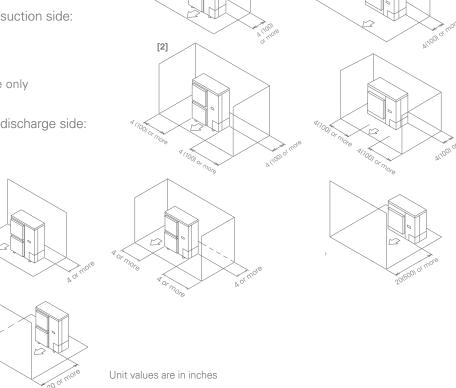

# **URVIV** S-series

In case of series installation, some space between the units is needed for wiring with conduit and servicing.

- 1. Where there is an obstacle on the suction side:
  - (a) No obstacle above
    - (1) Stand alone installation
      - Obstacle on the suction side only
      - Obstacle on both sides
- 2. Where there is an obstacle on the discharge side:
  - (a) No obstacle above
    - (1) Stand alone installation

# **VRV Accessories**Branch Selector Boxes

### **Branch Selector Boxes for Heat Recovery Systems**

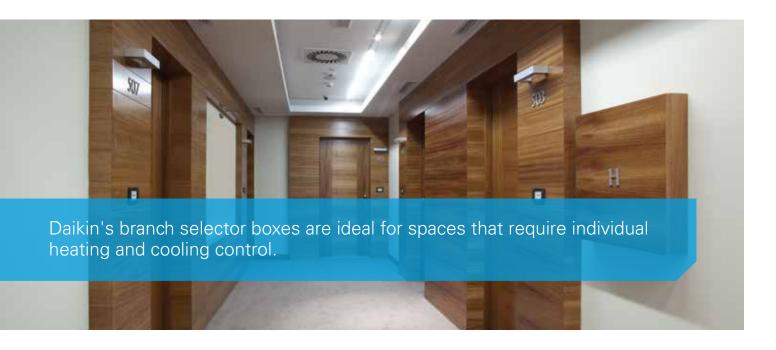

Providing flexibility and minimizing mechanical and electrical installation costs, Daikin's branch selector boxes are ideal for spaces that require individual heating and cooling control.

- Extended range of product offerings with1, 4, 6, 8, 10 and 12 port options
- » No drain or condensate consideration required
- » Unlimited number of unused ports per box or system
- » Reduced electrical and mechanical installation costs
- » Ultimate flexibility Choose multi-port or single-port styles to customize your design
- » Up to 72% reduction in footprint, as compared to previous generation models
- » Up to 17% lower sound levels compared to current VRV III models
- » Up to 65% reduction in weight, as compared to previous generation models

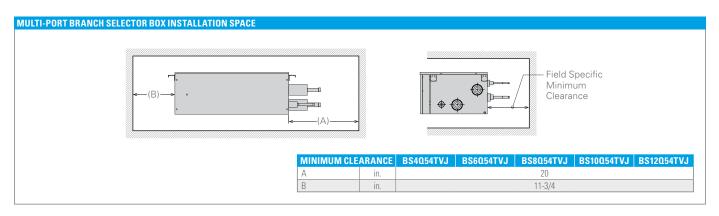

### **Branch Selector Boxes Compatibility**

Single-Port and Multi-Port Branch Selector Boxes BS-TVJ Series are compatible with VRV IV, VRV T-Series Water Cooled and VRV III REYQ\_PC Series.

### Hail Guard Kit for VRV IV

The optional hail guard kit for VRV IV enables optimal airflow for efficient heat transfer while providing condenser coil protection from hail damage in severe climates. Each hail guard kit, that is field installed, consists of 4 panels (Right, Left, Front and Back).

| KIT PART NUMBER | QTY OF KITS PER VRV IV OU MODEL |             |          |              |              | PANEL DIMENSIONS (H X W X D)                |  |                   |                      |

Service space requirements for the front, back and sides of the condensing unit must be at least 4" greater than the service space requirements provided in the condensing unit installation manual and engineering guide.

If the condensing units in multiple unit installations are installed between 0.75" and 3" maximum between units, the side hail guard panels between modules may not be required. For further separation between the modules, full kits for each module may be required.

# Air Handling Kit (AHU) Integration Kit

### **Designed for High Efficiency**

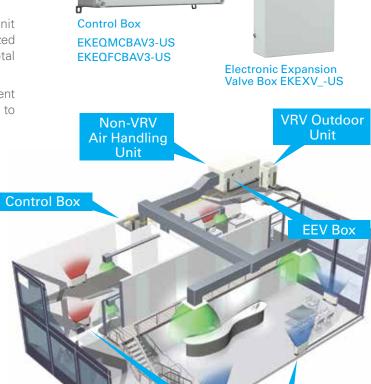

The Daikin Air Handling Unit Integration Kit enables a non-VRV Air Handling Unit to be fully integrated into a Daikin VRV system, allowing the benefits of inverter technology to extend to custom terminal units and air handling equipment.

Designed for high system efficiency, the Air Handling Unit Integration Kit offers a seamless integration and optimized design flexibility for Air Handling Units while keeping total installation and commissioning time to a minimum.

A kit consists of one Control Box and one EEV Box. Two different control methods can be used for an evaporator coil of up to 16 tons.

### **Features and Benefits**

- » Enables non-VRV Air Handling Units to be seamlessly integrated into a Daikin VRV system
- » Integrates to VRV Heat Pump and Heat Recovery systems\*
- » Daikin DIII-NET communication compatible can be used with both Daikin iTM and NAV controller
- » Separate Control Box and EEV Box accommodates flexible installation
- » Available with two control methods:
  - EKEQMCBAV3-US (Z-Control)
  - Standard VRV indoor unit room temperature control
  - EKEQFCBAV3-US (W-Control)
  - Field supplied temperature sensor
  - Field supplied DDC controller with 0-10V capability)

\* Important! For any VRV systems that utilize the AHU integration kits to perform as intended, the DX coil(s) in the non-VRV AHU unit(s) must meet the range of criteria set forth in the AHU Integration Kit Selection Guide and all associated piping and combination rules (refer to IOD-7041A and IOD-7042A), and should be installed in accordance to the installation manual provided with the EKEQ control boxes.

<sup>\*</sup> Important! For any VRV systems that utilize the AHU integration kits to perform as intended, the DX coil(s) in the non-VRV AHU unit(s) must meet the range of criteria set forth in the AHU Integration Kit Selection Guide and all associated piping and combination rules (refer to IOD-7041A and IOD-7042A), and should be installed in accordance to the installation manual provided with the EKEQ control boxes.

### **Features and Benefits**

- » Designed for both indoor and outdoor installation
- » Equipped with refrigerant filters on both sides of the expansion valve
- » Can be mounted up to 16 ft (5m) away from the air handling unit
- » Simplified installation with inlet and outlet brazed connections
- » Wide range that covers from 1.5 ton to 16 ton
- » Same EEVs as used in standard VRV Indoor product to deliver precise refrigerant control

# Control Box EKE CBAV3-US

### **EKEQMCBAV3 - US**

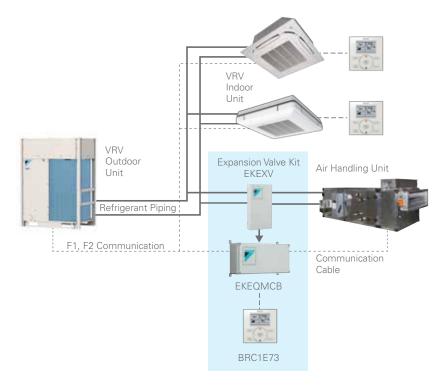

# For use with both Daikin VRV indoor units and custom air handling units

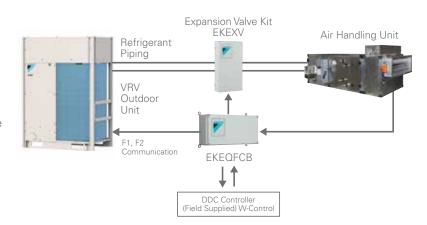

- » Allows for discharge air control
- » Seamless integration of non-VRV air handling units with VRV IV HP and HR systems
- » Enables control of the AHU as a VRV Indoor unit when integrated with a Daikin remote control
- » Connect other VRV indoor units along with the AHU to the condensing units
- » Provides remote ON/OFF option when integrated with optional KRP4A71 board
- » Designed for both indoor and outdoor installations

### **EKEQFCBAV3 - US**

# For use with custom air handling units only

- » Seamlessly integrate non-VRV air handling units with VRV IV HP
- » Best suited for applications where 1 AHU is connected to 1 VRV system only
- » Connect up to 3 integration kits per VRV system to serve a large capacity AHU
- » Unified cooling and heating mode programming
- » Enables control of AHU unit using field temperature sensor and 0-10V field supplied DDC controller
- » Allows for discharge air temperature control

# **FXMQ\_MFVJU**100% Outside Air Processing Unit

### Concealed, Powerful, Compact, Quiet, Fresh Air Quality

This unit provides a zoned, decentralized approach to conditioning outside air. This helps to reduce ductwork and installation time while increasing efficiency and flexibility. Both outside air treatment and space conditioning can be provided from one compact, flexible and efficient VRV system. VRV indoor units and the outdoor air processing unit can be connected to the same refrigerant line, enabling enhanced design flexibility.

### **Features and Benefits**

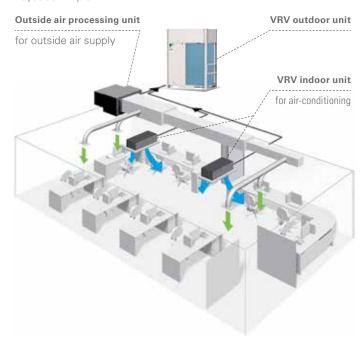

- » Available in three capacities, nominal 48, 72 and 96 MBH
- » The nominal airflow rates are 635, 988, and 1,236 CFM respectively
- » External static pressure capabilities of up to 1.03" W.G. allows for flexibility with duct work and filtration choices
- » The indoor unit is controlled to a set cooling and heating discharge air temperature allowing the flexibility to integrate with a standard Daikin indoor unit or duct directly to the space
- » A low profile design of only 18.5" high reduces the required installation space and can eliminate mechanical rooms or additional structural supports associated with traditional OA systems
- » Indoor Air Quality options include MERV 8 and 13 filters and filter boxes
- » Can be connected to all North American Daikin VRV systems
- » Connects directly and seamlessly into the Daikin local and centralized controllers

### **Operational Characteristics**

When the suction air temperature is between 66°F and 109°F, the Outside Air Processing Unit operates in cooling, and when between 23°F and 59°F, it operates in heating. The OA processing unit will work in energy saving fan only between 59°F and 66°F.

### **VAM GVJU**

# Energy Recovery Ventilator

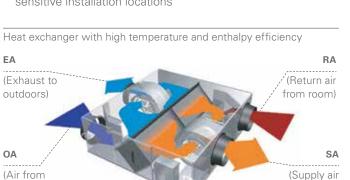

### Energy Efficient, Logical, Compact

This Energy Recovery Ventilator is designed to maintain good indoor air quality by providing sufficient levels of outside air and recover waste heat from exhaust air leaving the conditioned zone. It is also fully compatible with Daikin's DIII-NET communications.

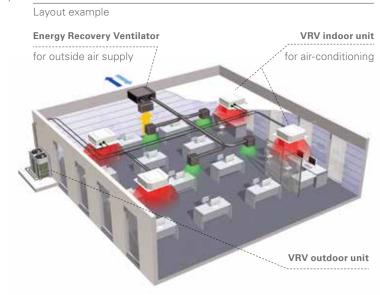

### Features and Benefits

- » Provides energy saving heat recovery ventilation via a heat exchanger with temperature and enthalpy recovery efficiency
- » 0-4% return cross leakage rating
- » Superior performance with a high efficiency fan and the capability for use in a wide range of climates
- » (5 to 122°FDB and 80% RH or less)
- » Integrated functions such as independent operation, third party equipment interlocking and automatic night purge to reduce cooling loads and increase energy savings
- » Interlocked simultaneous operation with VRV indoor units
- » Pre-cooling/heating control function to delay the start of ventilation during air conditioner start-up for higher energy savings
- » Supply and exhaust fresh-up operation modes to help control pressure within a space
- » Filter sign and display reset notifies when filter changes are required
- » Temperature recovery efficiency up to 74%
- » Enthalpy recovery efficiency up to 65%
- » ESP as high as 0.76 "W.G.
- » Sound levels as low as 25.5 dB(A) for sound sensitive installation locations

to room)

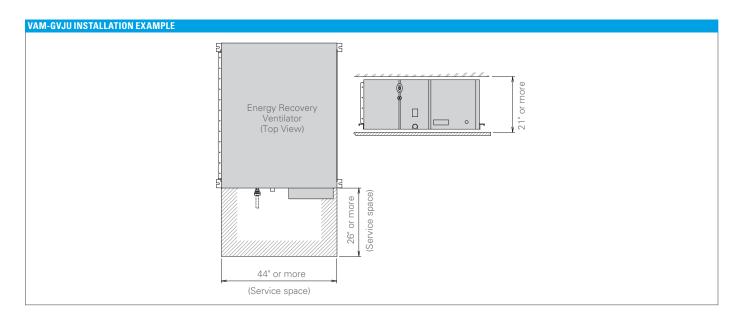

outdoors)

# DVS Dedicated Outside Air System Air Handling Unit Outdoor-Mounted AHU

### Seamless Integration with VRV Systems

Daikin DVS Dedicated Outside Air System (DVS - DOAS AHU) is designed for seamless integration with VRV air cooled heat recovery outdoor units and controls to provide conditioning of 100%outside ventilation air.

Models, with nominal 1,000, 2,000 and 3,000 CFM air flow rates, can be configured with pre-treatment, cooling, reheat and heating components to be applied to a wide variety of commercial applications desiring the advanced features that VRV offers.

### Features and Benefits

- » Designed to condition outside air so the comfort system can operate to meet the internal loads while the DVS DOAS AHU's for VRV Systems conditions the outside air and can also deliver neutral air to the space
- » Energy Recovery Wheel section can reduce the mechanical cooling capacity of the system compared to a system without the ERW section
- » Auxiliary heat available in modulating gas heat, SCR controlled electric heat or hot water
- » DVS DOAS AHU's can be integrated into the same intelligent Touch Manager (iTM) as the comfort cooling and heating VRV system
- » Piping connections between the DVS DOAS AHU's and the VRV outdoor units can be made outside
- » Air flow ranges from 670 to 4,000 cfm allow for flexibility in design

### BRC1E73 - Navigation™ Remote Controller

The Navigation Remote Controller has been enhanced to meet the configuration requirements of Daikin's VRV indoor units. The BRC1E73 provides all the great features and options the market requires. The configurable display and operation buttons will provide as much or as little control as the project requires.

### **Features and Benefits**

- » Basic Operation
  - On/Off, operation mode, setpoint
  - Up to 5 fan speeds selectable (enhanced)
  - Airflow direction (enhanced)
  - Individual louver airflow direction
  - Dual airflow
  - Auto-draft prevention (prevents air blowing directly on occupants)

### » Function

- Configurable display Detailed, Standard, and Simple
- Dual or single cool and heat setpoints for occupied periods
- Independent setback setpoints for unoccupied periods
- Automatic Setback by occupancy sensor
- Automatic Off by occupancy sensor
- Unwanted buttons/operation modes can be disabled
- Setpoint range limitation
- Individual button prohibits/lockout
- Auto-changeover for Heat Recovery and Heat Pump systems with dual or single setpoints
- Control Self-cleaning filter panel functions
- Automatic adjustment for Daylight Savings Time (DST) (enhanced)
- Built in 7, 5+2, 5+1+1, and 1 (everyday) schedule with up to 5 actions per day with independent cooling, heating and setback setpoints

# Individual Controllers Centralized Controllers

### BRC2A71 - Simplified Remote Controller

- » Economical controls solution
- » Suitable for use in hotels rooms, hallways, reception areas and conference rooms
- » Features
  - On/Off
- Fan speed adjustment
- Operation mode
- Single setpoint
- Can be used with the optional remote temperature sensor for sensing room temperature

Simplified remote controller

### BRC4C82/BRC7E818/BRC7E83/BRC7E830 - Wireless Remote Controller

- » The same operation modes and settings as with wired remote controllers are possible.
- » Features
  - On/Off
- Fan speed adjustment
- Operation mode
- Louver position adjustment
- Single setpoint
- Reports system malfunctions
- » A compact signal receiver unit (separate type) to be mounted into a wall or ceiling is included.
  - The Ceiling Suspended and Wall Mount indoor units use signal receivers that are mounted in the indoor unit.

controller and signal receiver unit are sold as a set.

Wireless remote

Signal receiver unit controller (separate type)

### DCS302C71 - Central Remote Controller

Maximum 64 groups (zones) of indoor units can be controlled individually.

- » Maximum 64 groups (128 indoor units) controllable
- » Maximum 128 groups (128 indoor units) are controllable by using 2 Central Remote Controllers, which can control from 2 different places.
- » Zone control
- » Malfunction code display
- » Maximum wiring length 3280 ft. (Total: 6560 ft.)

### DCS301C71 - Unified On/Off Controller

Maximum 16 groups of indoor units can be operated simultaneously/individually.

- » Maximum 16 groups (128 indoor units) controllable
- » Operating status indication (Normal operation, Alarm)
- » Centralized control indication
- » Maximum wiring length 3280 ft. (total: 6560 ft.)
- » Compact size casing (thickness: 0.63in)
- » Connectable with Central Remote Controller, Schedule Timer and BMS system

- » Connectable with Unified ON/OFF Controller, Schedule Timer and BMS system
- » Airflow volume and direction can be controlled individually for indoor units in each group operation.
- » Ventilation volume and mode can be controlled for Energy Recovery Ventilator.
- » Up to 4 ON/OFF pairs can be set per day by connecting a schedule timer.

### DST301BA61 - Schedule Timer

Maximum 128 indoor units can be operated by programmed schedule.

- » Maximum 128 indoor units controllable
- » When used in combination with a Central Remote Controller, a maximum of 8 weekly schedule patterns can be set, while the Central Remote Controller can be used to select desired zones. Up to 2 ON/OFF pairs can be set per day.
- » Maximum 48 hours back up power supply
- » Maximum wiring length 3280 ft. (total: 6560 ft.)
- » Compact size casing (thickness: 0.63in)
- » Connectable with Central Remote Controller, Unified ON/OFF controller and BMS system

# Advanced Multi-Zone Controllers

# DCS601C71 – intelligent Touch Controller™ (iTC) Centralized and Advanced VRV Control

Up to 64 Indoor Unit Groups (128 actual Indoor Units) can be monitored and controlled with individual Cool and Heat Setpoints, Setpoint Range Limitation, Setback Setpoints, and Auto changeover to meet your expectations and project requirements. Up to 128 Indoor Unit Groups (256 actual Indoor Units) can be monitored and controlled with the addition of the Optional DIII-Net Plus Adapter (DCS601A72).

### **Ancillary Equipment Control**

Integrates and/or interlocks sensors, switches, dampers, fans, pumps, and lighting with Daikin Indoor Units.

### Web Access and Alert E-mail

Allows daily remote monitoring and control with the Web/E-mail Software option that can be accessed via the facility's Local Area Network or your Internet connection. Sends Error E-mail to mobile devices with the optional Web/E-mail Software option (DCS004A71).

### **Tenant Billing**

Determines energy consumption of shared condensing units based upon tenant (Indoor Unit) demand using the PPD Software option (DCS002A71).

### **Features**

- » Color LCD touch panel icon display
- » Simplified engineering
- » Multi language (English, French, Italian, German, Spanish)
- » Yearly schedule
- » Independent dual or single setpoints for occupied and setback operation
- » Auto heat/cool changeover
- » Enhanced history function
- » Simple Interlock Function
- » Doubling of number of connectable indoor units by adding a DIII-NET Plus Adapter (option)

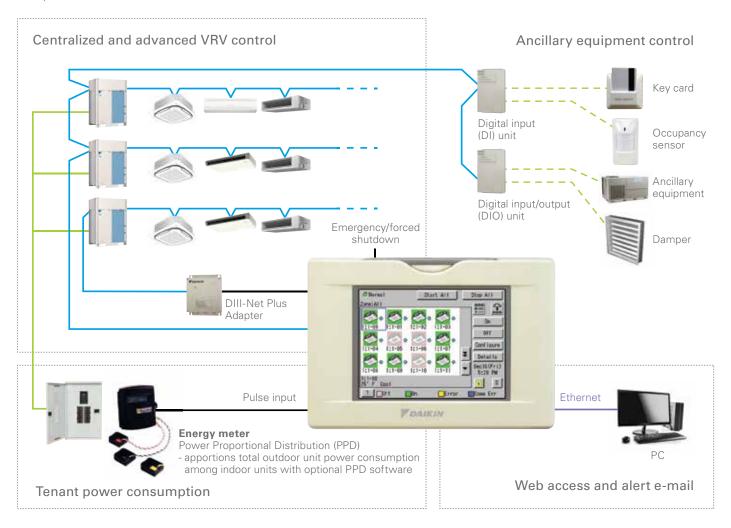

### **Functions**

- » Advanced Zone Level Control
  - Add advanced temperature control functions from a single multi-zone controller
- » Independent Cool, Heat, and Setback Setpoints
- » Advanced Auto changeover
  - Applicable to both VRV Heat Pump and Heat Recovery systems
  - Fixed, Individual, and Average methods
- » Scheduling (7 day, Weekday-Weekend, Weekday-Saturday-Sunday)
- » Centralized Control with three different view styles
- » Setpoint Range Limit
- » Simple interlock
- » PPD (tenant billing option) (DCS002A71)
- » Web server/alarm email (DCS004A71)
- » HTTP interface (option) (DCS007A51)

iTC system overview

# Advanced Multi-Zone Controllers (cont.)

### DCM601A71 - intelligent Touch Manager™ (iTM)

The intelligent Touch Manager (iTM) is an advanced multi-zone controller that provides the most cost-effective way to control and monitor the Daikin VRV system.

### Centralized and Advanced VRV Control

Up to 64 Indoor Unit Groups (128 actual Indoor Units) can be monitored and controlled with individual Cool and Heat Setpoints, Setpoint Range Limitation, Setback Setpoints, and Auto changeover to meet your expectations and project requirements. Up to 512 Indoor Unit Groups (1024 actual Indoor Units) can be monitored and controlled with the addition of up to 7 optional iTM Plus Adapters. (DCS601A72)

### **Ancillary Equipment Control**

Integrates and/or interlocks sensors, switches, dampers, fans, pumps, and lighting with Daikin Indoor Units.

### Web Access and Alert E-mail

Allows daily remote monitoring and control with the Web/E-mail function that can be accessed via the facility's Local Area Network or your Internet connection. Sends Error E-mail to mobile devices with the Web/E-mail function.

### **Tenant Billing**

Determines energy consumption of shared condensing units based upon tenant (Indoor Unit) demand using the PPD Software option (DCM002A71).

### **Features**

- » 10.4" LCD touch screen, USB drive
- » Advanced, scalable and cost-effective management system
  - Up to 650 points (max 512 indoor unit groups (1024 indoor units)
  - Floor plan layout view

### **Functions**

- » Dual setpoints or Single setpoint in Occ or Setback in Unocc
- » Setpoint Range Limitation
- » Scheduling (7 day, Weekday-Weekend, Weekday-Saturday-Sunday, Everyday)
- » Optimum Start and Timed Override

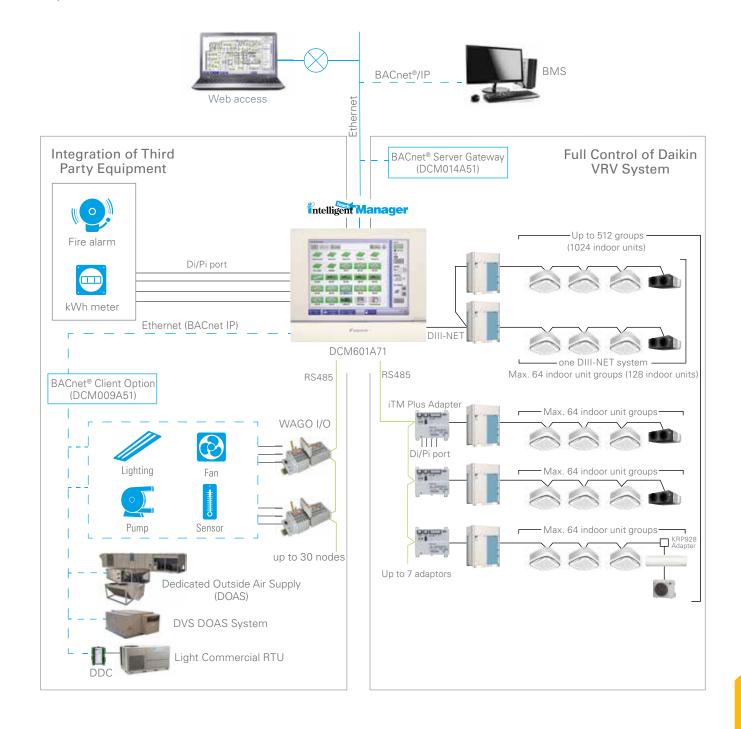

- » Advanced Auto changeover
  - Applicable to both VRV Heat Pump and Heat Recovery systems
  - Fixed, Individual, Average and Vote methods
- » Web Accessibility and Alert Email (standardized)
  - All screen views and configuration menus can be accessed through Web

### » WAGO I/O

- Monitor and control 3rd party equipment with DI, DO, AI and AO signals
- Up to 512 management points
- Interlock function with indoor units and ancillary equipment
- » Power Proportional Distribution Option (DCM002A71)
  - Calculates apportionment of outdoor unit's total power consumption to individual units on the system
- » iTM BACnet® Client Option (DCM009A51)
  - Enabling the BACnet Client option allows the iTM to use the BACnet IP protocol
  - Allows for full monitoring and control of 3rd party BACnet capable equipment
  - Up to 512 BACnet management points
- » iTM BACnet Server Gateway Option (DCM014A51)
  - Provides functionality to monitor and control indoor units (up to 128 indoor units groups) by a BMS via BACnet/IP.
  - Virtual router function embedded that enables individual and configurable Device IDs for each indoor unit group.

iTM System Overview

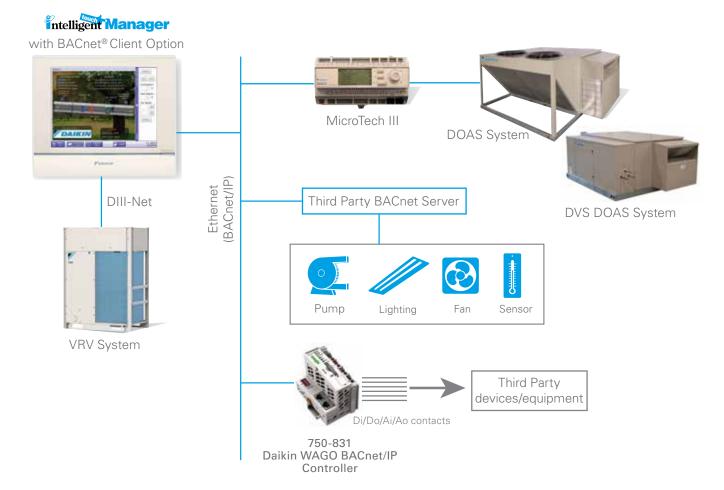

# External Equipment Control

### DCM009A51 - iTM BACnet® Client Option

The iTM offers an advanced and cost-effective solution for Building Management Systems (BMS) applications. The iTM BACnet Client Option (DCM009A51) provides more flexibility to enhance the iTM's function as a mini BMS. With this option, the iTM is able to manage DOAS systems and other third party equipment through the BACnet/IP protocol. By registering equipment connected to a BACnet server as management points in the iTM, you can now monitor and control the equipment via the iTM.

### **Features**

- » Cost- effective BMS solution
- » Direct connection on iTM using the BACnet/IP Protocol
- » Integrated control on Daikin VRV system and Daikin Applied System
- » Monitors and controls third party equipment
- » Easy commissioning with pre-engineering Preset Tool
- » Easy monitoring with preconfigured GUI

### **Object Types**

- » Analog Input, Analog Output, Analog Value
- » Binary Input, Binary Output, Binary Value
- » Multi-State Input, Multi-State Output, Multi-State Value

### **Applications**

- » Simple I/O: Sensor, Pump, Light, Fan
- » Multi-State Objects: AHU, Alarm, Elevator
- » The iTM can integrate with the WAGO BACnet/IP Controller (750-831) using the BACnet Client Server Option

# External Equipment Control (cont.)

### 750-831 - Daikin WAGO BACnet®/IP Controller

The Daikin WAGO BACnet/IP Controller (750-831) is a programmable controller that connects the WAGO I/O system to the BACnet protocol. This controller provides the three following functionalities:

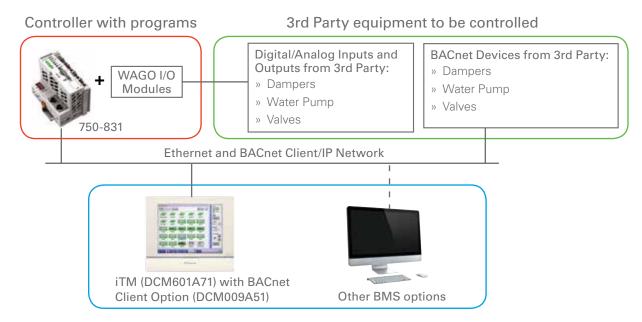

- » Native server: BACnet objects are generated automatically for the DI, DO, AI, AO modules that are connected to the controller.
- » Application server: Other supported BACnet objects can be created via programming and made available to a BACnet network.
- » Application client: Using the client functionality, BACnet objects and the properties of the external equipment can be accessed.

750-831 Daikin WAGO BACnet/IP Controller

Daikin's VRV Marketing Controls Group will provide customizable programming (programming and commission fees apply) for applications where external equipment control is needed. The following application programs are now available:

- » Water Cooled VRV Valve Control: Valve control for water cooled VRV project
- » Ambient Enclosure Heater Control: Damper and auxiliary heater control for outdoor unit dog house projects in cold climate
- » Trending: Trending Client for VRV
- » Custom programming available to fit individual project needs

Monitoring and Management Options

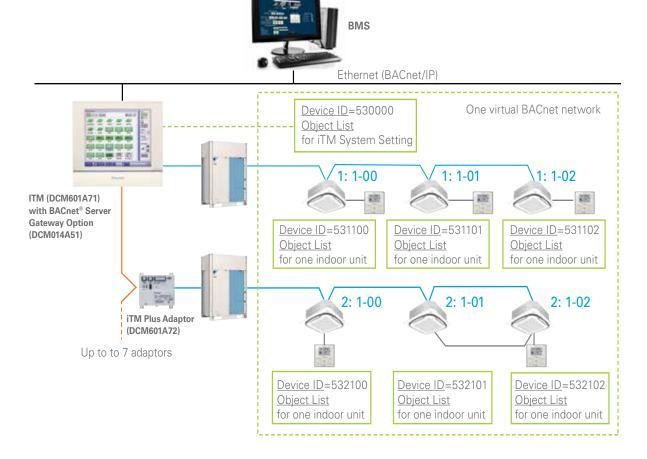

# Interface Solutions

### DCM014A51 - iTM BACnet® Server Gateway Option

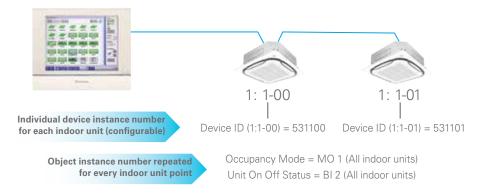

The intelligent Touch Manager is capable of serving as a BACnet interface for Building Management System (BMS) integration. The iTM BACnet Server Gateway Option (DCM014A51) will provide BMS integrators with the ability to monitor and control the VRV indoor units via the BACnet/IP protocol. The iTM BACnet Server Gateway Options, eliminates the need for an additional hardware interface for the BMS to monitor and control VRV system. The iTM BACnet Server Gateway Option will provide seamless control logic integration between the iTM and BMS. With the BACnet Server Gateway Option, up to 128 indoor units management groups can be controlled and monitored by BMS.

### **Features**

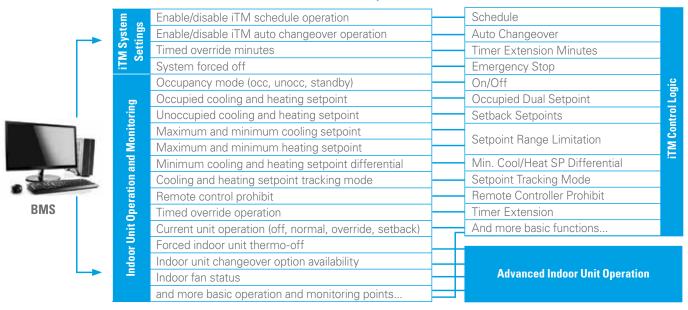

- » Direct connection on iTM using the BACnet/IP Protocol
- » BACnet virtual router function implemented:
  - Individual BACnet device ID assigned to each indoor unit group address
  - Indoor unit group names created in the iTM are visible on the BMS
- » Easy commissioning using CSV file
  - Available objects can be configured for each indoor unit
- » Support Change of Value (COV) notifications to BMS
- » Configurable as a BACnet foreign device if a BBMD exists a on different subnet within a BACnet network
- » Independent heating and cooling setpoints for occupied and unoccupied periods
- » Individual min/max setpoint range limitation for heat and cool modes
- » The iTM's auto changeover, setpoint range limitation, setback, dual setpoint logic and schedule can be accessed by the BMS

### Better Solution and Easy integration with the iTM BACnet Server Gateway Option

### Advanced iTM BACnet Server Gateway Points

The iTM BACnet Server Options links the BACnet points to the logic in the iTM.

# Interface Solutions (cont.)

### DMS502B71 - Interface for use in BACnet®

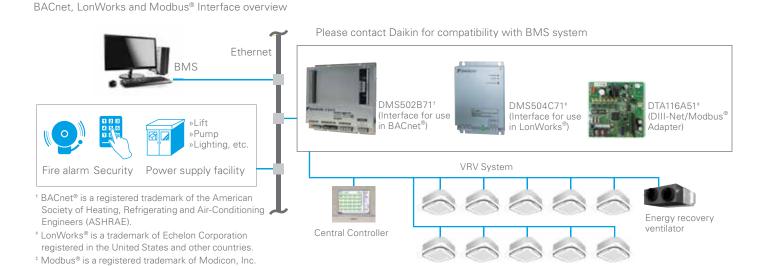

- » BACnet: Building Automation and Control Networks
  - Standard open protocol based on ANSI/ASHREA Standard 135
- » Monitor/Control indoor unit's points
- » Monitor/Control up to 256 indoor units groups (512 indoor units)
- » Certified by BACnet Testing Laboratories (BTL)

- Option Board (DAM411B51) required

### DMS504C71 - Interface for use in LonWorks®

- » BMS interface based on LonTalk
- » Interface between Daikin DIII-Net and BMS LonTalk work station
  - Manages up to 64 indoor unit groups (128 indoor units) with network variables for each group
  - Manages 1 DIII-Net system
- » Lon Interface communicates over twisted pair wire
- » External Interface File (XIF) documents device information available at www.daikinac.com

Daikin's BACnet, LonWorks and Modbus interface units provides control for all VRV systems.

### DTA116A51 - DIII-Net/Modbus® Adapter

- » BMS interface based on Modbus (RS485)
- » Gateway between Daikin DIII-Net and BMS Modbus workstation
  - Manages up to 16 VRV indoor units connected to up to 2 outdoor units
- » Modbus interface communicates via Modbus RTU

# VRV Monitoring Services

### D-NET Air Conditioning Network Service System

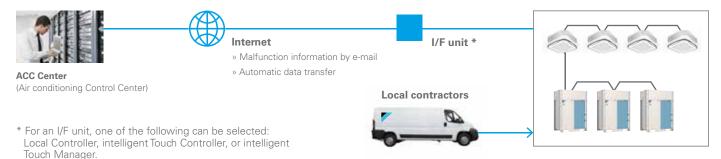

Save energy. Protect your equipment investment. Maintain comfort levels.

D-NET connects your equipment to our monitoring center over the web. We continually monitor more than 80 data points in your equipment\*, so we know exactly how your systems are performing. We also monitor outside conditions

from more than 400 locations across the United States and Canada, so we know what kind of weather you're up against. Putting this information together, we know if your systems can be optimized remotely to reduce your energy consumption.

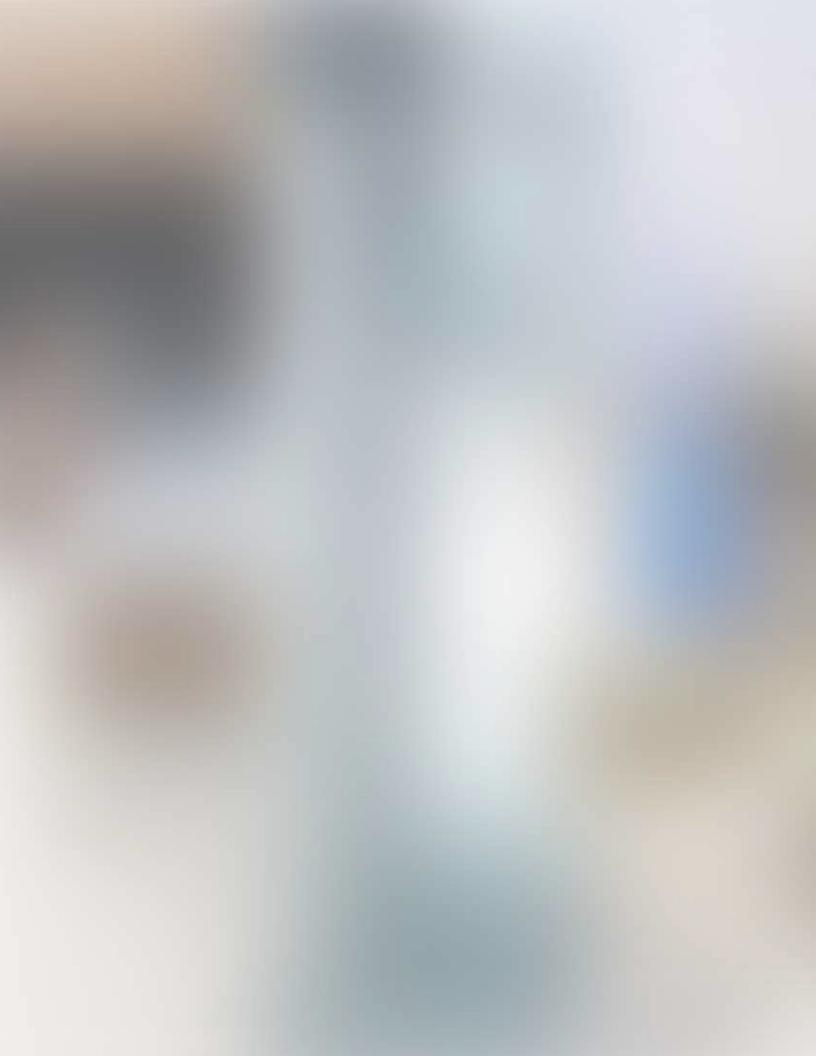

D-NET Air Conditioning Network Service System overview

# Notes

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet **ENERGY STAR®** criteria. Ask your contractor for details or visit www.energystar.gov.

### **Additional Information**

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.
